## WELCOME

### Authentic Craftsmanship

RuffSawn is a luxury and premium brand specializing in solid wood furniture, handcrafted in North America with over 27 years of experience in the industry. RuffSawn products are produced by a unique culture of local furniture builders. This catalogue illustrates authentic images of our process. Our team is passionate and inspired by collaboration, tradition, and the modern world around us. Our purpose is to infuse and emulate creativity in our natural wood designs. We embrace authenticity in our craft and celebrate unique craftsmanship in a world of automated manufacturing. Individually cut and assembled furniture makes customization and expression possible.

### From Forest to Finish

Using domestically-sourced lumber known as Ambrosia Maple, gives customers the ideal mix of quality, durability, and sustainability. Where does our product come from? It starts in our local forests. We use selective cutting surveyors on private wood lots to mark the trees suitable for harvest. Single logging roads are carefully cut into the property to provide access for logging skidders. This allows them to remove the trees by cable, reducing damage to the wood lot. A logger's life is a dangerous job that requires skill, patience, and passion for this kind of work. Logs are tagged and shipped to local mills where band saw or circular blades are used to give RuffSawn our distinctive appearance. Our crafting process enhances the authentic mill marks in our final products. The lumber is then seasoned and kiln dried to produce stable and durable wood for our furniture.

### Tools

Our tools make RuffSawn products authentic and unique. From the drawings on the craftsman's desk to the bench and workspace, they are steeped in furniture making tradition. In contrast to modern manufacturing, many of our tools are hand built by our craftsman or purchased and restored from machinery auctions. Many of our shops use non-electric hand drills for drilling, screwing, and fastening our furniture together. Chain-driven tools attached to implement motors drive our antique table saws, thickness planers, jointers, chop saws, buzz saws, mortise and tenon machines, and stroke sanders. Our chair crafting ingenuity uses boilers, steamers, and wood bending presses from days past. Some of our other shops use more modern electric drills and dovetailers, straight line saws, thickness planer sanders, clamp carriers, and CNC machines. This unique blend of tools produces traditional and modern furnishings that will make your house feel like home.

### Craft

Crafting is not a job, it's a way of life. This requires training, patience, skill, and tradition. RuffSawn supports generations of families in crafting authentic furnishings. They use their hands to plane, measure, cut, glue, clamp, assemble, fasten, shape, hammer, screw, weld, bend, chisel, and sand. Only generations of crafting tradition can create heirloom quality furniture.

### Built

At the end of the day when there are shavings on the floor and our craftsman hang up their aprons, we have a real sense of accomplishment and satisfaction, knowing it was a job well done. A purchase from RuffSawn is a purchase of something authentic.

It's real wood, it's durable, it will last for life. Creating the antiques of tomorrow requires that we build furniture that can outlive the brand. It will last for future generations to restore, repair, refinish, and enjoy again. That is our promise to you.

### Finish

At RuffSawn the secret ingredient for beautiful authentic furniture is the finish. Our finish makes the natural mill marks, textures, and grain age beautifully with time and use. Our wood finishing facility was built without conveyors or tow lines. Furniture is placed on carts to be finished individually.

To further enhance the depth and contrast of our finishing, our furniture is hand sanded and our stain is applied by hand to give real contrast to the grain and textures. Paints, glazes, and epoxy coatings are applied in custom booths that were built for RuffSawn to apply traditional finishes in a fraction of the time. Customers can choose one of two final finish coats, either our tried and tested solvent based or our high-tech water-based finishes. Once dried, we then carefully assemble, inspect, and hand smooth the surface of each piece to ensure the finishing process is perfect.

**We are wood from our forests, textures from our tools, craft from our hands, individually built, and finished.**

# AUTHENTIC CRAFTSMANSHIP

\* Only available smooth (R) sanded.

\*\*Only available in wormy maple rough sawn texture. (R) Smooth sanded not available.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

\*\*\*\*Comes standard smooth sanded (R) optional rough sawn.

\*\*\*\*\*Mix of smooth (R) and rough sawn components.

\*\*\*\*\*Only available in epoxy polyurethane (antique textured or smooth (R) slabs).

For all other items, see price page for texture options.

## OVERVIEW

RuffSawn has 27 years of experience in domestic artisan furniture building, wood finishing, and wholesale distribution to customers across North America. We specialize in luxury custom furniture, premium tailored furniture, and Quickship value priced furniture; all crafted from solid wood materials and finished in our custom shop.

We are excited to launch our new expanded catalogue and pricelist to better support and educate our dealers. Our new expanded SKU system helps customers create, organize, and modify our products with more efficiency by optimizing our three programs:

1. Quickship
2. Elements
3. Tailored
4. Signature

We have worked many years at manufacturing, developing, and expanding our custom artisan furniture line. Our growth has taught us that constant improvement is necessary. We have reached a new milestone in our organization that makes education and communication better. Our new pricelist and catalogue will transform our business from tribal knowledge to institutional knowledge. This ensures that with the support of our partners, RuffSawn can deliver an incredible experience every time.

### Catalogue

Our new catalogue has over 850 pages of products. It features authentic craftsmanship marketing and lifestyle images. These enhanced images and renderings better illustrate our process and limitless product options.

The first 29 pages of our catalogue feature our authentic process in pictures.

We share unique images of RuffSawn's forestry, milling, season and kiln drying process, as well as images of our craftsmen machining, cutting, gluing, and bench-assembling our products.

### Pricelist

Our new pricelist has nearly doubled in size, expanding from 3000 products to 15,000 standard SKUs. We have spent endless hours refining our product SKU system to simplify and expand our almost limitless combinations of finishes, hardware options, and dimensional changes. These new systems are the first stage in flexible design that helps better organize our marketing, sales tools, order system, manufacturing, finishing, packaging, shipping, and delivery. These tools of education will be valuable to training sales and design staff.

### Dealer Marketing Program

We have a new "Authentic Craftsmanship" marketing program for qualified dealers. Our Authentic Craftsmanship images will enhance the consumer experience. Years of work have gone into our branding initiative. Our marketing features authentic images of our builders and tools. Customers will know that our products are legitimate and crafted domestically in artisan shops. Authentic Craftsmanship marketing has been developed to expand online marketing that better connects consumers with our story of unique craftsmen. Transitioning to online sales while integrating our servicing dealers has been our ultimate goal of advancing our brand.

### Dealer Incentive Programs

We are introducing standard programs to assist dealers in marketing and selling RuffSawn products. These tools are to maximize your volume and encourage growth. This is done through easily achievable growth targets which qualify organizations and salespeople with greater rewards and benefits.

### Dealer Training

Our new catalogue and pricelist have been designed to be the basis of our new education program. As a RuffSawn dealer and partner, you will be most successful if you understand our product and can educate the customer about the unique characteristics of our furniture. Properly representing our product can help manage customers' expectations to ensure our products are right for their home and lifestyle. Our training information has been laid out in a format to make it easier to educate both the dealer and consumer. Our manual features product and sales training tips, instructions on the ordering process, how to estimate production and lead time of products, and suggestions for delivery and installation. This is to ensure the process goes smoothly for the customer from point of sale to the final delivery, and first year of ownership and beyond.

At RuffSawn, we believe it is important to educate the customer and manage expectations from the beginning with an honest approach. RuffSawn is committed to preparing our dealers for success.

Please carefully read the catalogue and pricelist. If you have any questions, please reach out to us at [info@ruffsawn.ca](mailto:info@ruffsawn.ca).

We will be releasing podcasts and educational videos in the coming months to help dealers become better acquainted with our new catalogue and pricelist. We encourage all dealers to learn and share this information with staff to educate and train effectively.

**Please Note:** All policies and standards have changed. We have updated our entire catalogue, products, dimensions, descriptions, SKUs, and programs to improve options and communication. All orders placed after November 15th, 2020 will be built according to the new standards. Previous catalogues, price lists, finishes not included in new program will be discontinued. It is important to note that we have removed all soft close under mount hardware as a standard in any products that previously had them as a Standard. All products now come standard with full extension side mount hardware with optional side mount soft close and under mount soft close options. See catalogue and price list for details. Item standards and prices subject to change without prior written notice. Unless otherwise specified, all pieces come in rough sawn texture in wormy maple.

Many of our products in our catalogue are renderings. Renderings are an aid to help visualize the product. Production models may be different than renderings depending on production limitations. Finish colours represented in catalogue images may not accurately depict what the product will look like when ordered. Always refer to physical stain samples for accuracy. Remember that texture, sanding, wood grain, stain dye lots, time of year, and humidity levels will affect how stain is absorbed into wood. Always expect colours will vary 15-25% from samples due to texture, lumber, and colour dye lots.

## LEARN ABOUT OUR PRODUCTS (Terms & Conditions)

### 1. Artisan Shops

RuffSawn products truly can only be duplicated by our craftsmen. Each of our craftsmen's processes are as unique as the equipment they use. The style of manufacturing that we use creates a more hand-crafted product that differs from many CNC mass-produced products on the market. The natural crafted inconsistencies are what make our products truly unique, and almost every piece is one of a kind – like brush strokes on a painting.

Our network of artisan shops specializes in categories such as dining chairs, tables, cabinets, also bedroom, wall cabinets. Media stands, occasional, barn doors, and home office. When products are mixed and matched from different artisans and finished at the same time, our eclectic look can not be duplicated. These natural variations in textures, colour, style, and sanding are celebrated and enhanced by our finish process.

### 2. Our Construction

Our furniture is built to last. RuffSawn incorporates the use of timeless techniques such as mortise and tenon joints in many of our chairs. Our drawer boxes feature dovetail joints in the front and back. Our cabinets are assembled using self-tapping wood screws in pocket holes. Every item is individually bench-built using solid wood. Many of our tables offer tops ranging from 1" up to 3" thickness.

Our selection of stain options enhances the natural beauty and longevity of solid wood furniture. We use high-quality conversion varnishes, polyurethanes, oil-based resins, marine epoxies, and water-based finishes for increased durability and resilience.

### 3. Hardware

RuffSawn offers nearly 70 optional decorative handles and knobs for our cabinets. Many of our handles and knobs are manufactured by us. We offer a COH program (Customer's Own Hardware option). See hardware page for more information.

RuffSawn offers many functional hardware options. Side-mount full extension drawer slides are standard on all our products, with the option of soft-close side-mount, and soft-close under-mount drawer hardware. For cabinet doors we used standard adjustable hinges, and European style hinges with soft-close options. Many of our products also come with decorative and functional French cremone hardware. This beautiful hardware enhances the beauty of our solid wood products. For dining room tables, we have the popular turnbuckle or metal rod options. See our pricelist and catalogue for these options in the dining room section.

We also manufacture our own sliding barn door hardware for wall cabinets as well as functional faux barn doors for interior spaces. We have two options of sliding hardware. One features double caster trolleys with ball bearings. The second option features single wheel trolleys with a more rustic appeal and function.

## Hinges

When describing an item that has doors, it's referred to as having a left or right hinge. This indicates the location of the hinge placement. For a left door the hinges are on the left side of the door. The door will swing open outwards and toward the left. For a right door the hinges are on the right side of the door. The door will swing open outwards towards the right.

## Beds

Storage drawers on beds come standard with side mount slides. Undermount soft-close slides are not available on bed storage.

Bed brackets are designed for a compression fit. Brackets are fastened to the rails. Most bed brackets are designed with a channel insert that is slotted into rail. Bolts are installed into bed posts. The bracket holes are slotted for the bed bolts to sit into the bracket. Once properly fitted and tightened this creates a compression fit. Brackets are intentionally rebated by a 1/4" from the end of the rail. This is to force the wood rail against the post and make a compression fit. Please make sure the bed is fully assembled with slats before tightening the rails. **Caution:** Do not over-tighten bed bolts. This may cause the rail to bow inward or cause the bolts to break or strip.

## Please Note:

Our Dalton wall cabinet, sideboard, and barn door collections have rolling track hardware and that utilize a ball bearing system this is quieter but will also has metal to metal contact that create audible sounds. Our Originals wall cabinets and sideboards have rolling hardware with metal to metal contact, that will have noticeable sounds. Coatings that are sprayed on metal components will wear with time.

With wood doors, drawers, and functional hardware please expect audible noises. Felt pads can be used to reduce some wood to wood contact noise. Many of our hardware items are manufactured by external suppliers. If hardware is discontinued, we reserve the right to offer alternative hardware for construction of product, service, and warranty.

## **4. Metal Products & Finishes**

We produce metal table bases, decorative hardware, and plates. We use standard steel that may have natural distressing and abrasion, weld splatter, grinding marks, uneven colouration, rust, branding from the steel mill, and chalk marks. Many products receive a clear coat to enhance their natural character. Other products receive a black powder coat to create an even finish. These finishes can be optional under our signature series. Naturally occurring marks are not considered a defect but character of the piece. Our metal component shops use various different suppliers for powder coating. Different black variations in texture and colour are possible. When mix and matching between products and styles, variations are to be expected.

## **5. Wormy Maple**

Wormy Maple is a soft maple tree with natural wormholes. Wormy Maple is sometimes called Ambrosia Maple. Its Janka Hardness is 700-950, making it a durable hardwood for building furniture. The wood contains natural mineral streaks that creates variation in colour from white, grey, pink, red, to dark brown. Also, wormy maple features open grain with natural cracks, and open holes that come in many shapes, and frequency. In some cases, the holes can be visible through some of the wood boards depending on how the wood was cut. This is part of the natural beauty of Wormy Maple. These noticeable features or holes will not be concealed by the finish.

### **a. Sustainable**

This naturally distressed material is the perfect lumber to make our handcrafted, and textured products. The vast majority of the trees that are used in our products are at the end of their life cycle, making our products environmentally sustainable. Rarely does the Ambrosia beetle attack healthy trees or have a negative impact on healthy trees or forests.

### **b. Brown Maple Rough Sawn + 10%**

We offer another grade of lumber called brown maple. This material does not have the worm holes in it. This is available for 10% more.

### **c. Brown Maple Smooth Sanded (R) + 20%**

For customers requesting on available products no worm holes and Smooth Sanded (R) a 20% up charge applied. Note that not all products can be made Smooth Sanded (R). First check that the item is available in this texture before requesting Brown Maple Smooth Sanded (R).

## **6. What is Solid Wood?**

Solid wood is lumber that has been directly milled from trees. RuffSawn products are built to last with solid wood materials.

**Note:** Solid wood is used in all of RuffSawn's major components, excluding backs of cabinets and drawer bottoms. This is due to expansion and contraction. Plywood does not expand and contract like solid wood. We have experimented with solid wood drawer bottoms and found that drawers will cause hardware to rub during seasonal changes. This is not the case when we use plywood drawer bottoms.

**What are composite materials?**

These are materials manufactured from a wood, plastic, and adhesive mix.

Composite materials like, plywood, medium-density fiberboard, or veneers do not come directly from the tree. They are by-product that are reconstituted, or in many cases plastic based materials finished to look like wood.

**Why don't we use composite wood in all our major components?**

When wood composite materials are used in furniture construction, the material lacks the longevity of solid wood. Solid wood does not warp as easily compared to engineered woods. Solid wood is easier to repair than veneers or other engineered woods. Engineered wood does not stand up to the test of time. This is a result of the reconstitution process that grinds up the natural wood grain. Wood grain gives solid wood material strength and durability. Once its ground and mixed with adhesive or glue the natural rigidity is lost. Solid wood plywood's with multiple layers are an exception but do not have the same structural strength as solid wood.

**7. Labelling of Products**

All our products and components are built to order. Every item has a handwritten number assigned to it. 6-7 digit PO# and SO#. These numbers act as a serial number for the goods. Additional stickers are applied with customer name and order information with colour. This identification is written and placed on surfaces that are meant to be visible. They can be seen under tabletops, leaves, table stretchers, cabinet and furniture backs, furniture components, and bottom of chair seats. These are necessary in tracking our hand-built orders. These tracking numbers must be written on each piece and cannot be removed. Stickers can become illegible through the finishing process due to coatings. Peeling of stickers is common and not considered warranty if unfinished spots are exposed.

If items are improperly assembled labels can be exposed. Cross members on dining tables must be assembled with labels facing the ground. Centre supports on beds also may have labels exposed.

**8. Authentic Live Edge****Winter Cut (Bark On)**

Winter cut live edge with bark on comes in 1 3/4" thickness only. Winter cut material has limitations on the availability of longer length materials. Contact quotes@woodlawnfurniture.ca for more information if material is requested beyond the 120" length. Winter cut material is harvested in the winter seasons when sap is not flowing through the tree. This allows the bark to adhere to the log when kiln drying the lumber. We carefully handle the logs to avoid damaging the bark. Winter cut material is available only on a limited number of products.

**Special Note:**

Bark live edge is only available rough sawn and is not available in smooth sanded (R).

When an order is placed, order desk will update you on stock and availability after orders are placed if we run into a supply issue. This may be affected by the seasonal cutting and drying involved with winter cut material.

Winter cut (bark on) live edge has natural chips and gaps which are a natural feature. Humidity can also affect the bark. In some cases, we must fill bark edge with epoxy fill, glue, and use nails or staples to secure the bark. Natural or light stain finishes tend to show contrast more. Bark has a dark colour while wood can be light in colour. Gaps between the bark and live edge are also a natural character and feature of the tree either from the milling or drying process. Loose bark that shifts or breaks off when being moved or in transit may require touch ups. This is not considered service or warranty but the characteristic of the material.

**Summer Cut (No Bark)**

Summer cut live edge has the bark removed exposing the smooth live edge of the tree. This material is readily available on most products. Summer cut live edge material is available 1 3/4" and 3" thickness. 1 3/4" material is available up to 15' long upon request (180" long).

With 3" thick live edge materials, there is limitations on the availability of longer length materials. Contact quotes@woodlawnfurniture.ca for more information if material is requested beyond the 120" length.

Live edge material comes with variances in widths and thickness. 1 3/4" live edge material starts as 8/4" material and finished material can range from 1 3/8" to 1 3/4" in final thickness. For 3" tops, rough stock is measured at 12/4" (3"), and after machining can vary up to 10/4"-11/4" in final thickness. 3" live edge material is only available in summer cut. Variances of up to 6" in table width from the specified width can be expected. Variances in depth and the extent of the live edge are not considered warranty as they reflect the natural profile of the tree. The depth and shape of the live edge is not a controllable factor and specific width dimensions cannot be requested.

## Live Edge Table Leaves

We do not offer live edge tables with extension leaves. We have experimented with this and found leaves warp or crack easily due to the stress cause by the length of material running across the leaf. Warping and cracking is an inherent issue with running grain in this direction.

## 9. Oversized Products & Pricing

Oversized products can have hidden costs that increase price exponentially. Products made wider and longer than what is listed in the price list require very specialized manufacturing, finishing, packaging and transport.

Dining tables that exceed 48" will not fit through our standard machines. This requires triple glue ups to exceed 48". Two halves must be made then joined together. This tripled the hour requirements for manufacturing. Longer products require specialized sourcing. Quality lumber typically comes in lengths 8' long. If a table is requested that exceeds 96" special sorting and order requests are required. Material costs become subject to market value and availability. Some builders are more qualified than others who may have higher costs of operation due to sophisticated machinery. This will affect costing on signature quoted items to range at a minimum of 30-100% more than standard SKUs.

## 10. Danger: Cabinets

Large cabinets from 29" and up come equipped with tipping restraints. This is to prevent tipping of furniture which can cause injury or death.

## 11. Product Dimensions

All our products and components are hand cut and made of solid wood. This can cause variations in specified dimensions. Example: Tabletops that are specified to be 42" in width can range 41" to 43" in width. This can be due to changes in relative humidity or due to the variations in hand or manual cut products, and/or a natural variation of the material.

Dimensions in drier months will appear undersized. In high humidity months, items when measured can be found to be oversized.

Length of products can also be affected due to the hand crafting and hand cutting nature of the product up to 1".

Height of tables and items can be different than specified up to 1" depending on the thickness or selection of the top or base. Levellers can also impact the height of items from the floor. Many luxury products can be custom built outside the standard dimensions within limits.

Tabletops can be special ordered longer or wider than specified in our catalogue. Rough stock material comes standard only in 16' (192") lengths with many species. Once imperfections are cut out this may limit the maximum length to 15' (180"). The width of the product has limits due to machinery. Most of our shops have the limitation of 52" in width due to the thickness planer sanders. In some cases, we can manufacture tabletops up to 96" wide. This requires multiple glue-ups and is at a premium cost. In very specialized applications we have the capacity of 96" in table width and 20' in length including breadboard ends and leaves. These two dimensions cannot be combined. Reach out to custom quotes to learn more.

In some cases, product dimensions can vary up to 5" in width, height, depth, and length other than what's stated in price list or catalogue. If dimensions are critical this must be stated on order as "Dimensions Are Critical". Additional fees may apply if not standard.

## 12. Drilling for Cables

Many cabinets are used for electronic equipment storage. Due to the variety of applications, Ruffsawn does not predrill cabinets. If holes are to be drilled, they must be requested with a small line drawing with measurements of where the holes are to be placed. Select SKU: XXRCABLEHOLE. Charges will apply.

## 13. Thicknesses of Material

Our products are made from solid wood material. When our pricelist and catalogue state top thicknesses, these dimensions can refer to both the raw and finished material thickness. There may be inconsistencies due to natural variations.

Example:

4/4" or 1" material can vary in finished thickness from 3/4" - 1".

5/4" or 1 1/4" material can vary in finished thickness from 7/8" - 1 1/4".

6/4" or 1 1/2" material can vary in finished thickness from 1 1/4" - 1 1/2".

8/4" or 2" material can vary in finished thickness from 1 5/8" - 2" in thickness. 12/4" or 3" material can vary in finished thickness from 10/4" - 11/4 in thickness.

## 14. Rough Sawn Textures

RuffSawn pieces are designed to be character artisan productions. All items are built by our antique and less sophisticated equipment that creates our unique look. Rough sawn refers to the natural marks from milling lumber. This includes random machine marks and is not repeatable. Saw mark patterns cannot be specified by customers. Circular saw, band saw, buzz saw, resaw, machine handling, and custom drying and stacking create unique random marks that cannot always be concealed by crafting or finishing.

Natural cupping of rough sawn boards is a normal feature of rough sawn material that has authentic natural mill marks on one side. When green or wet lumber is cut the boards are square. After cutting lumber, we season or kiln dry the material which causes tension making the material either cup or bow. We then dimension and straighten material by planing 3 sides. Once the solid wood material is dimensioned on three sides, craftsmen are able to manufacture furniture with authentic mill marks. The exposed side of the rough sawn board have a natural cupping or bowing. Notice that the centre of the board sits either lower or higher than the outside of the board. We use hand planes to knock down the high spots of the boards when they are glued together. If the surface were to be completely corrected the natural mill marks would be completely removed eliminating the signature look that is authentic RuffSawn. Unevenness of surfaces should be expected with our rough sawn textures because this is normal character and not a flaw.

## 15. Smooth Sanded (R) Texture

Smooth Sanded (R) textures are available for 10% more on many of our products. This term reflects that our smooth sanded products are not precision sanded but are still rustic in nature. Smooth Sanded (R) starts with removing the mill marks by planing all surfaces. Once planed, sanding belts are used to sand our wood. All items are hand-cut, hand-assembled, hand sanded, and wormy maple by nature is a rustic lumber with worm holes and natural cracks and checks. The rustic nature of our furniture cannot be concealed by Rustic Smooth Sanding; rather, these traits will be enhanced. Dishing, sanding marks, machine marks, uneven surfaces, joints, and open gaps will be visible. These natural characteristics are not deemed as defects.

### **Special Note: Smooth Sanded Breadboard Tables**

RuffSawn does not recommend ordering a table with breadboard ends and leaves in a Smooth sanded (R) texture and finish. The natural variation and gaps will be more visible with the smoother texture. As well, expansion and contraction may cause the tabletop to fluctuate compared to the breadboard ends and leaves, making the table surface appear uneven. Any dealer requesting a table be built in the Rustic Smooth (R) texture accepts that there is no warranty for unevenness and seasonal fluctuations that cause bowing and cupping of boards. Please note that the descriptions Smooth Sanded (R) is throughout the catalogue and pricelist to identify what items feature this texture option.

## 16. Texture Options & Descriptions

See explanations below to understand the characteristics of our products.

See the table of contents with product names and listings. These descriptions and Asterisks indicate what texture option is standard, available, and unavailable. Before offering textural changes make sure it is available on the product that your requesting.

1. \* Only available smooth sanded (R)
2. \*\*Only available in wormy maple rough sawn texture. Smooth Sanded (R) not available.
3. \*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).
4. \*\*\*\*Comes Standard Smooth Sanded (R) optional rough sawn.
5. \*\*\*\*\*Mix of Smooth Sanded (R) and rough sawn components.
6. \*\*\*\*\*Only available in epoxy polyurethane (antique textured or Smooth Sanded (R) slabs).

See "Smooth Sanding and painted finishes" disclaimer in pricelist.

## 17. Expansion, Contraction, & the Nature of Solid Wood

Solid wood is a natural product that is affected by humidity and temperature. We ship products across North America to areas with high and low humidity and varying temperatures. Our products are stained and sealed to help protect the furniture from extreme effects of humidity and temperature fluctuations. Our wood is dried to around 7% moisture content before manufacturing our products. In winter, our furniture is manufactured at 20% - 45% relative humidity climate. In the summer months our products are manufactured at 45 - 85% relative humidity climate. Heating and cooling or different climates can affect the fit and finish of our products when the relative humidity is different from when the product was built. Fitment of products resulting from expansion and/or contraction will require servicing dealers to make modification or adjustments with seasonal changes. Doors, drawers, table bases, components with opposing grains will expand and contract. Moving of hardware, fasteners, bolts, clips, and decorative hardware will be required.

## Canadian Wholesale Pricelist

Heating will dry out furniture and cause it to shrink. Humid weather can cause wood to swell and expand. We recommend using humidifiers in cold dry heating seasons. We recommend using dehumidifiers when products are in humid climates. This will help control the stress seasonal changes can cause on solid wood furniture. We recommend customers regulate the relative humidity to 45 - 50% year round. This will create a stable environment for solid wood furniture.

Wood typically by nature does not expand by the length but will experience greater expansion and contraction along the width of a board due to the structure of wood grain. Expansion and contraction of wood can vary by 1/2" to 1" depending on the width of the material and seasonal humidity levels. When changes are visible to our furniture products this may indicate extreme relative humidity swings. This can be controlled by humidifying or dehumidifying. If unfinished lines are exposed by dry conditions, touch up will be required after the product is acclimatized.

Solid wood back material made from tongue and groove materials will expand and contract. All our products are finished after assembly. If boards contract white lines can be visible between boards requiring stain touch-ups.

### **18. Drawer Box Construction**

We use Poplar wood for our drawer box construction. Dovetails hold our drawers together, front and back. We apply a drawer front to the front of our drawer boxes. Drawer bottoms are comprised of 1/4" plywood. Upgraded bottoms are available for an additional \$10 per drawer box to 3/8" material. 1/2" material is available for \$20 per drawer box.

#### ***Drawer Size Weight Restriction (DSWR) Clause***

Drawers have restrictions to depths, widths, heights, and weight.

##### ***Height***

Drawer box heights are limited to 2 1/2" to 10" high as a standard. Higher drawer sizes for file drawers are limited to custom-made drawer boxes to achieve an 11 1/2" height.

##### ***Width***

Drawer box hardware and the usefulness of drawers limits the recommended minimum and maximum width. 6" to 30" in width is the recommended range. Any less and the drawer offers no usable storage. Any wider and the hardware and drawer bottom material will not provide proper support. Hardware can track unevenly the wider the drawer. The drawer bottom material will require upgrading from 1/4" to 3/8" for wider drawers. A 10% up charge will apply to the item if drawer boxes exceed 30". Our standard drawer material is 1/4" plywood for bottoms. If your client requires thicker drawer bottoms this must be specified.

##### ***Depth***

If depth of drawer is reduced this can interfere with function and accessibility of drawer. If a customer reduces the depth of a furniture piece this will reduce the opening size of the drawer box. If the item has a top that has an overhang this will further reduce the opening. Top drawers will have very limited spacing to utilize the drawer box. For example, if the total depth of a Tahoe sofa table is reduced to be under 17" deep, an 8" to 10" drawer box and slide will restrict the opening to less than 5" due to the overhang of the top. This makes the drawer opening very difficult to utilize. This is not a flaw of design but rather a limitation caused by size restraints. This is not considered a flaw or warrantable circumstance.

It is the responsibility of the dealer or sales representative to ensure the customer is aware of these restrictions.

See below for size and weight ratings.

See below for size and weight restrictions of drawer boxes and hardware.

#### ***Side Mount Drawer Box Sizing & Restrictions***

Restriction of 8" to 22" in depth and 6" to 30" in width. Weight ratings are 100 lbs per pair.

#### ***Soft Close Side Mount Drawer Box Sizing & Restrictions***

Restriction of 10" to 22" in depth and 6" to 30" in width. Weight rating is 80 lbs per pair.

***Undermount Soft Close Drawer Box Sizing & Restrictions***

Restrictions are 10" to 20" depth and 6" to 30" in width. Weight rating is 75 lbs per pair.

**19. Movement of Drawers, Doors, Inset Panels, & Beds**

Our solid wood drawers, doors, inset panels, and beds have natural fluctuation in tolerances after assembly and finishing.

Relative humidity changes will also affect the function of drawers, doors, bed panels, tabletops, leaves, and breadboard end, often causing noticeable shifts that can leave unfinished areas of products to be exposed or cause cracking and splitting of wood.

If a drawer and door seems tight or rubs, it is most likely experiencing higher than normal humidity. Doors can expand larger than the opening and require adjustment or trimming and touch-up.

If the gaps around the drawer or doors seem too large than its an indication the space is drier than when the unit was built or adjusted.

Bed panels when the room it too dry, they will contract leaving exposed white lines along the edge of the panel. Touch-up will be required with stain.

**20. Movement of Hardware*****Please Note:***

Functional hardware can also be affected in cold temperatures. Drawer slides can function slowly or appear stuck when the lubricant's viscosity stiffens. After delivery, our products will need to be acclimatized to the space for 7 days. When fluctuations occur, this is not a defect but reflects the nature of solid wood.

Cremone hardware will be affected by changes in humidity. The wood can expand and contract causing hardware to shift. Hardware may require adjustment, remounting, or shimming with washers to ensure proper function. If the door cannot latch or knob cannot open and/or close, adjustment will be necessary. The servicing dealer will be glad to assist you.

**21. Opening & Closing of Doors & Drawers**

Our products are built out of durable solid wood materials. In some cases, improper use can cause damage that is not covered by warranty. Over-extension of doors can cause splitting and breaking of door frames. If a door is opened past its intended range, the spine of the door can be snapped. Drawers must be opened and closed in a normal manner. If drawers are slammed extremely hard, the drawer box can be damaged. If the product tips and the drawer is open, the drawer box can be crushed.

**22. Tabletop Descriptions*****Slab Top - (e.g. Apolo)***

A slab top is a glued up top with multiple wood boards either running the length of the table or the width of the table. Boards are cut to reduce warping and cracking. They are then glued together to create a slab top. These are recommended if a customer requests a smooth sanded (R) tabletop as a substitute for plank top tables.

***Slab Top - Inset Apron - (e.g. Adirondack, Heritage)***

A slab top with inset apron is a glued up top with multiple wood boards either running the length of the table or the width of the table. Boards are cut to reduce warping and cracking. They are then glued together to create a slab top. An apron is fastened onto the bottom and is inset approximately 1 inch. These are recommended if a customer requests a smooth sanded (R) tabletop as a substitute for plank top tables.

***Slab Top - Built-Up Edge - (e.g. Shore)***

A slab top with a flush built-up edge is a glued up top with multiple wood boards either running the length of the table or the width of the table. Boards are cut to reduce warping and cracking. They are then glued together to create a slab top. An apron is fastened onto the bottom and is flush with the edge of the tabletop. These are recommended if a customer requests a smooth sanded (R) tabletop as a substitute for plank top tables.

**Plank Top - (e.g. Ironworks)**

A plank top table is made up of glued up boards to prevent warping. These boards are then joined together with wood splines that are inserted into channels on edge of boards. These joints are glued and a v-groove channel similar to hardwood flooring is machined and hand corrected into the top to distinguish the individual planks. Note: When customers request smooth sanded (R) surfaces on plank top tables, customer or dealer must specify if v-groove channel or breadboard ends are to be modified. Requesting a smooth sanded (R) finish does not remove either the v-grooves or breadboard ends. Breadboard ends cannot be removed with most tops. Breadboard leaf option also cannot have the breadboard end deleted. Breadboard ends will still remain and v-groove channel on breadboard end will remain.

**Plank Top - Inset Apron - (e.g. Tahoe)**

A plank top table is made up of glued up boards to prevent warping. These boards are then joined together with wood splines that are inserted into channels on edge of boards. These joints are glued and a v-groove channel similar to hardwood flooring is machined and hand corrected into the top to distinguish the individual planks. An apron is fastened onto the bottom and is inset approximately 1 inch. Note: When customers request smooth sanded (R) surfaces on plank top tables, customer or dealer must specify if v-groove channel or breadboard ends are to be modified. Requesting a smooth sanded (R) finish does not remove either the v-grooves or breadboard ends. Breadboard ends cannot be removed with most tops. Breadboard leaf option also cannot have the breadboard end deleted. Breadboard ends will still remain and v-groove channel on breadboard end will remain.

**Plank Top - Built-Up Edge - (e.g. Rustic Carlisle)**

A plank top table is made up of glued up boards to prevent warping. These boards are then joined together with wood splines that are inserted into channels on edge of boards. These joints are glued and a v-groove channel similar to hardwood flooring is machined and hand corrected into the top to distinguish the individual planks. An apron is fastened onto the bottom and is flush with the edge of the tabletop. Note: When customers request smooth sanded (R) surfaces on plank top tables, customer or dealer must specify if v-groove channel or breadboard ends are to be modified. Requesting a smooth sanded (R) finish does not remove either the v-grooves or breadboard ends. Breadboard ends cannot be removed with most tops. Breadboard leaf option also cannot have the breadboard end deleted. Breadboard ends will still remain and v-groove channel on breadboard end will remain.

**Butterfly Edge - (e.g. Hugo - Solid Top)**

A 1 3/4 tabletop that has grain running the length of the table. The top is made 12" longer. 6" is cut off on each end and mitre cut 90 degrees on the corners. The end pieces are then folded under the table to create a matching grain pattern. Side aprons are then mitre cut on corners to create a faux 3.5" top. These tables appear to be a solid slab 3.5" thick. A faint seam can be visible on the edge of the table.

**Live Edge 1 3/4 (Summer Cut) - (e.g. Burmese)**

A live edge table is unique. Comes standard with glued up top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Variance in width and thickness is a natural feature of live edge furniture. Variances of up to 6" in table width from specified width can be expected. 2" Material used to achieve 1 3/4" final top thickness (rough) 1 1/2" (smooth sanded). No leaf options. Single sided live edge product could have up to possible 3" variance.

**Live Edge 1 3/4 (Winter Cut) - (e.g. Pillar Live Edge)**

A live edge table is unique. Comes standard with glued up top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Variance in width and thickness is a natural feature of live edge furniture. Variances of up to 6" in table width from specified width can be expected. Winter cut bark on live edge (chips and gaps are a natural feature. Touch up will be required after transport and use). Bark live edge is only available rough sawn and is not available in smooth sanded (R). 2" Material used to achieve 1 3/4" final top thickness (rough). Only available in solid top. No leaf options.

**3" Tops - (e.g. Granada - Single Pedestal)**

Authentic 3" thick tabletops come standard with glued up top (wood boards, straight line cut, glued side by side to create a solid wood panel top). Solid top (wood grain runs length of table). Only available in solid top. No leaf options. Every table is unique. Variance in thickness is a natural characteristic our tops. Example: 3" Tops, rough stock is measured at 12/4 (3") then machined and can vary up to 10/4-11/4 final thickness. These tables require special delivery due to weight. Comes standard in rough sawn wormy maple texture.

**3" Live Edge Top - (e.g. Cross Creek)**

A 3" live edge table comes standard with glued up top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Available with square edge for the same price. This collection comes standard in summer cut live edge (no bark). 3" Not available in winter cut live edge (with bark). Every live edge table is unique. Variance in width and thickness is a natural feature of live edge furniture. Variances of up to 6" in table width from specified width can be expected. Only available in solid top. No leaf options. \*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer). Every table is unique. Variance in width and thickness is a natural characteristic our 3" live edge tops. Example: 3" Tops, rough stock is measured at 12/4 (3") then machined and can vary up to 10/4-11/4 final thickness. 3" live edge top available in summer cut only. Rustic smooth sanded only available summer cut.

**3 3/4"- 4" Built-Up Top**

Built-up tabletops come with 1 1/4" – 1 3/8" material used to achieve final top thickness with built up edge totalling 3 3/4" - 4". Fixed or breadboard leaf option available. Breadboard end cannot be deleted. 1 1/2" material used to achieve 1 3/8" final top thickness with built up edge, total 4". Breadboard leaves (extensions placed on the ends of tables. Wooden slides attached to a board or end caps that opens and leaves can be placed to make a solid top table longer. Breadboards range from 12" each to 24"). \*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available. Comes standard with table levelers. Breadboard leaves range from 12", 16", 18", 22", 24". Standard 18". Built-up edge available in plank top and glued up slab top options.

**Herringbone Tabletop - (e.g. Bristol)**

Unique herringbone pattern tabletop. Available rough sawn texture only, smooth sanded not available. 4" Built up edge. Solid wood over plywood construction (plywood is a stable substrate, it does not expand and contract like solid wood, a breadboard end is not required. Solid wood tops require breadboard ends).

**Single Tree Slice Epoxy Poured Top**

Featuring a solid tree slice. Partially encased in a poured epoxy. Finished in a polyurethane topcoat meant for regular casual dining. Each slab is unique and cannot be duplicated.

**Two Tree Slices Unique Epoxy Poured Top**

Featuring two pieces of unique tree slices fully encased in poured epoxy. These tables are created using custom built molds. Hand poured and hand corrected.

**23. Movement of Tabletops**

Rough sawn solid top tables with and without leaves and breadboard ends are made with opposing grains. With solid top tables the wood grain runs the length of the table. Breadboard end grain runs across the table. Solid top tables will naturally expand and contract from a 1/2" up to a 1" total width depending on the season or humidity level.

In the summer, a table with higher humidity can expand wider than the bread board ends by 1/2"- 1" total width. Tables can also bow down as much as a 1/2" - 1" in higher humidity. In winter, the tabletop will shrink making the top narrower than the bread board ends by a 1/2" - 1" total width. Tables in winter months can curl up on the sides by up to a 1/2" - 1". These are normal seasonal fluctuations with solid wood furniture tops. Tabletops, leaf pins, slides, and latches can experience stiffness due to humidity changes that occur after assembly and finishing. This is a natural characteristic of Rough Sawn and Smooth Sanded (R) Tables. Rough Sawn texture usually hides or reduces the visibility of these natural differences. This must be carefully explained to the end consumer before purchasing. This will not be considered Service & Warranty. All claims pertaining to unevenness of tabletop surfaces and joints will not be considered warranty within these tolerances. Be cautious with placing solid wood furniture in concrete basements, outdoor storage areas, pools, and outdoor spaces. Our furniture is designed for use in stable home environments. Placing solid wood in unstable environments can stress the wood and coatings causing damage that is not covered under warranty.

**24. Apron & Support Policy**

Aprons and support materials cannot be modified on any items. Example: Dining table aprons cannot be made thinner or narrower. They are designed to support legs and require minimum 3" in width to support corner legs. Aprons also provide support for wood tops under 1 3/4 thick, and plank tops to support structure and prevent warping of material.

**25. Signature Table Base Swap**

When a custom table is requested using a base that is dimensioned for a leaf top table, a conversion plate that's 3" will be used. If a customized base is required, a \$750 custom shaper head can be requested. These remain the property of the turnings company.

**26. Tabletop Only No Base Policy**

Any tabletops ordered without a factory-installed base and supports will not qualify for warranty. All items fully engineered with bases supply the proper support to ensure stability of the tabletop. If the dealer or customer wants to install their own base it may not be engineered to properly support our solid wood constructed tops. No claims will be accepted on all tabletop only purchases.

**27. Leaf Option Formats**

- Built up edge breadboard. Top edges flush with apron. (Shore)
- Plank bread board (No apron). Plank is placed directly on top of slides that are visible. (Tahoe Table)
- Plank bread board (Inset apron). Plank is placed directly on top of slides. Aprons are inset around the edge to conceal wood slides so they are not visible. (Tahoe Table)
- Built up edge inset breadboard. Built up tabletops with pullout breadboard. On the end of built up top the flush apron has a breadboard apron. (Bristol Table)
- Flush breadboard. 2" board placed on end and attached to end of slides. (Arthur Philippe)
- Inset apron breadboard with grain running across table. Wood board fastened on slides and inset between legs under tabletop. (Sequoia Table)
- Telescopic leaf option. Table slides openly exposed that individually pull out to support an extension leaf. Leaves equipped with pins that set into slide. (Lexington Table)
- Plug-in Leaf Option. Leaf attached by wood supports that rest into slots cut into table apron.
- Centre leaf inset apron. Slab top table with grain running across table with centre slides that extend. Place leaves with pins onto slides. Aprons are inset to conceal the table slides.
- Centre leaf flush apron. Slab top table with grain running across table with centre slides that extend. Place leaves with pins onto slides. Aprons are flush with edge to conceal the table slides.

**28. Centre Leaf Storage Options****Round Table Minimum Dimensions**

**36" wide table:** Maximum 2 leaves if one leaf is left in table top

**42" wide table:** Maximum 2 leaves if one leaf is left in table top

**48" wide table:** Maximum 2 leaves if one leaf is left in table top

**54" wide table:** Maximum 2 leaves if one leaf is left in table top

**60" wide table:** Maximum 2 leaves if one leaf is left in table top

**Oval or Rectangular Minimum Dimensions**

**36"W x 48"L table:** Maximum 2 leaves if one leaf has no aprons and the skirted leaf is placed inside first with the second leaf face to face with a cloth between finished surfaces.

**42"W x 60"L oval table:** Maximum 2 leaves if one leaf has no aprons and the skirted leaf is placed inside first with the second leaf face to face with a cloth between finished surfaces.

**42"W x 60"L square table:** Maximum 4 leaves if 2 leaves have no aprons and the skirted leaves are placed inside first with the other two leaves face to face with a cloth between finished surfaces.

**42"W x 66"L oval or square table:** Maximum of 4 leaves if 2 leaves have no aprons and the skirted leaves are placed inside first with the other two leaves face to face with a cloth between finished surfaces.

**48"W x 66"L oval or square table:** Maximum of 4 leaves if 2 leaves have no aprons and the skirted leaves are placed inside first with the other two leaves face to face with a cloth between finished surfaces.

Larger tables can use this format and will most likely allow for leaf storage. Table bases and layout can also affect whether the leaves will self store.

## **29. Tables with Expansion Slides (Natural Flex)**

Tables built with expansion slides offer greater seating and chair placement options for all spaces. One thing to note is that centre leaf tables and breadboard extension tables have a natural flex when weight or force is applied on the tabletop at the ends. This natural flex is considered normal and not a flaw. Larger tops will have increased down force or flex. Larger pedestals do not always prevent bowing or natural flexing and will appear to wobble after table has been levelled. Centre legs are recommended for any table with 3 or more centre leaves. Larger tops may also require additional legs to support the table.

## **30. Single Breadboard Leaf & Shorter Table Policy**

We receive order requests for single breadboard leaf options. The breadboard leaf is always attached on the end of the table. We recommend this option only for tables 60" and larger. The breadboard leaf is heavy enough that if installed on a smaller table, the table can become unstable and tip. For tables smaller than 60", the table can pivot when heavy weight is applied to bread board end with leaf installed.

When a one leaf breadboard table is made, we install a fixed breadboard on one side so table looks the same on both ends when leaf is stored. The cost when a leaf is deleted is -\$150. Any bread board table with two leaves that's less than 60" must have both leaves installed at the same time to prevent tipping. It is not considered warranty if a table shorter than 60" has been requested by the dealer and the customer considers the table tippy when they put weight on the end of the breadboard leaf. No table will be warranted for this under 60".

## **31. Table Leaf Installation & Storage**

Due to the handcrafted nature of our products, all leaves are numbered and need to be placed exactly in the slot or order the table was built in. For centre leaf tables we install leaves and do final sanding and blending by hand tools or sanders, as well as edge details. If the order of leaves is mixed up, the leaves can appear to be out of alignment. Check the numbering on the leaves to ensure they are in the correct order and facing the correct direction. Breadboard ends have leaves that we are specifically cut, shaped, and blended when installed. If a table leaf does not appear to lift up, make sure the table number and leaf number are correct. This is generally handwritten on the breadboard, top, and bottom of leaf. Leaf aprons on all tables are rebated for the purpose of expansion and contraction. This prevents the tabletop from having a gap visible on the top of the table when solid wood fluctuates. Gaps on the side of the table are intentional. When there's low humidity during heating season, the leaves will contract in width. If the aprons did not have gaps, the leaf would not fit against the edge of the tabletop surface. The apron would prevent this. Gapping in aprons is by design.

### ***Caution When Installing Leaves***

Leaves and tabletops can pinch hands and cause injury. Carefully keep skin and fingers away from gaps while closing. Mechanisms can also grab clothing, skin, and hair. Avoid reaching under and behind the tabletop apron. Slides can come very close to aprons on ends of tops causing a severe pinch or crushing of fingers.

Also be mindful laying table leaves directly into table surfaces; this can cause damage if rested or dragged. Leaf pins that are for aligning leaves if placed on edge can leave deep dents or gouges. Always rest smooth surface to smooth surface with fabric or towels in between. Never lift or carry a table with the leaves stored or installed.

### ***Centre Leaf Installation***

Generally, centre leaf tables have a centre leaf storage option. Open the table to full extension. Most base plates have countersunk holes for bolts and washers. This area is intended to set leaves for storage. Always face pins towards the centre to avoid catching on slides.

With regards to single pedestal tables 42" and wider, in most cases you can self-store one leaf under the top if you leave one leaf placed in the top. If the intention is to leave the top in a round position, both leaves will have to be stored carefully elsewhere.

For double pedestal tables 42" and wider – place the first two leaves with aprons facing down to the floor onto the base plates. Make sure to face table pins towards the centre from both leaves. If the table is equipped with 3 or 4 leaves, these can be ordered with no aprons. If equipped this way, lay paper towel or thin, soft material on top of stored leaves. Place the leaf face side down and face the pins into the centre. This avoids the pins from catching on the mechanical slides. If tabletop locks are installed on the table, make sure these sharp pieces of metal do not scrape or hit the finished leaves. This can cause abrasion.

Once leaves are secured, carefully close the table until the top closes. If latches are installed on the table, lock the latches to secure tops.

#### **Humidity & Centre Leaves**

With humidity changes, leaves and tops may vary in fit. If the center leaf tables experience a gap in the centre of the leaf and top when leaves are installed and is tight on the outside edges, this indicates higher humidity than normal. This is normal fluctuation and is not considered warranty. Low humidity will cause centre leaf tables to have gaps on the outside of the leaves and tops. The centre of the table and leaf will hit first. This is normal for a solid wood table in low humidity environments and is not considered warranty.

#### **Breadboard Leaf Installation**

Breadboard leaves typically are built 1 1/2" - 4" thick with built up edge. Bread board leaves can be very heavy. Please open the breadboard end and slide it completely out. Then lift and carry the leaf with pins facing towards the main tabletop. Ensure the numbers are correct on the leaf. Each leaf is set into place during manufacturing and blended in place making each leaf unique and not interchangeable. Numbers are handwritten on the bottom of the leaf. Once the leaf number is confirmed, push the leaf into the table end aligning the pins. Once set into place, gently push the breadboard in. Lock latches when in place. Locking leaves into place gives the breadboard leaves strength and stability.

#### **Humidity & Breadboard Leaves**

If pins are tight this means humidity levels have fluctuated. Do not force leaf pins that do not align. This may require adjustment to improve fit. When the table expands the pins will be tight, and the top will be wider than the breadboard leaves. This indicates high humidity. If pins rub and the top appears to be narrower than the leaf, this indicates low humidity. If the leaf pins do not fit, a technician may be needed to enlarge the holes to allow more tolerance. This is normal for a handcrafted solid wood product.

#### **Storage of Leaves**

To ensure leaves are stored properly find a safe place to store leaves and wrap them to protect the finish. If storing leaves on their ends in a closet do not lay on a slant. This can cause warping. Keep leaves in a main floor closet or space. When stored under a bed or couch, be mindful when vacuuming not to damage leaf. Do not store leaves in basements or garages due to humidity fluctuations.

#### **32. Danger: Dining Tables**

Dining tables are made of thick and heavy solid wood components. The tabletop, leaves, and/or base could cause injury or even death if improperly installed or set up. All tables have bolts, screws, joints, and cross members that require proper fitment. If installed incorrectly, the item may not stay assembled and could tip or fall. This could cause serious injury or death for pets or people, especially children.

#### **33. Improperly Assembled Products**

If any item is to be assembled and is missing any fastener or parts, or if items appear to be damaged, please contact info@woodlawnfurniture.ca to request replacement parts. Charges will apply for additional parts and shipping. Woodlawn Furniture Market Inc. accepts no responsibility for items that are improperly assembled causing injury or death. If assembly is unclear please email our office for proper instruction.

#### **34. Table, Chair, Stool, & Bar Chair Placement Restrictions (#CPR) Policy**

All of our chairs, tables, stools, and bar chairs have restrictions of chair placement and dimensional fit. For example, Harvest tables, Trestle tables, Pedestal tables, and Extension tables depending on the design, the dimensions can limit the number of chairs. Depending on the design the pedestal can limit how close the chairs can tuck under the top. The base can also affect where the chairs may sit down the sides of the table and distance between each chair. In some cases, the chairs will straddle the base hiding the end of the table.

#### **Length Seating Limitations**

Many of our 60" and 72" length tables have restrictions with chair placement due to base design. In order for 6 chairs to fit around these tables, legs and pedestals have to be designed with minimal overhang on ends of the table to ensure 2 chairs can fit down each side. Longer standard tables have 13" overhangs for each end for chair placement. This will be reduced to under 6" in some designs to allow at least 40" between legs on side of table to ensure 2 chairs can fit. The limit to the width of chair seats in these applications is 18". Guests will have limited space between each place setting, making for a more intimate experience. Inset cross member is a leg and chair obstruction on 72" and shorter tables. (Recommended 84" and larger).

**Width Seating Limitations**

Many of our tables come 36", 40", and 42" in width as standard. The width can determine maximum seating arrangement. Table legs or bases can restrict chair access and prevent reasonable chair placement. If 36" is not stated in pricing this indicates the base creates too much of a restriction for chair placement. These sizes will not be recommended or available even under our Signature series. If requested Woodlawn Furniture Market Inc. is not responsible of outcome and customer or dealer cannot cancel or return items if they do not work as intended. Woodlawn Furniture Market Inc. requires that dealers and customer confirm placement has been considered and confirmed. Orders cannot be cancelled, returned, or deemed a warranty request due to fit or chair placement. If a table size is requested smaller than our recommended standard dimensions, the dealer or customer accepts responsibility for fit. To ensure fit reach out to RuffSawn to assist you with scaling and custom drawings.

**35. Comfort & Fit Policy**

Furniture is designed with style and comfort in mind. Due to the variations in body types we do not recommend furniture items be purchased sight unseen if comfort is of concern. We recommend stocking dealers sell or tag orders from items displayed on the retail floor. This ensures the comfort is right for the customers.

Example: Dining, counter, bar, stools, or chairs. Items are non-refundable or returnable once ordered due to RuffSawn's comfort and fit policy.

Furniture fit is the responsibility of the dealer or retail customer. No item can be returned due to a sizing error or miscalculation.

**36. Upholstered Chairs & Goods**

Our upholstery utilizes solid wood frames, plywood, and boarding. Screws, nails staples, and glue to fasten products together. Springs, webbing, foam, and fabric are all materials used are new materials. All upholstery materials come with a limited 1 year manufacturers warranty. If fabric requires replacement or repair beyond warranty, all work will be charged at market rate. All shipping and transit will be the responsibility of the dealer. Re-upholstery is not a service we provide.

When a wood seat is ordered on a dining chair, the seats are finished installed on the frame. If a customer or dealer wants to order additional seats and attach upholstered seats to the frame, the area between the seat and frame are unfinished. It will be the dealer or customer's responsibility to complete colour and finish touch up to ensure no unfinished wood is exposed. Seats must be removed to perform touch ups. Touch up stain/paint/glaze/coatings can be purchased to complete the product modification.

All our chairs have plastic glides installed. These may not be suitable for all surfaces and can cause damage. It is the customers responsibility to ensure the glides are suitable for the surface the products are being placed on.

All upholstered chairs come in wormy maple legs in rough sawn texture. If smooth legs are requested worm holes will still be visible. Brown maple can be requested with smooth (R) sanding. See appropriate SKUs to request this.

**Smooth Sanding (SKU: SMOOTH): + 5%**

**Smooth Brown Maple (SKU: SMTHBRNMPL): + 10%**

**37. Finished Surfaces for Purpose of Display**

Our furniture items are manufactured to be placed against walls. Bedroom furniture, wall cabinets, and media stands all have plywood backs that are not to be exposed. Tables, chairs, inside dressers, behind drawers, bottoms of drawers, backs of plywood, underside of occasional pieces, bottoms of products, pocket holes, and adjustable shelf clip holes are not considered finished surfaces for inspection. Backsides of wood pieces made of plywood or solid wood will have visible natural imperfections. Natural cracking, worm holes, lifting grain, open imperfections in wood and grain, glue marks, and stain and wiping marks may be visible. This is non-warrantable.

Most panels are stained and sealed but not all are considered finished. We do not recommend these surfaces be exposed or made visible to open spaces. We typically ensure the top, face and sides are finely finished to be visible. Please note that wall units with crown mouldings have an inset top with pocket holes visible from above. If the customer has a room with overlooking railings, please ensure the customer is aware the piece may not be finished on all surfaces. As a room planner, please be sure you understand the dimension and placement of pieces. If electrical lights are requested these will be mounted on tops or backsides of cabinets unless specified to be concealed. Typically, occasional pieces like coffee tables, dining tables, and chairs have 5 sides finished. If you are looking for an item to be visible on all areas of item such as the face, sides, top, or back please indicate this to custom order desk to ensure the item is suited for the intended space and priced correctly.

### 38. Furniture Stand Alone Policy

All Woodlawn Furniture Market Inc. stand alone products, like wall cabinets, dressers, chests, armoires, nightstands, bookcases etc., that are taller than 29" require proper securing to wall due to the dangers associated with tipping. All products require fastening, screwing, or strapping to the wall to ensure that children, pets, adults, or any persons will not be harmed by tipping or falling products. Proper installation must be performed. An inspection must be completed on initial installation. Follow up inspections are recommended on a daily basis to ensure nothing has been moved, altered, damaged, or is defective after proper installation.

### 39. Built-In Cabinets

Woodlawn Furniture Market Inc. does not manufacture precision built kitchens, wall cabinets, or wall fixtures. All items requiring precision fabrication or installation requiring, coping, scribing, and/or precision fitting into a space, are the responsibility of the customer or third party seller if this is its intended use. Products can be built to spec, within 1" of request. If greater precision is required, this must be noted boldly on each order with product. We cannot guarantee anything greater than a 1/4". We reserve the right to decline orders and/or modify specification to suit our building practices or standards.

### 40. Mattress Standards

Due to variations in manufacturers dimensions and specifications of mattresses we have listed our standard measurements for our products.

- Twin/Single: 39"W x 75"L
- Double/Full: 54"W x 75"L
- California King: 72"W x 84)L
- Twin/Single XL: 39" W x 80" L
- Queen: 60"W x 80)L
- King (Eastern King): 76"W x 80)L

The standard thickness of mattresses is 8-12"H and the standard box spring is 8"H. Combinations of 16-20"H are considered standard. If your mattress dimensions are of concern, please email quotes@woodlawnfurniture.ca to request a confirmation or customization quote. **Please Note:** Our beds are manufactured using standard mattress dimensions. Please confirm the preferred mattress format before selecting a bed. Our beds come in multiple options that do not fit all mattresses universally. If a platform bed is selected, we reduce the size of the bed opening to tightly secure the mattress. Customers with mattress only beds have complained of spacing around the mattress resulting from downsizing most openings for mattress only beds. If a box spring is purchased for a platform bed it will not be guaranteed to fit. If large gaps are visible between mattress and wood bed frames, Woodlawn Furniture Market Inc. is not responsible for dimensional differences.

Beds made for electric beds are sized larger than normal. Installing a metal frame later for a standard bed will have a larger space around mattress and box spring. Boxed foam mattresses (Mattress-in-a-Box) also can fit irregularly in our bed frames. Mattress-in-a-box dimensions have been known to be non-standard.

If the customer has very specific needs this must be stated, and the customer must request a bed through our Signature Options program for a custom fit. Custom charges will apply, and this option is not available on any standard items or Quickship.

RuffSawn wood headboards come in a variety of standards. We produce beds with varying post designs such as solid post beds, segmented post beds and removable post beds. These are not options but standards. This will alter the appearance of the product depending on what model or SKU is chosen the post design can vary. Some medium height beds have removable posts to reduce size for shipping. Other beds depending on height will have a segmented post. For example, a Keatsway bed has a segmented post to reduce height for installing into confined hallways and staircases. With some styles, the posts are made up of multiple boards joined together with screws and plugs. Or they are glued and laminated together with multiple boards. These joints and glue lines are visible from the front in some models. The live edge bed has visible joints facing the face of the bed. When models are ordered in the high headboard option like the 68"H live edge bed, the post must be rotated to incorporate the segmented post to make sure the bed can be made smaller for shipping and delivery. This is not optional when designs are engineered for this suited purpose.

### 41. Removable Bed Posts

With Quickship beds and 68" high headboards, posts are removable. This is to make it easier for shipping Quickship sets on pallets. For large headboards that are 68" high this is to reduce the size for moving into living spaces.

### 42. Wood Rails

Many of our wood rails are made of solid wood single planks. These are kiln dried and machined. After dimensioning solid wood rails, they can twist or warp slightly. This is a characteristic of solid wood furniture. This is not considered a flaw or defect due to the nature of solid wood. If a rail has a natural curve and the slats are properly supported this will be considered structurally sound. If a customer wishes to add steel supports to the rails to remove any natural curves, this can be purchased using **SKU # RAILSPRT**. These come in a set of 2.

**43. Electric Bed Side Rail Option**

We now offer an electric side rail options for beds. This new feature allows our wood frames to sit around an electric frame. These wood rails are made of solid wood and are engineered to prevent warping. These rails are 1 3/4 in thickness and come with steel enforcement.

**Option 1:** Add electric rails (SKU: XXELESRSTADD). This allows you to receive the original bed, rail and slat systems and in addition receive electric rails. This allows the bed to be used for either option in future.

**Option 2:** Delete rails and substitute electric rails (SKU: XXELESRSTSUB). These rails do not come with slats or centre supports. (Future upgrade will be a signature up charge and custom quote due to fluctuations in specifications \$350 minimum charge).

To ensure fit of adjustable bed please submit the make, model, and dimensions to determine if the mechanism has the required clearance to comfortably fit. Woodlawn Furniture Market Inc. and associated brands do not guarantee fit when procedure is not followed. Customization charges will apply if headboard, footboard, and side rails need to be modified to fit mechanism. If two mechanisms are installed into a king size bed, this may require complete customization. Requests to modify existing wood rail systems is not possible for electric beds.

If wood supports on rails are removable and not glued and assembled incorrectly this could lead to a defect that could lead to injury. If rails are modified and not correctly assembled Woodlawn Furniture Market Inc. cannot be held liable.

**44. Universal Rail System**

We have introduced a new universal-styled rail system. These systems can be attached to most beds. These are a platform option with footboard storage and side rail storage. Add the feature up charge to the standard bed and size to determine price.

**45. Slat Systems**

Slat systems vary on all beds: 4 wood slats with centre support, wide plank slats with centre supports, and storage drawers with plywood. All slat systems require centre supports and these will be visible under beds.

**46. Headboard Only**

All headboards when purchased separately will come with a French cleat to attach the headboard to the wall. All our "Headboards Only" are substantial pieces that require attachment to the wall to avoid injury. To secure headboards properly, fasten the French cleat directly to the studs or concrete. Then lift and drop the headboard onto the French cleat to ensure the headboard rests safely in the slot. Make sure the headboard is level and properly supported, making sure the legs rest directly on the floor. RuffSawn improves products and adjusts dimensions over time. To be sure that an add on component will fit, the customer would need to supply RuffSawn with a sketch of the width of the bed on the headboard and footboard, both the outside and inside dimensions of the posts, post width and thickness, and bolt hole heights. The customer would also be responsible for minor adjustment to bolts and brackets during installation. Fasten additional screws to lock the headboard in place. (Additional fasteners may be required to attach to the desired surface). No mounting brackets to attach metal frames are provided. Standard bed bolts will be installed in posts for rails and footboard so future expansion is possible if requested. Once headboard is installed on the wall push the bed frame against the headboard with the mattress and box spring. Use felt pads on end of metal frame to protect wood headboard.

**47. Barn Tracks & Trolleys**

Barn doors and tracks require assembly and installation. Wood mounting boards are required for attaching the track rail. The wood mounting boards allow for tolerance between the doors and wall. This is to ensure the door can slide without dragging or rubbing on the wall or trim. Mounting boards also make fastening the hardware easier when spacing does not align with studs. If the door and track are ordered without mounting boards, we will not guarantee fit or finish of the door system.

**48. Preassembly Procedure & Numbering System**

All furniture is preassembled in our factory before finishing. Due to the nature of handcrafted furniture our products are not precision built. They are individually hand cut and every piece is unique. Make sure to follow the numbering system when assembling products such as bases, pedestals, legs, cross supports, leaves, drawers, doors, hinges, shelves, rails, slats, and storage drawers with matching order numbers. All components are one of a kind and are not interchangeable. Do not mix up parts - rather keep sets or unique products together with matching components. Labels on boxes and handwritten identification marked directly on pieces identified as SO #'s and PO #'s, is located on each piece or component. These numbers help identify all components needed. (Note all identification markers are hand written by craftsman using permanent marker or printed labels. These numbers are hand written on bottoms of tables, leaves, bases, legs, stretchers, backs of cabinets, bottoms of occasional pieces. Finishing and stains will not conceal these marks. Writing may be visible when viewed from underneath furniture item.

**49. Furniture Finishes**

We use both solvent and water-based products. Our protective coatings ensure a durable surface for everyday life whether it is at home or your office. RuffSawn has an exclusive colour pallet of stains, glazes and paints that have been developed. These colours and finish coatings stand the test of time and keep pace with emerging trends. Choose from our selection of 80 or more colours or request a colour match or custom signature finish. See our options of coatings and systems.

**Note:** Finishes do not provide consistent coverage of colour. Wood grain can appear smoother and rougher in some areas. Gloss levels will appear uneven and random and some may appear to be dry spots. This is a natural variation of rough sawn textures. There are variety of levels of roughness on all pieces that will affect the appearance, feel, colour and finish of individually crafted items. For example, tabletops are sanded more and since they are a large flat surface, they receive a greater volume of coatings compared with the fronts, sides, and upright components of furniture items. RuffSawn sample boards are made from varying boards and are more comparable to drawer fronts, table aprons, and cabinet sides. Finish samples do not always accurately display the texture or appearance of an individually built item. This can vary dramatically depending on the texture of the board, the production process, and the finishing process. Tabletops can appear lighter in colour if finer sanded.

**50. Conversion Varnish**

RuffSawn's premium conversion varnishes are high solids coating systems. They meet and exceed all KCMA specifications (Kitchen Cabinet Maker Association). Our products offer outstanding UV protection, excellent moisture resistance, and have been formulated for demanding environments, such as kitchen cabinetry, commercial furniture, and millwork.

**51. Natural Seal Option**

Our Natural Seal finish has been designed for protecting food preparation surfaces and wood salad bowls. It creates a film finish that once cured is food safe. Natural seal is an oil-based topcoat that is made with the highest-quality urethane resin, making it extremely durable and long-lasting. Formulated to provide deep-down protection for that "natural" wood look.

**Note:** We do not recommend for use on cutting boards. Chopping or cutting will damage the finish and wood surface. We recommend always using a supplementary cutting board.

**52. Polyurethane Finish Option**

RuffSawn uses a revolutionary new polyurethane that is an isocyanate-free urethane. This product provides the benefits of polyurethane chemistry without the handling issues associated with isocyanates. Unique new cross-linking chemistry provides a polyurethane product without the use of isocyanate or formaldehyde-containing products. Our finish can be used in Greenguard certified systems. This premium product is recommended for commercial tabletops and high traffic residential products.

**53. Waterborne Stains & Coatings**

RuffSawn's line of waterborne coatings continue to rise in popularity and can be used for a variety of coating applications. Waterborne coatings are environmentally safer, as they do not contain as many hazardous compounds as solvent based coatings. Another benefit of waterborne coatings is that they can be cleaned with water and do not require solvent thinners, making these products safer for the environment.

**54. Natural Clear Coat & Light Stain Finishes**

If natural clear coat finishes with no stains are requested and applied to our furniture, the finishing and sanding process will not conceal all of the variances in grain, texture, grain colour, or drying marks that can appear as grey linear marks. Variances also include red, green, blue, orange, and black paints from the lumber marking and grading process. These items will be visible.

**55. Epoxy Finish**

All of RuffSawn's epoxies are 100% solids with no evaporating solvents and have low viscosity for superb penetration. We use the strongest marine-grade and water resistant epoxy with the highest UV protection. Our epoxy resin has a proven track record; it has a low viscosity and is excellent for working with wood. We blend and modify our epoxies and add special additives that help us to get the air bubbles out and to improve flow for deeper poured tops. These additives reduce surface cratering and pin holing that can be a result of a less than perfect substrate. Suitable for antique lumber tops and thick tree slices. All epoxy tops are then top coated with our polyurethane coatings to create a high end furniture finish.

**56. Painted Finish Policy**

Painted finishes applied to Rustic Smooth Sanded or Rough Sawn wormy maple will not conceal the natural voids, gaps, checks, cracks, or texture differences in wormy maple, or plywood backs and drawer bottoms. If these natural worm holes are a concern, the customer can request Brown Maple Rough Sawn for an additional +10%. Brown maple Smooth Sanded (R) is +20%. A customer ordering brown maple must list no worm holes for best results. Some brown maple products can have a low percentage of worm holes.

**Note:** All furniture products regardless of texture or maple wood grade use the same standard plywood in backs, drawer bottoms and specified furniture components. The fit and finish will remain similar to rustic products and plywood will still be visible through paint due to the nature of the product.

**57. Air Quality Policy**

Our products are specified to be manufactured using components that adhere to both Canadian and California law in regard to environmental and health standards. Our products are put through an oven to dry the coatings. This helps accelerate the drying process. All of our products are new production and will have VOC (Volatile Organic Compound) off-gassing for an unspecified period of time.

Newly manufactured products do increase the likelihood that off-gassing odors will be stronger in the first 3 months of ownership. If infants or people with environmental sensitivity are present in the customers home, we recommend considering the following options:

- a) Purchasing furniture in advance and storing it for 3 months before delivery and use in the home.
- b) Recommend buying floor models that have had 90 days or more of off-gassing prior to use. Caution: Packaged furniture stored in warehouses do not cure as well as unpackaged items. If items have been in inventory and not unwrapped be cautious to offer this inventory as cured products. We only recommend unwrapped products be sold to customers with environmental sensitivities.
- c) We offer 12 standard water-based finishes that omit less VOC (Volatile Organic Compound) off-gassing and do not have as much harmful chemicals by quantity compared to solvent based finishes. Please consider our finish options carefully. Woodlawn Furniture Market Inc. does not accept returns due to finish smells or odours.

**58. Custom Colour Match**

Custom colour matches can be provided for an additional cost. Some finishes cannot be duplicated. Some techniques, textures, wood species, and sanding can prevent an exact match. Send a sample or image to RuffSawn to request if a finish can be duplicated.

**Please Note:** When order desk is quoting products, all quotes provided are in a standard stain or finish. All custom finishes are an additional upcharge from standard stain. If a custom finish is requested at Quotes it must be clearly stated. If custom finish charges are omitted, we reserve the right to update and modify pricing of quotes. See pricelist for details.

Samples must be sent to RuffSawn office prepaid and marked with order number to identify order. If this is not clearly marked the sample could be lost and Woodlawn Furniture Market Inc. is not liable.

**59. Colour Reference**

Customers can send in a colour reference that will not be matched but can be complimented or referenced. If exact colour is requested, we recommend paying for a custom colour match.

In some cases, customers are requesting a certain shade of RuffSawn's colour samples. These can vary up to 15% in colour range. Please send samples for reference if customer is very specific.

**Please Note:** The wood sample texture must match the product texture being ordered. We cannot match smooth sanded colours from rough sawn samples or vice versa we cannot match a colour from a rough sawn sample to a smooth sanded (R) product. The difference from the wood, and texture can affect the colour reference beyond what is possible. Please reach out to RuffSawn to confirm customer needs. Texture of products and sample reference must be confirmed on work orders.

Samples must be sent to RuffSawn office prepaid and marked with order number to identify order. If this is not clearly marked the sample could be lost and Woodlawn Furniture Market Inc. is not liable.

**60. Product Colour Dye Lots**

When stocking or reordering products from Woodlawn Furniture Market Inc. and associated brands, expect dye lot differences in texture, grain, hardware, sheen, colour and in fit of components. All furniture items are built one of a kind. Bed rails, table legs, table bases, table leaves, shelves, doors, and suites must be kept together to ensure proper colour dye lot and fitment. Ensure that dye lots are organized together in the warehouse, and all boxes and matching components are kept together. If products do not match and orders were mixed up by dealer, Woodlawn Furniture Market Inc. will not consider the product defective and the item will not be covered under our service and warranty policy.

**61. Lighting**

Natural bright light and dark rooms may affect the appearance of our finishes. Always put the sample of desired finish into the client room to understand the appearance of the colours. Time of day can also affect the appearance with lighting changes.

Dark and light colours can appear darker in low lit rooms. Brighter rooms can make colours look lighter. Some finishes may even look less desirable in bright natural lit rooms, bright light can expose natural variance in texture and coatings. It is important to consider all of these options before selecting a colour. Allow for 15% variance in colours samples. Lighting may enhance this even more. Coatings can also appear different in brighter rooms; gloss levels will appear uneven and random and some may appear to be dry in appearance in some spots.

These variances are not considered defects, under warranty and service. Finishing materials will not conceal natural variation in colour and grain pattern, thus an exact colour or grain match is not guaranteed. Each piece of furniture is unique and will reflect its own character and colour which are signs of the genuine nature of our solid wood product and are not defects.

**62. Light Colours vs Dark Colours**

Light coloured furniture does not require as much service and care when being used. Light colours and finishes wear well with use. Dust, fingerprints, food stains, dents, scratches, difference in coatings, and textures will be less visible than a darker finish.

Dark colours do require more service and care when being used. Dark colours and finishes show wear and tear more than light colours. Dust, fingerprints, food stains, dents, scratches, difference in coatings, and textures will be more visible than a lighter colour.

**63. Matching Previous Orders**

If furniture has been purchased previously, dealers must disclose that the order is to be matched to a previous order. RuffSawn products vary over time. A 15% charge will apply.

Dealers are required to submit RuffSawn's previous order number, a colour photo or sample of previous finish, product texture must be identified, exact dimensions, top and material thicknesses, decorative and functional hardware specs, a line drawing of all features and relevant dimensions including face frame, doors, dimensions of drawer fronts, interiors, and depths, hardware, top thickness, outside dimensions, top depth, body depth, and any critical features or accents, must be sent with the order. Certain additional charges may apply. Some items may not be possible to duplicate. RuffSawn does not accept responsibility for variations over time.

If applicable details are not disclosed in writing on the new order, Woodlawn Furniture Market Inc. and associated brands do not accept any responsibility. All details from previous emails must be summarized on the submitted order.

**Please Note:** All furniture items are non repeatable. Specifications, finishes, colour, wood grain and texture, assembly of items, and components can fluctuate. If an item is to be referenced to match a previous item purchased, the item must be ordered through our signature program for best results. No guarantees can be made of an exact match.

**64. Matching Components & Parts**

If a customer requires a new component to be made or added, we require the original parts to match and size be sent for sizing. All our products are custom made and each component is unique and not precision built.

If a new drawer box, drawer front, door, shelf, leg, panel, table leaf, gable, foot, etc. is required, we require the customer or dealer to send the original component back for reproduction. The item must be properly packed to avoid damage, and pictures and dimensions should also be shared.

If original component is needing adjustment, then a small drawing with a full description must be included. Tracing or scribing of products may be required on cardboard or paper to ensure a proper pattern is supplied. When dealing with shaped components, this can help ensure proper fit.

## Canadian Wholesale Pricelist

All component orders require a work order entered into the system. To ensure the item is not lost, please include a work order with full description and dealer order number so item can be identified. If products are not properly packaged, marked, and identified and the item is lost either in transit or upon arrival to RuffSawn facility, Woodlawn Furniture Market Inc. cannot be held liable. Always ensure a signature is requested and follow up with a phone call and email to ensure the package has arrived safely. Always require tracking on packages and proper insurance.

### 65. Product Size & Weight

When assisting a customer on their purchase of RuffSawn products, be mindful of product size; not only because of practicality and use but also transportation and mobility of the skid or packaging. When it arrives, consider door openings, hallways, staircases, elevator dimensions, tight turns, walls, floors, ceilings, lighting, and obstructions. Also consider the weight and the number of staff required to move the item. Planning ahead can ensure a seamless experience. Extra shipping charges will apply for oversized products exceeding 90 inches in length. Not asking the right questions can lead to a bitter experience for the customer. It is important to also consider the dimensions of products when they are tipped or leaned. Items can be much larger than they seem when angled or tipped while being carried.

For example, if you look at a large media stand that is 100" long, when tipped it could stand 12' feet high. If a dresser is 22" deep and 36"-45" high, when tipped back the item could easily be 42"-60" in depth depending on how the cabinet is carried. This does not account for its length.

Handling or carrying products can be challenging. A 6' tall person with arms extended may hold a product 36" off the ground. This will make taller items like a 42" high cabinets 7' tall. If the person does not lean down this item can scrape on top of a door frame while being carried. Always hire qualified delivery companies to ensure a successful delivery.

### 66. Custom Skidding & Freight Charges

Custom products that exceed common skid sizes of 42" x 48" when packaged will be subject to additional charges. Custom skidding and boxes can be manufactured in our facility.

### 67. Docks & Tailgate Service

Docks are necessary to handle heavy products. If a dock is not available, a tailgate service must be requested. Our products can easily be damaged when a tailgate service is not requested. Trucking companies will confirm if a tailgate or dock was available. If shipping damage is claimed this will be considered. This can make any claim null or void. Please ensure accurate information is communicated with logistics to ensure the safe arrival of our products.

### 68. Elevator Policy

Our products can be oversized. We do not guarantee items will fit into an elevator or staircase. Please ensure the item purchased fits by taking the following precautions.

Confirm our products can fit into the elevator with packaging.

If a finished product dimensions is listed, add 6" to every dimension to allow for packaging as a general rule. For example, a dining room table comes in a minimum of 2 boxes for the tabletop and base, and 3 boxes for dining tables with leaves. The largest box would be the tabletop. If the tabletop is 48" W x 84" L x 4" thick, the box would be +6" to each dimension. Packaging would be 54" W x 90" L x 10" thick.

Please measure the dimensions of elevator depth, width, height, and door size. If items are too large in the package to fit onto the elevator, unpacking the product and careful handling by movers may be required to bring the item up into your space. This would be an additional cost or step that is required that the customer or dealer would be responsible for. If the items are too large for the elevator, the use of the stairs may be necessary. Custom ordering furniture to fit into your space is the preferred option. Reach out to order desk/custom quotes with your elevator dimensions along with pictures. We can assist in designing a product that can navigate your spaces.

Indicate if the product must fit with packaging. Add **SKU #NPK** (Navigate Packaged).

If you want to maximize the fit of our products indicate navigation unpackaged **SKU #NUP** (Navigate Unpackaged).

This may increase the risk of damage. Movers will be required to unpack, carefully blanket wrap, and move the item without any risk of abrasion or damage to product and interior space. Make sure to interview movers as to their ability to move furnishings. Request what experience they have and what guarantee they will provide.

Pricing with regards to creating custom size products to fit into an interior space are relatively inexpensive compared to unexpected damage or additional moving costs on delivery. Woodlawn Furniture Market Inc. and associated brands will not accept a return due to space limitations, fit, or shipping and moving damages.

**69. Modifications of Previously Purchased Products**

Products that require modification after production will be subject to additional fees according to labour, shipping, construction, finishing, packaging, and transportation fees. Woodlawn Furniture Market Inc. and associated brands reserve the right to decline any modification requests.

**70. Overly Specific Customization**

If a customer is overly specific outside of the available options, it is necessary to bring the customer back to available specifications. This RuffSawn training manual is to ensure explanation of products and procedures. This will help mitigate the risk of building false expectations that lead to unsatisfactory results for the customer and dealer. Stay within the boundaries of the abilities of our artisan shops and be transparent and realistic. If our product is not well suited for the customer, it is in the best interest for the dealer to identify this and find more appropriate sources to ensure the satisfaction of the customer. This will maintain the reputation of Woodlawn Furniture Market Inc., associated brands, and dealers or representatives of the brand(s). We prefer to promote brand reputation over a misrepresentation of our product.

**71. Custom Quotes**

Custom quotes are guaranteed for 14 days. When a custom order is submitted, make sure to include all information that is necessary.

All custom orders are quoted with standard finish. Premium finishes costs must be added by dealer. Woodlawn Furniture Market Inc. will not be responsible for errors or omissions.

**72. Order Submission & Confirmation Standards**

Orders must be sent clearly written or typed. Please ensure the following items are correct on orders:

SKU#, descriptions, quantity, colour, finish, coatings, hardware, dimensions, wood, texture, Order #, PO#, quote #, drawings, product details, pricing, special modifiers, customer name, general or specific lead times, special needs or requests, warranty replacement, or service request, confirmed drawings, business address, shipping address, billing address, Tax I.D. #, key contacts, email addresses, phone numbers, fax numbers, and preferred shippers. Also ensure that all guidelines are met as outlined in this manual.

Orders will be returned to the dealer for further clarification if details are not clear.

Lead times will commence from the entry and confirmation date.

Orders must be submitted to the correct email. Please send orders to [orderdesk@woodlawnfurniture.ca](mailto:orderdesk@woodlawnfurniture.ca), we cannot guarantee the lead time will be met or guaranteed if orders are sent to the wrong email address due to full production scheduling.

Woodlawn Furniture Market Inc. and associated brands are not responsible for any errors or omissions on orders. Dealers must review the confirmation and confirm that the order has been entered correctly without error. If an error is not detected and clarified within 2 business days of confirmation, modifications will not be possible. It is the dealer's responsibility to enter and approve returned confirmations. Please Note: Woodlawn Furniture Market Inc. does not honour verbal quotes or instructions. Every detail must be on the order or confirmed by email or fax.

**73. Extended Lead Times**

Some of our builders naturally have extended lead times due to the complexity of the products or the small nature of the builder. Many of our products are handcrafted by small artisan shops that require longer lead times. These are indicated in the price list with the code **#ELT**. 12-16 week lead times have been experienced depending on season on items built by these builders.

**74. Rush Orders**

Rush orders must be communicated to Woodlawn Furniture Market Inc. prior to submitting the order. Production must first research what is possible before making any guarantees. Rush orders are subject to a minimum 10% priority management fee.

Once the order lead time is confirmed, a purchase order must be sent with lead time confirmation. A red slip is printed to identify rush orders and placed on an urgent list. Dealers must reach out 2 weeks before expected shipment to confirm order is on track as a safeguard. Our rush priority fee is for completion to our back door. This does not include priority shipping costs, transit time, holidays, and any unforeseen events.

Familiarize yourself with our lead time schedule as laid out in our "Product Programs" page, listing Quickship, Elements, Tailored, and Signature/Custom programs. Add expected transit time to the estimated lead time to better reflect delivery to the customer's home.

## 75. Lead Times - Unforeseen Delays

Lead times can be affected beyond the stated ranges due to customization, choice of finish, wood species, availability of materials (Winter Cut Live Edge), and our Quality Control Standards. Our lead times do not include the shipping time from our warehouse to your dock.

Due to unforeseen circumstances our lead times are not guaranteed. All orders placed cannot be cancelled and are the responsibility of the dealer once the order is placed to accept and pay for the order without penalty, compensation, or discount. Woodlawn Furniture Market Inc. will not accept responsibility for any loss caused by delayed delivery and does not accept cancellation of orders that are in production.

## 76. Holidays & Seasonal Delays

Order lead times can be affected by seasonal events beyond our control. Multicultural holidays, religious holidays, and plant shutdowns are common with our craftsmen. During the year, we have Christmas, New Years, and Old Christmas; this causes a normal 3 week delay to our standard lead times. You will notice that January through March our standard lead times are extended. Presidents Day, Family Day, Easter, and Ascension Day can also push lead times to May.

In the spring and summer our craftsmen have land that they tend to in growing season. Maple syrup production, planting, summer vacations, growing season, fall harvest, and three separate thanksgivings in September, October, and November are also observed by our craftsmen. In addition to these we have many secular holidays that affect production schedule.

## 77. Selling RuffSawn Products

One important process of selling custom-made furniture is qualifying the client. Qualifying a client by their needs, wants, and assessing their budget ensures the quality of their experience. First inform the client of the unique features of our products and programs. Explain the process of purchasing artisan-made custom furniture.

We recommend carefully listening to clients and addressing their needs and wants. Share with them the benefits of our 4 programs mentioned below to make sure you find the best fit for the customer's budget, time frame, and customization needs. You can mix and match between programs, but always go by the longest lead time so the order can ship together and reach the customer in the expected time frame.

Quickship, Elements, and value priced items are our starting lineup of premium products. Tailored luxury products can range from 10% - 50% more than standard products. Signature luxury products can range from 50% higher and up depending on requests.

Consultations, drawings, scaling, custom finishes, oversized products, specialty materials, shipping, and installation can bring added costs. We recommend customers budget for unforeseen changes that can cause increases in budgets. Margins can be affected if not calculated correctly.

Qualify your customer to ensure the program they choose gives them a superb experience. Commissioning a build with Woodlawn Furniture Market Inc. and associated brands will be a rewarding and exciting experience.

## 78. RuffSawn Programs

(2-4 weeks) **Quickship** products for quickest delivery. Quoted FOB Woodlawn Furniture Market Inc. warehouse.

(6-8 weeks) **Elements and Value Priced** items. Quoted FOB Woodlawn Furniture Market Inc. warehouse.

(8-10 weeks) **Tailored Orders** are premium products built to a higher level of specification. Choose your hardware, finish, dimensional changes up to 6" outside standard SKUs. Quoted FOB Woodlawn Furniture Market Inc. warehouse plus shipping.

(10-12 weeks) **Custom & Signature Orders** are luxury goods with the most options. Take a standard or non-standard SKU and choose the decorative hardware, functional hardware, dimensions, layout, texture, finish. Custom sourcing services including scaling, and drawings.

We provide multiple steps to ensure the process is managed, providing signed confirmations for every order.

**Note:** The order date begins on the date of deposit and confirmation. Custom and signature luxury goods are quoted FOB Woodlawn Furniture Market Inc. warehouse.

**CATALOGUE – EXPANDED OVERVIEW**

Our new catalogue has over 700 pages of products. It features authentic craftsmanship marketing images and lifestyle images. These enhanced images and renderings better illustrate our process and limitless product options.

The first 29 pages of our catalogue feature our authentic process in pictures. We share unique images of RuffSawn's forestry, milling, and season and kiln drying process. Images of our craftsman machining, cutting, gluing, and bench assembling our products.

**AUTHENTIC CRAFTSMANSHIP IMAGES**

1. Cover - The cover features a view from our drying room and oven looking into our spray booth and mixing room.
2. Pages 2-3. Welder's parts chest with Iron Works caster cradles on top.

25. RuffSawn spray booth.

### Catalogue Special Notes – Expanded

1. Page 1 - 31. Authentic images of our process from forest to finish. Each step is catalogued from forestry, to builder, to finishing.
2. Page 32 - 39. Room renderings featuring our different categories such as bedroom, dining, occasional, office, and wall cabinets.
3. Pages 40 - 85 feature our bedroom collections. Note each bedroom page has been expanded with many SKU options, bedroom collection descriptions, and standard features. Drawer configurations and side rail options are listed. Many of our beds come with our new electric bed side rail option or under bed drawer storage option. Many beds come in 2, 3, 4, 5, 6, 8, and/or 12 drawer options as well as a new universal condo drawer option which we have featured in our expanded image collection. We have also included many new beds, nightstands, dressers, chests, armoires, and mirrors. See the price list for expanded options. We have rounded out many collections to include 6, 7, 8, and 9 drawer dresser options, and with 2 standard options of lengths 60-72". Chests have been updated with expanded options. Armoires have been added to each collection. Mirrors have been made larger and have a tall dresser and low dresser height option - 48" long with 30" or 36" optional heights. Drawer slide hardware has been changed to all standard side mount slides with the option of side-mount soft-close slides or under-mount soft-close slides. This has made options and pricing more flexible. Notes of texture options have been added. Some collections have limitations of texture due to the substrate limitations.
4. Pages 86 – 178 feature our dining tables. Many new styles have been added as well as definitions to better describe the characteristics of each table. Each tabletop, base, and leaf option have expanded descriptions of their unique characteristics. Noted are the height options, counter, and pub options. Also included are the new expanded large scale coffee table options which transform our dining tables into a large scale coffee tables by installing a 16" - 18" leg or pedestal under the top.
5. Pages 179 - 190. Pub tables and islands. We have increased our options and SKUs. We also include Jack Daniels and Jim Beam single barrel and double barrel options.
6. Pages 191 – 213 contain wood dining chairs to which we have added nearly twice as many styles and images. Both armchairs and side chairs are shown in images wherever available. New refined chair frame options have been added. Chair seat options have been identified. Chair seat options have been included in the catalogue as well, many with both wood and upholstered seat options.

7. Pages 214-225. Bench options have doubled, with better pictures to display bench leg and top options. Upholstery top options have also been added.
8. Pages 225 - 226. Wood stool options are now available with upholstered seat options.
9. Pages 227 - 228. Wood counter and pub chair options are now available with swivels and upholstered seat options.
10. Pages 229 - 250. Upholstered dining chairs have been dramatically expanded to 40 frames. Customers can supply their own material or choose from our selection of fabric, vinyl, or leather. Clients can also choose from our large selection of wood finishes or decorative nail heads.
11. Page 251 displays our new introduction of upholstered stools. Customers can supply their own material or choose from our selection of fabric, vinyl, or leather. Clients can also choose from our large selection of wood finishes or decorative nail heads.
12. Pages 252 – 257 contain our new introduction of upholstered counter and bar height stationary and swivel chairs. Customers can supply their own material or choose from our selection of fabric, vinyl, or leather. Clients can also choose from our large selection of wood finishes or decorative nail heads.
13. Pages 258 - 349. Sideboards have seen some of the most radical upgrades in our catalogue. Storage is important to any space or home. We have taken all standard sideboards that are equipped with under-mount soft-close and made them side-mount full extension slides as a standard. This has helped keep costs down. Side-mount soft-close slides and under-mount soft- close slides are now optional. We have expanded and standardized every sideboard to have similar options of drawer configurations and dimensions.
14. Pages 350 – 397 contain wall cabinets and entertainment wall cabinets. We have expanded our images dramatically to help consumers identify configurations that will work best for their space. Side-mount slides are standard with the option of soft-close side-mount slides or soft- close under-mount slides.
15. Pages 398 - 484 show our occasional coffee tables. In this section we have assembled our full line of coffee and end tables. This expanded selection features over 250 standardized options that are fully customizable with a few exceptions.
16. Pages 485 - 661. Our media cabinets have seen our biggest expansion of products in the catalogue by far. We have introduced standardized dimensions from 48" to 100" long. We have also introduced a hutch option for all tv stands for 72" and 84" long units.
17. Pages 662 -? We are launching our first standardized home office collections. Featuring desks with single pedestal and double pedestal drawer options, as well as modern rustic desks with file drawer options. Modern L-shaped desks have also been included in addition to file drawer cabinets, sideboard credenzas, and bookcases. We look forward to expanding this collection with time.
18. Pages 680 -? Featuring our popular decorative barn doors, tracks, mounting boards, and trolleys.
19. Pages? -? showcase our RuffSawn finishes in Kit 1 through Kit 8. We offer nearly 90 colours of stain, paint, metallic, and water based stains and finishes with many new introductions. Our protective clear coatings comprise of many options such as conversion varnish, natural oil based resin, isocyanate-free polyurethane that is green guard rated, and healthier waterborne coatings. Select the level of sheen or gloss that you prefer: standard 10% sheen or optional 5, 20, 40, and high gloss finishes. We also carry epoxy poured finishes that are suitable for antique lumber, as well as epoxy finished antique lumber tops and epoxy poured tabletops.
20. Pages? -? outline our expanded selection of decorative hardware and knobs. We have also added slides, hinges, and rolling hardware into our descriptions to assist in ordering components.
21. Pages? - ? We have added all our practical training to assist staff while helping customers to answer any questions. We have included our training module in the catalogue; this way staff are able to reference the catalogue if needed.

**PRICELIST SPECIAL NOTES – EXPANDED OVERVIEW**

1. Our new price list has nearly doubled in size, expanding from 8,000 products to 15,000 standard SKUs. We have spent endless hours refining our product SKU system to simplify and expand our almost limitless combinations of finishes, hardware options, and dimensional changes. These new systems are the first stage in flexible design that helps better organize our marketing, sales tools, order system, manufacturing, finishing, packaging, shipping, and delivery. These tools of education will be valuable to training sales and design staff whom they will benefit.
2. A whole new SKUs system has been designed to better articulate our products and options. We have had many years of growth and found it necessary to update all SKUs to better reflect our business. This will require updating all systems to properly identify the products for dealers.
3. Improved standards and definitions have been built into our price list. This will improve understanding our products and processes, making education and training easier for dealers, sales staff, and consumers. This helps improve our processes and ensure a great experience for customers from ordering entry to installation.
4. Texture definitions have been updated and are described. Refer to the Table of Contents page to identify texture options and restrictions. Some items have limitations and are only available rough sawn or a combination of textures. Some items cannot be ordered Smooth Sanded (R). Refer to asterisks on collection names and bottom references of the price list table of contents.
5. Better explanation of our 4 programs: Quickship, Elements, Tailored, and Signature.
6. Finishing options are better defined and have had SKU numbers added. RuffSawn stains, paints, glazes, metallic paints, colour combinations, clear coat options, household to commercial application, waterborne, oil, and epoxy.
7. Hardware options have been expanded with nearly 70 decorative pulls and dozens of functional hardware options. Sliding door hardware, Cremone hardware, and drawer slide system options. Soft close undermount slides have been removed from products that previously had them in as a standard. This has reduced the cost and now is an option (e.g. Timber). The products now have 3 options to choose from: Standard side-mount full extension slides, optional side-mount soft-close slides, and optional undermount soft-close slides. All items now have been organized by SKU.
8. Upholstery options have been better defined with SKU numbers and descriptions. From standard fabrics, leather, vinyl, polyester, velvet, and nail head options. Yardages needed for COM (Customers Own Material) have been organized by style. This way a customer can confirm how many yards are needed for each style when forwarding fabrics to our upholstery department. Dining room chair upholstered seat options have been updated. We now offer both plywood substrate and soft seating options. Upholstered bench seats can be added to all benches.
9. Bedrooms have been updated. Many new items have been added throughout. Bed options have been updated with all possible drawer storage options such as 2 - 12 drawer configurations, California king size, XL length on single/twin bed options, double/full, and electric bed side rail options have all been added to collections. Many bed options from mansion headboard and optional footboard heights. Recommended mattress configurations have been stated, as well as specified mattress dimensions. Additional drawer configurations and dimensions on dressers, nightstands, and chests have been added. Please see the price list for all these options.
10. Many tables have had counter and bar height options added. Large scale coffee tables are now included in the dining table section, enabling customers to take a popular dining table and transform it into a casual occasional piece. We have also included better descriptions of table edge options and expansion leaf options (12", 18", 22", 24") have been included. Additional leg options ranging from 3.5", 4.5" and the standard 5.5" legs are included in this price list. This improves chair placement and helps fit our products into modern spaces with size restrictions. We have improved the options of tops on table bases. See the Bristol, Hedgehog Live Edge, Nexus, and Utah; these are 4 tabletop options with one base. See the Andreas, Chevron, Infiniti, Monolith, and Riverside, which provide 5 tabletop options with one popular base option.
11. Dining chairs, counter chairs, bar chairs, and benches have had hundreds of new options listed. Wood chairs have the ability to have wood seats, plywood upholstered seats, soft upholstered seats, vinyl, and leather options.
12. Sideboards, wall cabinets, and media stands have been updated dramatically. We have gone from less than 12 options of each category and now bolster hundreds of options, updating models to match trends in the industry. From layout to dimensional options, we have expanded our standardization of products.

## Canadian Wholesale Pricelist

13. Occasional tables have been better organized to include coffee table, end table, sofa table, and writing desk options. These now have shelf, drawer, and multiple standard length options. Once coffee table dimensions exceed 30" x 50", our dining room catalogue and pricelist feature many large scale coffee table options.

14. Home and office workspace furnishings have been introduced for the first time, featuring multiple layouts of writing desks and stylish executive work surfaces. These utilize our dining tables with modified layouts to suit office life, with optional file drawers that can be placed beneath. We also have L-shaped desks for modern spaces, and executive single and double pedestal desks with matching credenzas and file cabinets.

15. Decorative barn door options have been updated to include a larger variety of sizing.

Collection SKU, Mirror SKU (M), Arched or Straight Top (if applicable), Width Dimension, Height Dimension

**Example:**

THTMAR4136

Tahoe Turned Collection Mirror - Arched for High Dresser

**1. Collection SKU – Max 4 Characters**

(See Collection SKU Page)

**2. Mirror SKU**

M – Mirror

**3. Arched or Straight Top (if applicable)**

AR – Arched

ST – Straight

**4. Width Dimension**

30", 37", 38", 40", 41", 42", 45.5", 48"

**5. Height Dimension**

28", 30", 32", 33", 34", 35", 36", 37", 38", 42"

**DINING TABLES**

Collection SKU, Width Dimension, Length Dimension (if applicable), Round Tabletop SKU (if applicable), Pedestal/Base Type (if applicable), Thickness of Tabletop (if applicable), Type of Tabletop (if applicable), Number of Leaves (if applicable), Leaf Widths (if applicable), Number of Drawers (if applicable)

**Example:**

CP4272TRST – Chesapeake 42 x 72 Trestle Solid Top Dining Table

CP4272TRBB16 – Chesapeake 42 x 72 Trestle Dining Table w/2-16" Breadboard End Leaves

CH42RSPST – Chateau 42" Round Single Pedestal Solid Top Dining Table

CH42RSP212 – Chateau 42" Round Single Pedestal Dining Table w/2-12" Centre Leaves

12 – 12 Leaves

13 – 13 Leaves

14 – 14 Leaves

15 – 15 Leaves

16 – 16 Leaves

17 – 17 Leaves

**9. Leaf Widths (if applicable)**

10.5", 12", 16", 18", 22", 24"

**10. Number of Drawers (if applicable)**

6D – 6 Drawers

## COUNTER & PUB TABLES

### Regular Counter & Pub Tables

Collection SKU, Counter/Pub Table SKU, Width Dimension, Length Dimension, Pedestal/Base Type SKU (if applicable), "-", Height Dimension

**Examples:**

BMLEPT3660-42 – Benchmark Live Edge Pub Table 36 x 60 Solid Top

OGCNT4036HT-36 – Originals Counter Table 40 x 40 Solid Top 4 Leg Harvest

**1. Collection SKU – Max 4 Characters**

(See Collection SKU Page)

**2. Counter/Pub Table SKU**

CNT – Counter Table

PT – Pub Table

**3. Width Dimension**

36", 40", 42"

**4. Length Dimension**

40", 42", 60", 72"

**5. Pedestal/Base Type (if applicable)**

SP – Single Pedestal

DP – Double Pedestal

HT – Harvest (4 Leg)

**6. "-", Height Dimension**

36", 42"

**8. Number of Leaves (if applicable)**

1 – 1 Leaf

2 – 2 Leaves

3 – 3 Leaves

4 – 4 Leaves

5 – 5 Leaves

6 – 6 Leaves

7 – 7 Leaves

8 – 8 Leaves

9 – 9 Leaves

10 – 10 Leaves

11 – 11 Leaves

## Barrel Pub Tables & Components

Collection SKU (if applicable), Pub Table SKU (if applicable), Barrel SKU (if applicable), Component SKU (if applicable)

### Examples:

JDBAR – Jack Daniel's Whisky Barrel – Finished  
 JDPTT – Jack Daniel's Pub Tabletop & Barrel - Barrel, Wood Top, Open Barrel  
 JDBBLPTTGFR – Jim Beam Double Pub Tabletop & Barrels - Wood Top, Glass, Foot Rail  
 FTDBL – Double Foot Rail Only

### 1. Collection SKU (if applicable)

JD – Jack Daniels  
 JB – Jim Beam

### 2. Pub Table SKU (if applicable)

PT – Pub Table  
 DBLPT – Double Pub Table

### 3. Barrell SKU (if applicable)

BAR – Barrel

### 4. Component SKU (if applicable)

T – Wood Top  
 TG – Wood Top with Glass  
 TGFR – Wood Top with Glass & Foot Rail  
 FTSGL – Single Foot Rail Only  
 FTDBL – Double Foot Rail Only

## ISLANDS & BARS

Collection SKU, Bar/Island SKU, Number of Drawers, Number of Doors (if applicable), Number of Wine Drawers (if applicable), Number of Open Shelves (if applicable), Number of Adjustable Shelves (if applicable), Length Dimension, Height Dimension

### Examples:

CLNIS5D20S7236 – Colleen Counter Height Island 5 Drawers 2 Open Shelves  
 OGBR3D2D3WD5442 – Originals Bar Height 3 Drawer 2 Door w/3 Wine Drawers  
 MUIS4D1S6042 – Manitoulin Bar Height Island 4 Doors 1 Adj. Shelf 60"  
 OGBR3D3D6042 – Originals Bar Height 3 Drawer 3 Door Step-Up

### 1. Collection SKU – Max 4 Characters

(See Collection SKU Page)

### 2. Bar/Island SKU

BR – Bar  
 IS – Island

### 3. Number of Drawers

3D – 3 Drawers  
 4D – 4 Drawers  
 5D – 5 Drawers  
 6D – 6 Drawers

### 4. Number of Doors (if applicable)

2D – 2 Doors  
 4D – 4 Doors

### 5. Number of Wine Drawers (if applicable)

3WD – 3 Wine Drawers  
 4WD – 4 Wine Drawers

### 6. Number of Open Shelves (if applicable)

2OS – 2 Open Shelves

### 7. Number of Adjustable Shelves (if applicable)

1S – 1 Adj. Shelf

### 8. Length Dimension

48", 51", 54", 60", 72"

### 9. Height Dimension

36", 42"

## WOOD CHAIRS

Collection SKU, Arm Chair/Side Chair SKU, Seat/Frame SKU

### Examples:

ADACWS – Adirondack Arm Chair with Wood Seat  
 ADACWFNS – Adirondack Arm Chair Wood Frame Only - No Seat  
 ADACUPS-F – Adirondack Arm Chair Upholstered Fabric/Vinyl Plywood Seat Upcharge  
 ADACUSS-F – Adirondack Arm Chair Upholstered Fabric/Vinyl Soft Seat Upcharge  
 ADACUSS-L – Adirondack Arm Chair Upholstered Leather Plywood Seat Upcharge  
 ADACUPS-L – Adirondack Arm Chair Upholstered Leather Soft Seat Upcharge  
**1. Collection SKU – Max 4 Characters**

(See Collection SKU Page)

### 2. Arm Chair/Side Chair SKU

AC – Arm Chair  
 SC – Side Chair

### 3. Seat/Frame SKU

WS – Wood Seat  
 WFNS – Wood Frame Only – No Seat  
 UPS-F – Upholstered Fabric/Vinyl Plywood Seat Upcharge  
 USS-F – Upholstered Fabric/Vinyl Soft Seat Upcharge  
 UPS-L – Upholstered Leather Plywood Seat Upcharge  
 USS-L – Upholstered Leather Soft Seat Upcharge

## WOOD BENCHES

Collection SKU, Bench SKU, Length Dimension

### Examples:

AGBE36 – Argo Bench 36"  
 AGBE48 – Argo Bench 48"

### 1. Collection SKU – Max 4 Characters

(See Collection SKU Page)

### 2. Bench SKU

BE – Bench

### 3. Length Dimension

36", 48", 60", 72", 84", 96"

## UPHOLSTERED BENCH UPCHARGES

Upholstered Bench SKU, Length Dimension, Material SKU

### Examples:

UPBE96-F – Upholstered Bench Upcharge 96" - Fabric/Vinyl  
 UPBE36-L – Upholstered Bench Upcharge 36" – Leather  
**1. Upholstered Bench SK**  
 UPBE – Upholstered Bench  
**2. Length Dimension**  
 36", 48", 60", 72", 84", 96"

**3. Material SKU**

F – Fabric/Vinyl

L – Leather

## WOOD COUNTER & BAR STOOLS

Collection SKU, Counter/Bar Stool SKU, Height Dimension, Seat/Frame SKU (if various options available)

**Examples:**

MSBS30 – Massey Bar Stool 30"H

MKCS18 – Muskoka Saddle Counter Stool 18"H

RTCS24WFNS – Round Top Saddle Counter Stool 24"H\*\*\* Wood Frame Only - No Seat

RTCS18WS – Saddle Counter Stool with Splined Seat 18"H\*\*\* with Wood Seat

RTCS24UPS-F – Saddle Counter Stool with Splined Seat 24"H\*\*\* Upholstered Fabric/Vinyl Plywood Seat Upcharge

RTCS26UPS-L – Saddle Counter Stool with Splined Seat 26"H\*\*\* Upholstered Leather Plywood Seat Upcharge

**1. Collection SKU – Max 4 Characters**

(See Collection SKU Page)

**2. Counter/Bar Stool SKU**

CS – Counter Stool

BS – Bar Stool

**3. Height Dimension**

18", 24", 26", 30"

**4. Seat/Frame SKU (if various options available)**

WS – Wood Seat

WFNS – Wood Frame Only – No Seat

UPS-F – Upholstered Fabric/Vinyl Plywood Seat Upcharge

UPS-L – Upholstered Leather Plywood Seat Upcharge

## WOOD COUNTER & BAR CHAIRS

Collection SKU, Counter/Bar Chair SKU, Swivel SKU (if applicable), Height Dimension, Wood Seat SKU (if applicable), Wood Frame Only No Seat SKU (if applicable), Seat Upholstery Option (if applicable), “-”, Fabric/Vinyl or

Leather SKU (if applicable)

**Examples:**

CTBC30WS – Chilton Bar Chair 30"H with Wood Seat

LACC24WS – Lake Counter Chair 24"H with Wood Seat

TBCC24WFNS – Timber Counter Chair (Full Size Chair) 24"H Wood Frame Only

TBSBC30WS – Timber Bar Chair w/Swivel 30"H with Wood Seat

MKBC30UPS-F – Muskoka Bar Chair 30"H Upholstered Fabric Plywood Seat Upcharge

MEBC30USS-L – Meta Bar Chair 30"H Upholstered Leather Soft Seat Upcharge

BECC26USS-F – Beam Counter Chair 26"H Upholstered Fabric Soft Seat Upcharge

CTCC24UPS-L – Chilton Counter Chair 24"H Upholstered Leather Plywood Seat Upcharge

**1. Collection SKU – Max 4 Characters**

(See Collection SKU Page)

**2. Counter/Bar Chair SKU**

CC – Counter Chair

BC – Bar Chair

**3. Swivel SKU (if applicable)**

S – Swivel

**4. Height Dimension**

24", 26", 30"

**5. Wood Seat SKU (if applicable)**

WS – Wood Seat

**6. Wood Frame Only No Seat SKU (if applicable)**

WFNS – Wood Frame Only No Seat

**7. Seat Upholstery Option (if applicable)**

UPS – Upholstered Plywood Seat

USS – Upholstered Soft Seat

**8. “-”, Fabric or Leather SKU (if applicable)**

F – Fabric/Vinyl

L – Leather

## UPHOLSTERY (MATERIAL ONLY)

Fabric/Vinyl/Leather SKU, Material SKU

**Examples:**

FBRAS61 – Aspen 61

LEASPA – Santiago Pashmina

VINT87 – Turner Vinyl 87

**1. Fabric/Leather SKU**

FBR – Standard Fabric (Polyester)/Faux Leather (Polyester)/Faux Velvet (Polyester)

VIN – Vinyl

LEA – Leather

RS – Rough Sawn

## SIDEBOARDS

Collection SKU, Sideboard SKU, Drawer Bank Type (if applicable), Number of Drawers (if applicable), Number of Doors (if applicable), Number of Adjustable Shelves (if applicable), Break Front SKU (if applicable), Length Dimension (if multiple lengths available), Depth Dimension (if multiple depths available), Door on Left/Right Hand Side (if applicable)

**Example:**

AXSB4D4S20 – Alexandria Sideboard 4 Glass Door 20" Depth 4 Adj. Shelves

AXSB4D6SBF – Alexandria Sideboard 4 Glass Door Break Front 6 Adj. Shelves

APSBCB4D4D2S84 – Arthur Philippe Sideboard CB 4 Drawer 4 Door 2 Adj. Shelves 84" L (Specify Wood or Glass Door)

AVSB2D1S – Avra Sideboard 2Door w/1 Adj. Shelf

**1. Collection SKU – Max 4 Characters**

(See Collection SKU Page)

**2. Sideboard SKU**

SB – Sideboard

**3. Drawer Bank Type (if applicable)**

UB – Upper Bank

BB – Bottom Bank

CB – Centre Bank

TB – T-Bank (Upper and Centre Combination)

LB – Left Bank

RB – Right Bank

**4. Number of Drawers (if applicable)**

2D – 2 Drawers

3D – 3 Drawers

4D – 4 Drawers

**5. Number of Doors (if applicable)**

1D – 1 Door

2D – 2 Doors

3D – 3 Doors

4D – 4 Doors

6D – 6 Doors

**6. Number of Adjustable Shelves (if applicable)**

1S – 1 Adj. Shelf

2S – 2 Adj. Shelves

3S – 3 Adj. Shelves

4S – 4 Adj. Shelves

5S – 5 Adj. Shelves

6S – 6 Adj. Shelves

7S – 7 Adj. Shelves

8S – 8 Adj. Shelves

9S – 9 Adj. Shelves

10S – 10 Adj. Shelves

11S – 11 Adj. Shelves

**7. Break Front SKU (if applicable)**

BF – Break Front

**8. Length Dimension (if multiple dimensions available)**

48", 56", 60", 72", 76", 84"

**9. Depth Dimension (if multiple depths available)**

16", 18", 19", 20", 21", 22"

**10. Door on Left/Right Hand Side (if applicable)**

L – Left Hand Side

R – Right Hand Side

## WALL CABINETS

Collection SKU, Wall Cabinet SKU, Corner Cabinet SKU (if applicable), Number of Levels (if applicable), Number of Glass Doors (if applicable), Number of Wood Doors (if applicable), Number of Herringbone Wood Doors (if applicable), Number of Adjustable Shelves (if applicable), Number of Open Shelves (if applicable), Number of Units (if applicable), Length Dimension (if multiple lengths available)

**Examples:**

ADWC1L2DG1S – Adirondack Wall Cabinet 1 Level 2 Glass Door 1 Adj. Shelf

BTWC2DHB4S1UN – Bristol Wall Cabinet 2 Full Length Door Herringbone Panel 4 Adj. Shelves 1 Unit

HOWC7D14S6UN144 – Holmes Wall Cabinet 144" 7 Doors 14 Adj. Shelves 6 Unit

OGWCCR1D2D2DM1OS – Originals Wall Cabinet Rustic Corner 1 Drawer 2 Door 2 Mesh Door 1 Open Pie Shelf

### 3. Bookcase Height Dimensions

44", 60", 78"

### 4. Bookcase SKU

BC – Bookcase

### 5. Total Wall Cabinet Length Dimension

120", 132", 144", 156"

## WALL CABINET BUFFETS & HUTCHES

Collection SKU, Buffet & Hutch SKU, Break Front SKU (if applicable), Number of Drawers, Number of Doors, Number of Glass Doors (if applicable), Number of Mesh Doors (if applicable), Number of Adjustable Shelves (if applicable), Number of Fixed Shelves (if applicable), Number of Open Shelves (if applicable), Number of Pull-Out Shelves (if applicable)

### Examples:

BLBH1D2D – Bellows Wall Cabinet Buffet & Open Face 1 Drawer 2 Door Open Hutch

MADBH4D8D – Maddison Wall Cabinet Hutch & Buffet 4 Drawer/8 Door

### 1. Collection SKU – Max 4 Characters

(See Collection SKU Page)

### 2. Buffet & Hutch SKU

BH – Buffet & Hutch

### 3. Break Front SKU (if applicable)

BF – Break Front

### 4. Number of Drawers

1D – 1 Drawer

2D – 2 Drawers

3D – 3 Drawers

### 5. Number of Doors (if applicable)

1D – 1 Door

2D – 2 Doors

3D – 3 Doors

4D – 4 Doors

### 6. Number of Glass Doors (if applicable)

1DG – 1 Glass Door

2DG – 2 Glass Doors

3DG – 3 Glass Doors

4DG – 4 Glass Doors

### 7. Number of Mesh Doors (if applicable)

1DM – 1 Mesh Door

2DM – 2 Mesh Doors

3DM – 3 Mesh Doors

4DM – 4 Mesh Doors

### 8. Number of Adjustable Shelves (if applicable)

1S – 1 Adj. Shelf

2S – 2 Adj. Shelves

3S – 3 Adj. Shelves

4S – 4 Adj. Shelves

5S – 5 Adj. Shelves

### 9. Number of Fixed Shelves (if applicable)

1S – 1 Shelf

2S – 2 Shelves

3S – 3 Shelves

4S – 4 Shelves

5S – 5 Shelves

6S – 6 Shelves

### 10. Number of Open Shelves (if applicable)

1OS – 1 Open Shelf

2OS – 2 Open Shelves

3OS – 3 Open Shelves

4OS – 4 Open Shelves

5OS – 5 Open Shelves

6OS – 6 Open Shelves

### 11. Number of Pull-Out Shelves (if applicable)

1POS – 1 Pull-Out Shelf

2POS – 2 Pull-Out Shelves

3POS – 3 Pull-Out Shelves

4POS – 4 Pull-Out Shelves

5POS – 5 Pull-Out Shelves

## WALL UNITS

Collection SKU, Wall Unit SKU, Number of Drawers (if applicable), Number of Adjustable Shelves, Length Dimension

### Examples:

1S – 1 Shelf

**5. Width Dimension**

18"

**6. Length Dimension**

26"

## Sofa Tables

Collection SKU, Sofa Table SKU, Number of Drawers (if applicable), Open Shelf SKU (if applicable), Number of Shelves (if applicable), Depth Dimension (if various depths available), Length Dimension, " - ", Top Thickness (if various thicknesses available)

### Examples:

ADST1D1S1836 – Adirondack Sofa Table 18 x 36 1 Drawer Shelf

ARST72– Arta Sofa Table 72"

SPST2DOS60 – Steam Punk Sofa Table 2 Drawer Open Shelf 60"

CCST50-1.75– Cross Creek Sofa Table 1 3/4" Top 50"

### 1. Collection SKU – Max 4 Characters

(See Collection SKU Page)

### 2. Sofa Table SKU

ST – Sofa Table

### 3. Number of Drawers (if applicable)

1D – 1 Drawer

2D – 2 Drawers

### 4. Open Shelf SKU (if applicable)

OS – Open Shelf

### 5. Number of Shelves (if applicable)

1S – 1 Shelf

### 6. Depth Dimension (if various depths available)

16", 17", 18"

### 7. Length Dimension

50", 60", 72", 84", 96"

### 8. " - ", Top Thickness (if various thicknesses available)

1.75", 3"

## Writing Desks

Collection SKU, Writing Desk SKU, Number of Drawers (if applicable), Length Dimension, Depth Dimension

### Examples:

ADWD1D4824 – Adirondack Writing Desk 1 Keyboard Drawer

EKWD2D6024 – Eko Writing Desk 2 Drawer

IMWD3D6024 – Iron Mountain Writing Desk 3 Drawer

### 1. Collection SKU – Max 4 Characters

(See Collection SKU Page)

### 2. Writing Desk SKU

WD – Writing Desk

### 3. Number of Drawers (if applicable)

1D – 1 Drawer

2D – 2 Drawers

3D – 3 Drawers

### 4. Length Dimension

48", 60"

### 5. Depth Dimension

24"

## Hall Trees

Collection SKU, Hall Tree SKU, Width Dimension, Height Dimension

### Example:

TBHT2170

Timber Hall Tree w/Bolts

### 1. Collection SKU – Max 4 Characters

(See Collection SKU Page)

### 2. Hall Tree SKU

HT – Hall Tree

### 3. Width Dimension

21"

### 4. Height Dimension

70"

## MEDIA STANDS

Collection SKU, Media Stand SKU, Corner SKU (if applicable), Left or Right Bank SKU (if applicable), Number of Drawers (if applicable), Number of Doors (if applicable), Number of Wood Doors (if alternate door options available), Number of Glass Doors (if applicable), Number of Herringbone Wood Doors (if applicable), Open Centre SKU (if applicable), Number of Open Shelves (if applicable), Number of Adjustable Shelves (if applicable), Hutch SKU (if applicable), Break Front SKU (if applicable), Asymmetrical SKU (if applicable), Length Dimension, Number of Units (if applicable)

### Examples:

AVMS3DOS60 – Avra Media Stand 3 Drawer Open Shelf 60)L

### AVMS3DOS7SHT84 – Avra Media Stand 3

Drawer Open Shelf w/7 Adj. Shelves with Hutch 84)L

AVMSLB2D1D1SASY48 – Avra Media Stand Left Bank 2 Drawer 1 Door 1 Adj. Shelf 48"W Asymmetrical

AXMS2D2D3SBFHT76 – Alexandria Media Stand 2 Drawer 2 Door w/3 Adj. Shelves with Hutch 76)L Break Front

BTMS3D4DHB2S84 – Bristol Media Stand 3 Center Drawers 4 Herringbone Wood Doors 2 Adj. Shelves 84)L

BMMS2DW1S48 – Benchmark Media Stand 2 Wood Door 1 Adj. Shelf 48)L

BMMS2D2DG2S72 – Benchmark Media Stand 2 Drawer 2 Glass Door 2 Adj. Shelves 72)L

TRMSC2S52 – Truss Media Stand 2 Fixed Shelf Corner 52"W Front, 28"W Back

### 1. Collection SKU – Max 4 Characters

(See Collection SKU Page)

### 2. Media Stand SKU

MS – Media Stand

### 3. Left or Right Bank SKU (if applicable)

LB – Left Bank

RB – Right Bank

### 4. Number of Drawers (if applicable)

1D – 1 Drawer

2D – 2 Drawers

3D – 3 Drawers

### 5. Number of Doors (if applicable)

1D – 1 Door

2D – 2 Doors

3D – 3 Doors

4D – 4 Doors

5D – 5 Doors

6D – 6 Doors

7D – 7 Doors

### 6. Number of Wood Doors (if alternate door options available)

1DW – 1 Wood Door

2DW – 2 Wood Doors

3DW – 3 Wood Doors

4DW – 4 Wood Doors

SDW – 5 Wood Doors

6DW – 6 Wood Doors

7DW – 7 Wood Doors

#### **7. Number of Glass Doors (if applicable)**

1D – 1 Glass Door

2D – 2 Glass Doors

3D – 3 Glass Doors

4D – 4 Glass Doors

5D – 5 Glass Doors

6D – 6 Glass Doors

7D – 7 Glass Doors

#### **8. Number of Herringbone Wood Doors (if applicable)**

1DHB – 1 Herringbone Wood Door

2DHB – 2 Herringbone Wood Doors

3DHB – 3 Herringbone Wood Doors

4DHB – 4 Herringbone Wood Doors

5DHB – 5 Herringbone Wood Doors

6DHB – 6 Herringbone Wood Doors

7DHB – 7 Herringbone Wood Doors

#### **9. Open Centre SKU (if applicable)**

OC – Open Centre

#### **10. Number of Open Shelves (if applicable)**

OS – 1 Open Shelf

#### **11. Number of Adjustable Shelves (if applicable)**

1S – 1 Adj. Shelf

2S – 2 Adj. Shelves

3S – 3 Adj. Shelves

4S – 4 Adj. Shelves

5S – 5 Adj. Shelves

6S – 6 Adj. Shelves

7S – 7 Adj. Shelves

8S – 8 Adj. Shelves

9S – 9 Adj. Shelves

10S – 10 Adj. Shelves

11S – 11 Adj. Shelves

#### **12. Hutch SKU (if applicable)**

HT – Hutch

#### **13. Break Front SKU (if applicable)**

BF – Break Front

#### **14. Asymmetrical SKU (if applicable)**

ASY – Asymmetrical

#### **15. Length Dimension**

48", 52", 60", 65", 72", 84", 100"

#### **16. Number of Units (if applicable)**

1UN – 1 Unit

2UN – 2 Units

3UN – 3 Units

## **OFFICE FURNITURE**

### **Work Surface Tables**

Collection SKU, Desk SKU, Thickness of Top (if alternate thicknesses available) - Thickness of Legs (if alternate leg thicknesses are available) - Depth Dimension - Length Dimension - Height Dimension

#### **Examples:**

ACDK1.75-30-72-30 – Anchor Desk 1 3/4" Top 30"D x 72"L x 30"H

ACDK3-30-72-30 – Anchor Desk 3" Top 30"D x 72"L x 30"H

#### **TBDK-4.5-30-72-30 – Timber Desk 4.5" Thick Legs 30"D x 72"L x 30"H**

#### **1. Collection SKU – Max 4 Characters**

(See Collection SKU Page)

#### **2. Desk SKU**

DK – Desk

204"

## CUSTOM FURNITURE MANUFACTURER POLICY FOR SERVICING DEALERS

Please read carefully, as our custom furniture policy has changed. All custom furniture that is produced for dealers by special request will become the sole responsibility of the dealer. When drawings are produced, we will produce products as close to the original concept as possible. Unforeseen construction and engineering challenges can and will alter the final result. This can include product dimensions, hardware selection, stylistic features, and we reserve the right to cancel the order if products cannot be produced due to design challenges. Custom furniture scaling is a very important step in determining whether a product is possible. When a non-standard product is requested, a scale model must be drafted to ensure the product can be produced. Drawing and scaling of products will be charged at \$95 an hour.

Once custom orders are shipped to the destination, our return policy prevents any returns of customized products to dealer specification or possible mistakes made by the manufacturer. It will be the dealer's sole responsibility to warrant or liquidate unsatisfactory product. All custom furniture will require a 50% deposit and final payment made before shipping. We reserve the right to request certified funds before shipping. All custom products are drawn by Woodlawn Furniture Market Inc. Engineering of products will be done to the best of our ability, and once the drawing is confirmed the item will be produced as close to the drawing as possible. Once the drawing is signed off on, the design is the sole responsibility of the ordering dealer.

Our staff work diligently to prepare and manufacture custom-made products for dealers. Our pricing structure for custom orders is only possible if the product is shipped one way. If an item is found to need warranty work or touch up, it is the obligation of the dealer to supply these services. If a dealer is not able to provide service for the products, they will be designated designer pricing to ensure service is possible. A custom price list can be adapted to serve a dealer's needs of service. Conceptual products not produced previously will follow the rule of three. A custom conceptual product could take up to 3 prototypes before achieving a satisfactory result, increasing the cost of development.

### 1. Floor Model Order Policy

Woodlawn Furniture Market Inc. and its associated brands has a policy that floor models must be standard products/SKUs. Tailored or Signature products cannot be duplicated easily, and these records are not kept in our standard database. If a reorder is requested, the same results cannot be guaranteed. For this reason, we decline heavily modified floor orders.

### 2. Floor Model Sample Condition

Standard floor models must be kept in salable condition. Shop-worn products must be replaced to maintain the brand reputation. Contact our Sales Manager for floor model promotions.

### 3. Program Order Mixing Policy

We also discourage mixing of programs. Quickship cannot be combined on a purchase order with other programs. If Quickship is mixed with Value priced, Tailored, and/or Signature products, the lead time will be set to the Signature program lead time of 10-12 weeks.

### 4. Non-Standard Items

If a dealer places non-standard items onto their retail floor, Woodlawn Furniture Market Inc. and its associated brands cannot be held responsible to maintain or hold the specifications or pricing in our system. Quotes are only valid for 14 days. Custom items are not standard SKUs. These can be identified by the SKU. If the SKU is a series of numbers, it is not a standard SKU.

### 5. Requesting a SKU be Added

In order for Woodlawn Furniture Market Inc. to add a new SKU the following conditions are of consideration.

1. Is the product of wide appeal?
2. Will the product be of interest to other dealers?
3. Is it engineered to meet quality and service?
4. Is pricing sustainable or reasonable?

To request that a product SKU gets added to our standard price list, please email [quotes@woodlawnfurniture.ca](mailto:quotes@woodlawnfurniture.ca).

This request will be reviewed for availability and pricing. This item will also be made available to other dealers to help minimize the cost of low volume custom products. Pricing will be systematically updated annually. The product may require modification to meet service and warranty needs.

**6. Modifications of Items Beyond Original Intended Purpose**

We do not allow nor guarantee items to be modified and used from their original intended purpose. **Example:** Sofa tables cannot be modified for use as a dining table. Items are engineered for specific uses to ensure stability and longevity. A sofa table is not engineered the same way as a dining table for daily use and structural integrity is not guaranteed for dining. This applies to any item from any category. No items may be used for uses beyond category description unless specified in the description or SKU.

**7. Drawings & Dimensions**

Any dimensions not included in a drawing that must be specified for the intended purpose of the item are the responsibility of the customer. We are not responsible for missing critical dimensions of any component that is not stated on the signed drawing. All components will be produced using standard materials and dimensions unless specified.

## SHIPPING & PAYMENT TERMS

### 1. Order Shipping & Storage

Our shipping department will reach out to arrange shipping. All shipping and brokerage costs are in addition to furniture prices. Shipping is in addition to lead times. Woodlawn Furniture Market Inc. and associated brands require all completed orders be shipped ASAP. Quickship orders cannot be held. After products have been held for 2 weeks, a storage fee will be charged at 2% per week of invoice value. If items are unclaimed after 30 days, we reserve the right to cancel the order and liquidate the inventory. Deposits are non-refundable.

### 2. Woodlawn Furniture Market Inc. & Associated Brands' Payment Terms

#### No Account

50% deposit required to proceed with an order. Final payment before shipping.

Visa / Master Card / American Express / Certified cheque / E-Transfer / Uncertified Funds - 2-week hold back upon deposit.

#### Commercial Account

Woodlawn Market Furniture Inc. and associated brands require you to fill out an application for credit that is submitted to the EDC. The EDC will provide approval and determine the credit limit for customers. Financial records and yearly statements may be required.

#### Terms on Account (Excludes Buying Groups)

Paid on pickup or before shipping by e-transfer or business cheque customer will receive a 3% discount off of invoice.

2% Discount if paid within 10 days by e-transfer or business cheque. Payment must be received by mail or e-transfer within 10 days.

#### Standard Terms 30 Days (On Account)

2% interest will be charged on accounts after 31 days per month until invoice is paid.

Credit card payments on accounts with 30 days or more on terms will be charged a 3% processing service charge. Terms and credit card payments cannot be combined. For example, if an account is 30 days on invoice and the customer calls to pay account by credit card, a 3% charge will be applied. A 3% charge would be \$3 per \$100 of outstanding balance.

### 3. EDC Collections & Credit

RuffSawn has EDC insurance in place for all accounts. This is the Government of Canada. They approve each dealer and assign them a credit limit and maximum terms. Our terms are 30 days with a 2% interest fee monthly for overdue accounts. Once the credit limit is reached the account is put on hold. We are unable to ship products or enter new orders into our system once these limits are reached. This will affect the dealers lead times. New orders will not be entered until the account is up to date.

If the account goes into collection, the dealer's account insurance is cancelled, and the dealer is placed onto COD payment account.

### 4. Credit Card & Payment Policy

We accept MasterCard and Visa. This payment method can be used for deposits or final payment before shipping. If a customer has an account with 30 day terms and wishes to pay on account after terms have transpired a 3% processing fee will be applied.

When a credit card is submitted by a customer or business, the customer or business authorize Woodlawn Furniture Market Inc. and associated brands to charge completed shipments to the credit card number submitted. All products will require payment prior to shipping. When custom orders are being submitted, a deposit will be required. Custom order deposits will be charged on the date the order is confirmed by the customer. This will be the start of product lead times. See lead times for Quickship, standard orders, custom, and signature orders. Deposits on custom furniture cannot be cancelled at any time. Once an order has entered the system, cancellations will not be accepted.

Charge backs on credit cards from a dealer must be paid in full. Any disputes that have been addressed by our return policy will not be disputable. The debt will be submitted to our collection agency for full payment.

Furniture shipped and invoiced to dealers remains property of Woodlawn Furniture Market Inc. until products are paid for in full. When a dealer submits an order, they agree Woodlawn Furniture Market Inc. and associated brands are a secured creditor on the value of the goods. These invoices must be paid in full. No bank, government, financial institution, or lender has right over these secured goods.

## Canadian Wholesale Pricelist

If items cannot be located, Woodlawn Furniture Market Inc. and associated brands must be paid 100% for these goods. All outstanding products that have been shipped and invoiced remain the property of Woodlawn Furniture Market Inc. until invoices are paid in full. Serial numbers are located on every piece and cannot be tampered with. If these items are sold for the purpose of satisfying other debts this will be deemed as theft by conversion.

### 5. Restocking Policy

Woodlawn Furniture Market Inc. and associated brands produce custom furniture on demand. We do not inventory any finished products. For this reason, our restocking fee is set at 50%. When orders are built to customer specification, they cannot be warehoused and be sold as general merchandise. They must be cleared at factory showroom. Any returned orders that are damaged are subject to additional restocking fees. Orders must be returned in original packaging.

Woodlawn Furniture Market Inc. and associated brands reserve the right to decline any restocking requests.

### 6. Shipping

For boxed products, our prices are F.O.B. Guelph, ON, Canada. Freight charges are above and beyond the price of the goods. If you have an account with a shipping company or a preference, please note on all orders. Furniture cannot be stored in shipping area; all orders must be shipped immediately upon completion. Additional storage fees will apply.

### 7. Arrival & Unpacking Products

When our products are shipped, we take care to box and package our items. Many of our individually wrapped items can weight from 75 lbs to over 500 lbs depending on its size. We scale and weigh skids. Due to their size and weight, we have a policy that items must be skidded to ensure employee safety and that products arrive damage free to dealers. With some carriers the products may be transferred multiple times. Skidding is an inexpensive insurance for product safety. We use custom built skids for our products. Skidding charges will apply at bare cost of skid. If loose boxes are shipped a double packaging and foam charge will apply of 5% if requested.

Loading docks are crucial to safe transition of products. If a loading dock is unavailable a tailgate charge will apply. Due to the weight of RuffSawn products, if they are not safely unloaded with a proper dock or tailgate, this will be suspect when handling warranty claims or concealed damage. Only allow qualified staff to handle RuffSawn products. When unwrapping skidded products, we recommend two staff are present to hold and remove furniture. Carefully plan while unwrapping to ensure your safety and the products safety. Boxes are stretch wrapped with clear film so receivers can see items through clear stretch film. Careful planning ensures items do not fall off the skid. Do not cut stretch film away too quickly keeping items secure while removing stacked boxes.

Always unload from top to bottom. If long skinny rails are placed on skid upright, avoid having them falling over by removing these items first.

Watch for mirror or glass. Never allow a box to fall from skid. Always ensure items are placed onto the ground carefully. When unwrapping items be mindful of not cutting through the packaging and scoring the finished goods or cutting through upholstery or leather. When handling items never drag or push. Remove wooden supports screwed to the bottom of large products. Always inspect product before delivering to customer. Ensure that all bottoms of products are wiped clean of debris and stain. Levellers are installed on tables. Look carefully through packaging to ensure all necessary parts and hardware are located. Email service and warranty if you believe any components are missing. We recommend unboxed delivery from store to customer and a proper inspection of goods.

### 8. Damage Policy

All our pieces are carefully inspected before being wrapped and loaded onto your carrier of choice, therefore any damage discovered upon receiving your order must be claimed with the carrier. We do not provide insurance for shipping damage.

### 9. Delivery Overview

Once unpackaged and inspected in preparation for delivery, ensure all components are secured with wrap, blankets, or tape that will not leave adhesive. Clear packaging tape can damage or adhere to finish. Painter's tape is safe for securing doors directly on finish. Ensure products are loaded safely into delivery truck and strapped in to prevent items from falling over in transit. Make sure sharp objects are not resting on finished surfaces.

When arriving at the house ensure safe travel from vehicle to front door. Ensuring vehicle and pathway are safe and being aware of your surroundings. Considering weather, time of day and visibility. Always choose and inspect your path to ensure an obstruction free path is possible. Introduce yourself to the customer and discuss the install. Ask if there are any pets or children to be considered or safely moved during install. Roll out mats or use protective foot covers to avoid soiling the home. Ask the customer how they would like the product placed. Lay blankets down on sensitive surfaces and final resting spot. When tipping products, you can damage either the furniture or the customer's home. Never carry a piece too large and heavy that you cannot safely place it into its intended spot. Products 75 lbs. and heavier will require a cart for transporting. Any items greater than 75 lbs. will require two people to carry. To lighten a furniture item to make it possible to carry, please remove drawers and/or shelves. Each of our drawers are numbered on the back of each drawer and written inside the opening. Drawers and doors require being placed directly into the same place when delivery is complete. Watch our instruction videos to understand how to carefully install drawers and make adjustments.

Never drag or drop the item while carrying items. Avoid transfer of furniture finish onto light carpet by protecting surface and not sliding products on floor or carpet. Avoid any kind of abrasion to any surfaces such as the walls, stairs, ceilings. Always ensure the furniture is placed with proper floor protection. Felt pads placed on levellers, tack glides are suitable for carpet but ensure nails do not wear through. These can damage or scratch surfaces or cut carpet.

Visually inspect the bottoms of furniture before placing in the home. Look for sharp objects on feet, dirt, or finishing residue. Plastic furniture glides are held in with tacks and if a glide breaks, the nail can be exposed.

Tack glides are okay for moderate movements on carpet or tile. Tack glides must never be used, placed, or slid on sensitive floors like hardwood. Placement of products on hardwood flooring or stairs requires products be placed on blankets or towels. Installation of felt pads and careful removal of blankets without removing felt pads. Since our products require some assembly, we recommend further discussion of assembly. White glove delivery requires trained staff to install products. Further instruction can be provided.

Always use soft microfibres or cotton to wipe surfaces with approved cleaners when wrap is removed. If these steps are not followed, Woodlawn Furniture Market Inc. cannot be held responsible for damages.

1. Any sensitive surfaces such as wood floors and staircases that can damage easily. Never place furniture directly on sensitive surfaces. Never pivot or drag items on these surfaces.
2. Safely carry items into the space. Set the item down on a pad or moving blanket to protect the floor.
3. Assembly of any items requiring lifting components or furniture items over one's waist, shoulders, or head at any position must wear approved PPE for head protection (hard hat).
4. During installation, all items must be monitored and positioned in a safe manner to prevent injury or death.
5. Have a qualified person hold and secure items at all times during setup to ensure injury does not take place.
6. Furniture can slip or slide on floors that are smooth like tile or hardwood. Leaning a headboard, tabletop, leaves, or bed side rails is not recommended unless accompanied by a qualified person.

## **10. Assembly of Large Furniture Items**

1. Bed setup - always place the headboard in its final position. Have someone hold the headboard while one rail is set into place with bed bracket and bolts. Tighten the bolts until lightly snug. Set the footboard into place and drop the other end of the single rail and bracket onto the bed bolts. Tighten until lightly snug. Set the second rail into place. Make sure the rail drops into the slot. Loosely tighten the rail. Set slats into place with the centre supports installed. Resume tightening of all bolts until snug. Do not over tighten.
2. Canopy bed setup - this is the most dangerous bed to setup due to lifting objects over the head. A hard helmet must be worn to ensure the safety of installer. Fully assemble the headboard and footboard with upper cross members in place while the bed is lying flat on the ground. Then stand up the headboard and install one rail. Have someone hold the headboard while one rail is set into place with bed bracket and bolts. Tighten until lightly snug. Set the footboard into place and drop other end of single rail and bracket into bed bolts. Tighten until lightly snug. Set the second rail into place. Make sure the rail drops into the slot. Loosely tighten the rail. Set slats into place with centre supports installed. Resume tightening of bolts until snug. Do not over tighten. Then carefully use an approved step ladder to lift and install the side cross members in place. Ensure no one is under the upper cross rail without an approved hard helmet and safety goggles, face shield, and safety boots while assisting the assembly technician. Use the bolts supplied to assemble the cross members safely.

3. All solid top dining tables depending on size require a minimum of 2 people to lift the tops, bases, and leaves into place. Never lift a table with leaves installed. With breadboard ends, please ensure latches are secure before lifting. If the breadboard ends are open, this can damage slides or table pins. These items are very heavy and can weigh over 250 lbs each. Some tables over the standard size of 42" x 84" x 30" will require additional installers to lift. We have produced oversized dining tables up to 20' long. If you are an inexperienced furniture mover, ensure any table over 42" x 84" is handled by over 2 people. Use all PPE to ensure safety, i.e. work gloves and safety boots to avoid crushing feet. Be careful not to pinch hands, arms, body, or neck. It is not recommended to stand a tabletop on its end. If this is done a hard helmet must be worn. To assemble a table, lay blankets on the ground and lay the tabletop flat face down. Ensure no objects are resting underneath the face of table. This will cause damage. Be careful of feet or hands. Lay trestle bases, pedestals, or legs into position to install. Carefully flip the items without straining or injuring oneself. Fasten bolts as instructed until the table is assembled. Once the table is ready to flip over, make sure blankets are laid down to protect all surfaces in direction you will be rolling the table in order to stand it upright. While standing on either side of the table, either lift or roll the table gently onto one side. Tipping tables onto their feet from the side will damage harvest tables and some pedestal tables. To prevent this, safely pick up the table, turn it right side up, and place it directly onto the floor. Make sure to place felt pads on the bottom of each foot or adjustable leveller. Clean dirt or grit from adjustable foot surfaces and apply the felt pads to protect the floor. See "Leaf Installation".

4. Centre leaf pedestal table assembly requires positioning the pedestal in its final resting place upright first. Remove any nuts or washers that were shipped finger tightened onto the bolts, then carefully lift the tabletop with two people. When holding the tabletop while standing carefully, pull the tabletop to extend the centre opening to full extension while carefully inspecting the area around and behind oneself. Carefully place the top onto the base allowing the bolts to sit in the predrilled base plate. Having one person balance the tabletop while resting safely on base, the other helper must lay washers into the inset hole and finger thread the nuts onto the bolts. Stand back and visually inspect that the pedestal is centred onto the base. Once the table is positioned correctly, tighten the top to the base. Make sure the levellers under the table are placed correctly. See "Leaf Installation".

5. Solid top trestle table installation requires two people at a minimum. First, carefully lay the tabletop face down onto a blanket on the ground avoiding pinching of fingers or toes, using PPE. Place the table bases into slots. All legs or bases are numbered to ensure proper installation. Finger tighten each side into place. A cross stretcher or beam will need to be installed. These cross members in most cases are numbered end to end; ensure one is placing the beam or stretcher upright. Look for labels that are to face down to the floor and face them towards the feet. Slide the cross members into place and screw or bolt the cross stretcher into place. Avoid scraping or dragging finished pieces together. Once the stretcher is installed, tighten all bolts with a wrench or drill with socket. Do not over tighten or strip. Only tighten past snug by a quarter turn. Push the base back and forth to determine if the base is sufficiently tightened. Once the base is installed, flip the table onto its side onto blankets. After that, pick up and stand the table directly onto its feet to avoid damaging it.

6. For solid top or centre leaf harvest table installation, carefully place the tabletop face down onto blankets ensuring there is no debris that can damage the tabletop. Check to make sure legs are the matching legs for the table. Remove all washers and nuts from bolts. Slide the legs into corner bracket and ensuring the bolts go through the holes in the corner. Place the washers over the bolts and install the nuts. Tighten them a quarter turn past tight. Carefully lay the table onto its side with a helper, then pickup the table and place the legs directly onto the ground. Make sure the table is not too heavy to lift to ensure no injury takes place. Always put felt pads under the furniture.

7. With regards to stackable cabinet installation, i.e. buffet hutches, wall cabinets, entertainment centres, armoires, and 2 piece cabinets that require stacking need to be fastened together. If improperly installed, damage, serious injury, or death can occur. For safety, anything over 29" must be secured to the wall by strapping supplies, screwed to studs, and clipped into place for safety of children and anyone who uses or stands near the cabinet. Shallow cabinets with doors are especially tippy. Make sure that when stacking a cabinet, one places it directly into place and is not dragging it. Some items have clips that hang from the hutch above. If clips are installed, fasten them when stacked. With stackable cabinets, screws are required to fasten cabinets together. Once assembled, wall straps that are supplied must be installed to ensure items cannot tip over onto small children.

## **11. Assembly & Over-Tightening Policy**

All furniture items that require assembly require bolts or screws to fasten items together. Use caution when assembling items to insure items are not over-tightened; this can cause damage to pilot holes, brackets, bed rails, pedestals, hinges, drawer slides, and table grommets. If items are over-tightened using impact guns, sockets, and/or wrenches, they can prevent the item from being fastened safely or correctly. Hand tightening is recommended. 1/4 turn past snug is recommended. Warranty does not cover improper assembly, stripping, or cross threading of bolts or fasteners.

## 12. Shelf & Clip Installation

Woodlawn Furniture Market Inc. and associated brands use solid wood adjustable shelves in many of our products.

We design our products to have the shelf clip turned with the support sitting above the hole. In some cases, a self-tapping screw may be needed to secure clip. The shelves in most cases cannot fit between the clips.

Unevenness of shelves is common and can be adjusted by placing felt pads on top of the clip. This will reduce wobble.

If expensive items are being placed on the shelf, ensure that shelf is stable and well secured to ensure the shelf will not drop.

Woodlawn Furniture Market Inc. and associated brands is not responsible for broken dishes or valuable goods if shelves are improperly installed, secured, or inspected. We accept no liability. Reach out to service and warranty if you have any questions regarding installation.

Many of our artisan builders use handheld jigs to drill holes individually. Due to the variation in grain, the shelf peg holes may have some inconsistency. With solid wood materials, natural variations can be expected, and inconsistencies can occur as well. We stain insides of cabinets and sometimes stain does not penetrate directly into holes or pocket holes. This is a natural character of our products.

Sometimes the shelf clip holes can expand and contract making clips loose or tight. Carefully enlarging the holes may be required. Use a block on the drill bit to ensure the drill bit does not pull through the piece and put an unwanted hole in the side of the cabinet.

## 13. Furniture Assembly & Felt Pads

Many of our products require final assembly once installed in the customer's home. Qualified dealers must acknowledge ability to assemble products. Felt pads are an essential way of protecting your home from furniture damaging your floors. We recommend you purchase after-market furniture felt pads to place under our products depending on the surface the items will be placed on to. Felt pads for hardwood and ceramic floors are recommended for bedroom items, tables, chairs, benches, sideboards, media stands, wall cabinets, occasional tables, and office equipment, as well as plastic gliders for carpeted surfaces. Felt pads are also recommended for any contact points. Hardwood floors can enhance sounds from contact points. Placing felt between bed slats and centre supports is recommended to avoid excessive noises. Fastening products with screws also reduces noise from contact points. Tables may require proper adjustment of levellers and installation of felt pads. Our product does not include felt pads for contact points. These must be supplied by the vendor or the customer.

## 14. Product Tipping Safety & Modification

Due to the nature of custom furniture, some specifications may increase the likelihood of tipping hazards. Tipping restraints are provided for all case pieces over 29" high. It is the dealer and consumer's responsibility to ensure these devices are installed or products are securely fastened to ensure product safety. If tipping restraints are found to be missing a request must be submitted by email to [orderdesk@woodlawnfurniture.ca](mailto:orderdesk@woodlawnfurniture.ca) so we can send out safety restraints for installation. Restraints must be installed before use. All items taller than 29" requiring installation and fixing to wall or structure for safety/child safety and stability is the responsibility of dealer and consumer, not of Woodlawn Furniture Market Inc., RuffSawn, RS2, or West Montrose. We use mostly 3/4" side mount drawer slides to reduce the likely hood of tipping for child safety.

**Warning:** Our products are not designed as child or infant furniture. Our products should not be used for this purpose. Placing large and heavy objects such as televisions on top of furniture can increase the likelihood of tipping. These products must be anchored as well as the furniture piece to ensure safety.

## 15. Furniture Placement & Final Adjustment Policy

When products are shipped, factory adjustments on tolerances around doors and drawers will be affected. All hardware has adjustment ability to ensure that doors and drawers have acceptable tolerances around each component. If drawers require removal. Please refer to instructions for proper installation. Slides with ball bearings can be damaged if improperly installed. Also, drawers are hand made and assembled with varying tolerances. Drawers are numbered and need to be placed into assigned spot to ensure proper fit. See instructions for adjustment on final installation.

During transit of finished products, dust can come out of the worm holes. This is due to wood dust being locked deep into the grain. Holes are not filled but are left open. Once items have been transported to end users or retail stores and packages are opened, a final wiping or dusting of finish is required to remove the dust from the finished surface. This is not considered warranty or a sign of insect infestation.

## 16. Break-In Period

When solid wood furniture is installed into a home there is a one year break-in period. Solid wood expands and contracts depending on season and weather. Some areas in homes can also fluctuate more than other rooms. Concrete floors although carpeted can cause seasonal stress on solid wood. Avoid placing wood directly onto concrete floors. Fireplaces or drier climates can cause extreme contraction of wood. In some cases, on larger wider wood panels up to 1". Our products are kiln dried to 7% moisture. Our products are manufactured and finished in a climate controlled environment. In summer months the humidity can climb and cause the solid wood to expand before finishing. As the products mature into the winter months the slides, leaves, clips, doors, hinges, drawer slides, and inset panels will require adjustment and possible finish touch up. If contractions occur and white unfinished areas are exposed this is a characteristic of solid wood furniture. Minor touch ups are part of the standard maintenance of our products. Along with cleaning and humidifying the wood. A room humidity should be monitored. Our coatings are formulated to endure reasonable seasonal changes. In extreme cases this can cause checking or cracking of coatings. We recommend touch ups be performed during the dry months as well as any seasonal changes. After the first one year break in period most touch ups and adjustments that have been completed will generally have been resolved. This adjustment period is not considered warranty but normal maintenance. Care kits are available to order or purchase online.

With fluctuations in temperature and humidity, adjustments and small touch-ups on furniture is to be expected. This "break in" period during the first year is not Service and Warranty, but a responsibility of the dealer to service the customer. During shipping, doors, drawers, and hardware adjustments can move. Minor adjustments in the consumer's home must be completed by the dealer upon delivery. Solid wood panels, table aprons, or any contracted wood component will expose unfinished surfaces. Minor stain touch-ups are the responsibility of the dealer.

## CARE INSTRUCTIONS

For daily dusting of our furniture, simply use a damp cloth (microfiber if possible) and wipe dry with a similar soft cloth. Always use your sense of touch to feel the cloth to ensure no abrasive material is trapped in the cloth.

If a deep clean is required, use a gentle detergent diluted in warm water and dry using a soft cloth. Avoid spray polishes or waxes and ensure contents of product are furniture safe and do not include silicon or solvents that may react with our finishes and disqualify warranty.

Clean up spills immediately with a blotting motion rather than a wiping motion. If wiping is required, wipe with the grain.

Do not place anything hot directly on furniture, instead use insulated pads underneath items such as plates, bowls, serving trays, pizza boxes, and take-out containers. Do not use plastic or rubber placemats or table covers on wood finishes, as they may react with the finish and adhere to the surface. Dragging and dropping of dishes or laundry baskets can cause damage. Superheated surfaces and wet glasses can mar the finish if placemats, coasters, and/or trivets are not used.

Never drag your hands on finished surfaces or wipe dust or grit from surface. Never slide finished surfaces or allow them to touch the ground. Buttons or zippers on coats, or sharp metal fasteners on jeans or clothing can scratch surfaces. Placing purses, laptops, bags, ceramic dishes, utensils can damage surfaces. Vacuuming finished surfaces with vacuum attachments is also not recommended.

Avoid placing any of our furniture in direct sunlight or over heat registers, which can cause fading, drying, and cracking.

Avoid extreme changes in humidity, as this may cause wood to warp or the glue used in construction to loosen. This includes storing in a garage or outside space that is not climate controlled. During winter months use a humidifier in your home to maintain humidity levels at approximately 40- 45% relative humidity, and in summer months use a dehumidifier.

If you want to move your furniture, lift, and do not drag. Always lift from solid areas such as tabletops or case-good sides and bottoms; never lift from drawers or movable parts.

Our finishes utilize high quality materials that are designed for durability. However, our finishes are not indestructible. Care must be taken with all surfaces. All our optional coatings including water based, solvent based, lacquer, polyurethane, oil based, and epoxy resin products can chip or scratch. Care and consideration will extend the life of our products and keep them looking beautiful for years to come.

### Storage of Furniture

All furniture items must be stored in humidity controlled environments when not in use or when left in packaging or warehouses. Improper storage of goods will result in expansion or contraction of solid wood components leading to joint separation, warping, splitting of finish.

## **WARRANTY**

RuffSawn provides a limited warranty for a period of 1 year from date of manufacture against any manufacturing defects to the original purchaser. RuffSawn will repair or replace any defective components or hardware, at its discretion. All dealers and/or customers are responsible for inspecting product before shipping to final destination. RuffSawn does not cover shipping or extra repair charges from selling to out-of-market areas. Small and minor adjustments, touch-ups, or deluxing are to be expected and not considered warranty. If the repair can be performed on-site by an authorized retailer, RuffSawn will supply any necessary parts and provide potential pro-rated and fixed rate reimbursement. This warranty does not cover shipping damage by third party carriers, or damage resulting from negligence, rental or commercial use, improper cleaning, damage or wear to swivel mechanisms, exposure to extremes in temperature or humidity, alterations in the product, or unauthorized repair. To file repair claims contact us for additional policies and procedures. Warranty does not cover improper unloading or damage caused by rough handling or unpackaging of products by shippers and receivers. Woodlawn Furniture Market Inc. or associated brands warranty is not transferable. If a replacement is approved, no modifications can be made to the replacement. The item must be produced exactly as originally ordered.

Woodlawn Furniture Market Inc.'s product warranty is intended to support the dealer with B2B (Business to Business) coverage. Our wholesale warranty does not include B2C (Business to Customer) coverage. Woodlawn Furniture Market Inc.'s warranty is designed for qualified dealers who can offer service and warranty support to customers in their local market.

Warranty does not cover retail customer expectations and satisfaction beyond manufacturers specifications and listed coverage. Dealers must provide extended care and customer satisfaction without compensation by Woodlawn Furniture Market Inc. All warranty and service must be provided by local dealer. If customers are not satisfied with the product and it is built to our specifications, our warranty does not include a customer satisfaction guarantee. Final customer expectations are the responsibility of the acting dealers to satisfy or rectify. Warranty is only provided through qualified dealers and not direct to consumers.

See additional programs for pricing to include extended service packages and warranty. For dealers, e-commerce merchants and designers who cannot service the consumer, other full service pricing packages are available. Designer pricing, extended service and warranty terms are available.

### **Buyer's Remorse**

Woodlawn Furniture Market Inc.'s warranty does not cover buyer's remorse. A customer or representative of RuffSawn products is responsible for all selections or combinations. All representatives internal or external, and customers direct or indirect, must read and acknowledge our terms and conditions prior to sale to understand the difference between the character of our products vs warrantable defects. Tailored and Signature products are nonreturnable. Any item that falls within the Elements category of products and is finished in Quickship colours from Kit 1 is subject to a restocking fee plus all costs of shipping and repackaging.

Please read carefully as our dealer return and warranty policies have changed. Due to COVID-19 and environmental concerns, Woodlawn Furniture Market Inc. and associated brands will no longer be accepting returns. All products are shipped one way with no possibility of return unless repackaged and complete with all original components and shipping prepaid by the dealer. If an item is deemed warrantable, it is the dealer's responsibility to liquidate the original order for a maximum discount of 10- 35%. All needed repairs will be the responsibility of the dealer and no extended warranty will be offered. Warranty will be null and void on all clearance items.

### **Additional Warranty & Service Coverage**

If a dealer requires additional services that are not covered under our standard warranty policies, the pricelist can be modified to include extra service and warranty coverage. These percentages will be determined off of historical costs associated with the accounts plus administration costs. The cost of the additional warranty and service coverages can range from 5-25%.

### **Warranty & Service Submission**

Submission process time can vary depending on circumstance of time of year, dealer location or supplier, and production limitation. Replacement lead times are same as standard order lead times, upon order entry date. Please include the following in your email to Service & Warranty:

1. Store name.
2. Original order number and Woodlawn original invoice number.
3. Description of item and service needed or defect. Shipping damage is not covered under warranty.
4. Clear pictures of the defect.
5. Picture of the label on the furniture item along with the label from any defective components, tabletop, leaves, chair, rails, slats, etc.
6. Email these items to [serviceandwarranty@woodlawnfurniture.ca](mailto:serviceandwarranty@woodlawnfurniture.ca).

## Canadian Wholesale Pricelist

### Service & Warranty Order Entry

Once a service or Warranty order has been approved the dealer must submit a purchase order with all details with a PO number. This will be attached to the service and warranty order # for tracking and approval purposes. This ensure details are correct. These must be submitted to order desk like a standard order. See "Order Submission Standards".

### Terms of Warranty Order

#### Option 1

When an item is deemed Warranty and a replacement is produced, the item must be paid for in full before shipping. Credits will be applied when the defective item is returned. (Item must be properly packaged and all components returned). **SKU: WRNTYCOD.**

#### Option 2

If dealer chooses to liquidate the defective item, a 25% discount can be applied to the new order.

All items that are covered under warranty or service must be packaged up and shipped back complete with all components that came in original packaging. Packaging must be adequate to protect merchandise from damage if replacement is sent. Reuse packaging to ensure products are safe for transit. If items are returned damaged and products were not safely repackaged, this will reduce the value of refund made available on return. Additional charges will be applied to the dealer or customer. If furniture items that are returned are found to have silicone polishes, unauthorized repairs or modifications, missing components, and unspecified damages from water, heat, mishandling, or commercial use, this will void warranty and result in additional charges.

All RuffSawn products come with a hidden limited lifetime warranty (25 years). Our wood component warranty does not cover the furniture finish, additional finishing fees will apply beyond simple spot touch up. If a new finish is to be required on the product, we require a \$75 - \$150 deductible fee. For example, chairs and occasionals have a \$75 deductible, tables and dressers have a deductible of \$150. This warranty is to the original consumer and purchaser of the product and to the original home address. (Warranty must be registered at the time of purchase, and proof of purchase must be submitted with pictures of all serial numbers written or labelled on back or bottom of units). See our RuffSawn information guide to clarify what is a natural characteristic. This will help determine if your product has a flaw or a natural characteristic. Usually this is determined if it is structural or cosmetic.

Our standard 1 year warranty through our dealer arrangement is designed to supply the customer with in-home coverage for all components with technical service and repair. Dealer warranty covers the seasonal break-in period. After the first year we rarely see manufacturer defects.

A manufacturers defect that is discovered after the one year warranty will be reviewed by RuffSawn. Once the claim is approved, RuffSawn will supply replacement parts at no cost excluding shipping and installation. If hardware has been discontinued an alternative part will be supplied. For major component that cannot be repaired in the customers home, we offer factory repairs. Factory repairs will be provided if products are shipped prepaid by the consumer to and from our facility. Furniture purchased by consumer remains the property of the consumer during this process. If the consumer fails to claim their items and or fails to prepay freight to and from our facility. The product will become property of Woodlawn Furniture Market Inc. after 90 days if not claimed or shipped. Our lifetime warranty is null and void if products were purchased as seconds, clearance merchandise, if previously registered, shop-worn floor models, or product with previous claim and discounted to dealer in lieu of replacement. These items are sold as is no warranty.

### Furniture Safety Disclaimer

If furniture products are not assembled in proper sequence and an injury does occur Woodlawn Furniture Market Inc. or associated brands cannot be held accountable for injury and cannot be subject to any lawsuit due to improper assembly procedure. All products must abide by local, state, provincial, and federal guidelines for health and safety. If a product is used after improper assembly or setup, Woodlawn Furniture Market Inc. and associated brands are not liable for any sort of civil, legal, or criminal charges.

The end consumer is responsible for their own safety and assembly of products. Improper assembly can result in severe injury or death. Products that are most dangerous are canopy beds, large items such as tabletops, headboards, rails, footboards, cross pieces, glass, metal, and pedestals. Never lean a product on a slippery surface. Always lean products in a safe and secure manner. Make sure a qualified assistant is present. Discuss safety precautions before assembly. Never bend down or leave your back and/or head exposed and vulnerable to falling products. Injury such as amputation of limbs, digits, or head is possible if two large furniture objects fall and crush any animal, person, or child adjacent of products.

### Unfinished Furniture

If items are requested unfinished, they do not qualify for warranty. Natural wood requires sealing with coatings to prevent warping, cracking, and staining of wood. Our wood finishes prevent water and moisture from penetrating that will cause extreme expansion and contraction. All items requested unfinished will not be warranted. Also unfinished products do not receive the same sanding process and will require additional surface prep by the subsequent finishing process. All customers are responsible for all surface prep, tolerance repairs, and blending of product. Grain of wood will raise between production and shipping. This is normal for unfinished furniture. All the same conditions apply to

## Canadian Wholesale Pricelist

unfinished furniture as per finished furniture as explained in our manuals. See terms and conditions for full explanation of product characteristics.

### **Smooth Sanded (R) Breadboard End Leaf Tables**

Breadboard end tables have been requested smooth sanded (R) on our tables. This would cost 20% more due to the necessity of 1 3/4 thickness material which is mandatory to control warping. A warranty is still not given on normal fluctuation of material during heating and cooling seasons. This will occur regardless of structure due to solid wood characteristics.

### Treatment of Customers & Staff

We thank you for choosing Woodlawn Furniture Market Inc. and associated brands. Please read our policy carefully before contacting our staff. We appreciate your support in upholding these policies.

Our policy requires all persons be treated with respect regardless of systemic or personal held biases or beliefs. Woodlawn Furniture Market Inc. and associated brands are committed to providing a safe, welcoming, unbiased opportunity, and productive environment for all customers, dealers, employees, and trade professionals when conducting business together. In order to deliver on this commitment, we require all engaging in business to treat each other with courtesy and respect, regardless of their age, sex, race, class, religion, ethnicity, ability, language, sexual orientation, or gender identity. We expect all to act with honesty, integrity, and morality in all business interactions, and to avoid all behaviour that can be detrimental to the well-being of others, including, harassment, victimization, defamation, or discrimination. Please avoid the use of profane and/or threatening language in all forms of communication and demonstrate professionalism in all communication. This includes respect for each other's dress and grooming. Also, consideration of special needs and AODA training or similar legislation must be followed to the best of our ability.

If anything of concern is noted please feel free to reach out to info@woodlawnfurniture.ca so we can address and ensure constant improvement and advancement.

Woodlawn Furniture Market Inc. reserves the right to record all business calls for training, accuracy, and safety purposes.

## RUFFSAWN FURNITURE PROGRAMS

RuffSawn has 4 programs to support our customizable solid wood furniture:

1. Quickship
2. Elements/Standard
3. Tailored
4. Custom & Signature

To identify which program your furniture purchase is under, we have created criteria to better understand our process. This will directly affect order lead times and the processing time frame. See below for the criteria.

### **Order Entry Procedure**

#### **Quickship - 2-4 weeks**

Please submit orders to [orderdesk@woodlawnfurniture.ca](mailto:orderdesk@woodlawnfurniture.ca).

Quickship items are clearly marked in our catalogue and price list. These consist of all items with no dimensional changes, no hardware changes, and are only available in wormy maple rough sawn texture. Smooth (R) sanded is not available. No customization is allowed on these items because they are stocked and an inventory item. Available in our standard 11 stain colours from Kit - 1 (2-4 week lead time). If ordering a custom finish on Quickship, it will increase lead times from 2-4 weeks up to 6 weeks.

1. Quickship confirmations can take up to 5 business days to process.
2. Quickship orders once received cannot be changed and are non-cancellable. These orders are entered into production in some cases immediately depending on scheduling.
3. Quickship order lead times are 2-4 weeks (excluding holidays).
4. We do not recommend Quickship orders be combined with non-Quickship items on a single purchase order. If combined with other programs the lead time will be determined by the item with the longest lead time.

#### **Elements (Standard & Value Priced Furniture) 6-8 weeks**

Submit Elements/Standard SKUs and Value Priced orders to [orderdesk@woodlawnfurniture.ca](mailto:orderdesk@woodlawnfurniture.ca).

Elements products are all items in the catalogue and pricelist that is a standard SKU, ordered as shown with standard hardware, texture, and no customization except optional and standard stain colours and finishes. Select from Kit 1 - 8. Many of the optional finishes are at a premium upcharge. See finish price list for details.

1. Elements items confirmations can take up to 5 business days to process.
2. Returned confirmations cannot be modified once submitted and are non-cancellable.
3. Order lead times are 6-8 weeks (excluding holidays).

#### **Tailored Items (25% Deposit Required) 8-10 weeks**

Tailored furniture items include items with decorative hardware changes, as well as functional hardware changes (i.e. soft-close), dimensional changes of a maximum of 6 inches in any combination of height, width, or depth without altering the layout of the furniture item. This includes authorized textural changes. For bedroom items, no adding of drawers or doors or fixed shelves. For dining room items, no swapping of bases or going outside the standard SKU. To calculate the price of your tailored furniture item, divide the wholesale price by the single dimension you would like to change, and multiply by the new dimension. If furniture item is being modified by more than 1 dimension, this rule must be calculated for all dimensional changes (H, W, D, and L). Please see next page for calculation example.

1. **To tailor an item larger:** To confirm estimates of tailored products, refer to the upcharges listed in the pricelist. The pricelist contains upcharges for decorative hardware, functional hardware (i.e. soft-close), finishing upcharges, and optional add-ons (i.e. storage drawers), combined with dimensional calculation up to 6 inches. For example, Truss 2 drawer nightstand 26"W standard, modified to 30"W. Take the price of \$487, divide by 26, and multiply by 30 equals \$562 (or use pricing from next size up).
2. **To tailor an item smaller:** All furniture items custom-made smaller are subject to a minimum \$50 or 5% upcharge. For example, Bogart Live Edge dining table 42"W x 84"L modified to 40"W. Cost \$1,231 multiplied by 0.05 equals \$61.55. New cost \$1,292.55. If assistance is needed, contact [quotes@woodlawnfurniture.ca](mailto:quotes@woodlawnfurniture.ca).

3. Submit tailored order to [orderdesk@woodlawnfurniture.ca](mailto:orderdesk@woodlawnfurniture.ca).
4. If estimate is required, this will be provided in 2-3 business days. Drawings will not be provided until purchase order is submitted.
5. Once order is submitted with complete details; drawings will be made for approval.
6. Once approval is returned and confirmation is made, the order lead time will begin.
7. Confirmations can take up to 5 business days to process.
8. Returned confirmations are non-cancellable.
9. Tailored order lead times are 8-10 weeks (excluding holidays).

**Signature Custom Items (Item Minimum: \$1,000.00, 50% Deposit Required) 10-12 weeks**

Signature or Custom items are items that are based off existing SKUs or collections but require more than dimensional changes of 6 inches or modify the existing structure of the piece; adding or deleting features like doors and drawers, custom sketches from the customer, mix-and-matching features, swapping bases on tables, oversized items, and one-of-a-kinds. Some changes may not be possible due to limitations of the product.

1. Submit initial custom inquiries to [quotes@woodlawnfurniture.ca](mailto:quotes@woodlawnfurniture.ca). Send line drawings or any images of similar items that are being requested.
2. Estimates can take up to 7 business days to process. If details are changed or updated, this can extend the product discovery process timeline. When items or details are changed or modified, the quote lead time is reset to 7 business days.
3. Custom furniture scaling and drawing will be charged at \$95 an hour. This step is very important in confirming whether a product is possible. Once the customer signs off on final drawings and proceeds with the order, the standard scaling and drawing charges will be waived. If orders require multiple drawings and revisions, additional charges will apply.
4. Submit the finalized package of the Signature custom order to [quotes@woodlawnfurniture.ca](mailto:quotes@woodlawnfurniture.ca).
5. The final order submission must include the confirmation of drawings; the dealer must ensure all details are correct and have the customer sign off on the final drawings. This final approval process determines the final order entry date. 50% deposit is required by the dealer to start order production.
6. Custom order lead times are 10-12 weeks from the date of final order entry.
7. Custom Quotes Desk will review the order upon production and confirm details.
8. After finishing, pictures will be sent for confirmation. When producing a Signature Custom item, some details may need to be modified due to unforeseen design challenges during construction.
9. We require final payment before releasing Signature goods. These one of a kind items are non-returnable and are the sole property of the customer who commissioned the build.
10. Signature Custom items that don't meet customers requirements upon delivery don't qualify for replacement once approved and shipped from our facility. These items must be shipped prepaid freight both ways to be modified by dealer.

**Please Note:**

RuffSawn continues to support traditional channels of distribution through brick and mortar retailers. RuffSawn has a network of established dealers that support local niche markets within close driving distance of their location. Our qualified traditional brick and mortar customers continue to provide local delivery, technical support, and offer great service to our consumers. This model has always ensured proper service and care.

Today companies are increasingly looking to the manufacturer to offer turnkey technical services and support. Better packaging options, drop ship, furniture setup and technical support.

RuffSawn is now pleased to offer additional services for qualifying dealers looking to ship across North America, drop shipping is now an option. RuffSawn covers all major centres inside North America (excluding Mexico). We can provide shipping to most Canadian provinces and American States. Drop shipping rates exclude the Territories, Newfoundland, Alaska, and Puerto Rico. Additional fees may apply outside major centres. Quotes must be requested for these areas. See logistics map.

Our new programs offer an **a la CARTE** approach to assist most needs for dealers, from standard options for brick and mortar to turnkey solutions.

We have added the following **a la carte** options:

1. Three optional Packaging Levels
2. Three Extended Service & Warranty Levels
3. Three drop ship options - White Glove, Curbside, and logistical warehouse with shipping dock.

**1. Packaging Options****Platinum Grade Packaging + 25% (SKU: PLTNMPKG)**

E-Commerce Packaging

Platinum includes 15 step packaging:

- double boxed
- double taped
- double wall corrugated
- foam wrapped
- blanket wrapped
- protective wood sheeting
- protective stretch film wrap on finish
- surgical fabric between friction points
- corner protection
- crumple zones
- internal wood supports for leg support (where applicable)
- three-stage QC signatures
- written instructions
- marked
- touch up materials provided in package.
- detailed pictures of products prior to wrapping, pictures of packaging prior to shipping.

Platinum Packaging is for drop ship and white glove delivery. This fee is for enhanced packaging only. Products will still be shipped via standard shipping channels and will be transferred to the dealer's warehouse. The dealer must arrange drop shipping from their location. Items in platinum packaging are suitable to be shipped loose and delivered by tailgate service. White glove delivery fulfillment must be used to complete the shipment for warranty to be applicable. Optional consumer assembly and setup will exclude service and warranty options from manufacturer. Packaging must be kept for a break-in period of 90 days by consumer to maintain service and warranty. Packaging upgrade does not cover shipping costs. This must be covered by the dealer and does not include shipping on warranty. In extreme cases of rough handling, if finish or items are damaged in transit, compensation must be provided by the shipper. For normal adjustments after delivery, the white glove service must provide adequate support before departing to ensure products are placed and adjusted correctly.

#### **Gold Grade Packaging + 10% (SKU: GLDPKG)**

*Loose Box LTL Shipping*

Gold includes 10 step packaging:

- double boxed
- double taped
- double wall corrugated
- plastic strapped (where applicable)
- foam wrapped
- protective stretch film wrap on finish
- surgical fabric between friction points
- corner protection
- internal wood supports for leg support (where applicable)
- two-stage (QC) signatures

Silver packaging is provided for less than skid quantity orders with extra protection for loose placed LTL. Packaging is designed for B2B business model, with pre-inspection by dealers, as well as qualified warehousing and handling prior to consumer delivery. Not equipped to handle offloading from truck to ground without special care; a loading dock is required. Such items are to be delivered by the dealer's qualified delivery service. Boxes are not required to maintain warranty after initial delivery and inspection is properly completed.

#### **Silver Grade Packaging (Standard Packaging)**

Silver includes 8 step packaging:

- double wall corrugated
- plastic strapped (where applicable)
- foam wrapped
- protective stretch filmed wrap on finish
- surgical fabric between friction points
- corner protection
- internal wood supports for leg support (where applicable)
- two-stage (QC) signatures

Silver packaging is provided with our standard price list. Product handling is intended for B2B business model, with pre-inspection by dealers, as well as qualified warehousing and handling prior to consumer delivery. Care must be taken when in packaging skid to avoid damage from dropping. Not suitable for shipping loose through 3rd party shippers. Must be shipped from dock to dock. Not equipped to handle offloading from truck to ground without special care. Loading dock is required. To be delivered by dealer's qualified delivery service. Boxes not required to maintain warranty after initial delivery and inspection is properly completed.

## **2. In-Home Service & Warranty Coverage**

#### **Platinum In-Home Service + 20%**

Platinum In-Home Service covers hiring and completing in-home service and repairs on products for the first year of ownership. It also covers additional shipping costs between dealer and manufacturer, up to a 1 hour drive from the dealer's shipping address. Does not cover drop shipping outside dealer area. (Must be purchased prior to shipping to dealer). Does not cover initial delivery, setup, and adjustment. Does not cover shipping and handling damage.

## Canadian Wholesale Pricelist

### Gold In-Home Service + 10%

Gold In-Home Service covers hiring and completing in-home service and repairs on products for the first 90 days. It also covers additional shipping costs between dealer and manufacturer, up to 1/2 hour drive from dealer shipping address. Does not cover drop shipping outside dealer area. (Must be purchased prior to shipping to dealer). Does not cover initial delivery, setup, and standard adjustment. Does not cover shipping and handling damage.

### Silver In-Home Service + 5%

Silver In-Home Service covers all on-site technician charges associated with minor touch ups and repairs and component replacement. See rate list below for details. Does not cover initial delivery setup and standard adjustment. Does not cover shipping and handling damages. Does not cover transportation between dealer and customer. Does not cover shipping to the manufacturer.

- A) Minor spot repair - single piece: \$50
- B) Minor spot repair - multiple piece: \$75
- C) Surface damage and colour replacement: \$100
- D) Hardware adjustment - single piece: \$50
- E) Hardware adjustment - multiple piece: \$75
- F) Hardware replacement - single piece: \$50
- G) Hardware replacement - multiple piece: \$75

### **3. Drop Ship Options**

#### Platinum Drop Shipping Business to Customer (B2C) Wholesale x 2.15 (Minimum order \$2,500)

Platinum includes:

- Platinum packaging
- Platinum Service & Warranty package
- cost of drop shipping
- includes white glove delivery

#### Gold Drop Shipping Business to Curb-Side B2CS wholesale x 2

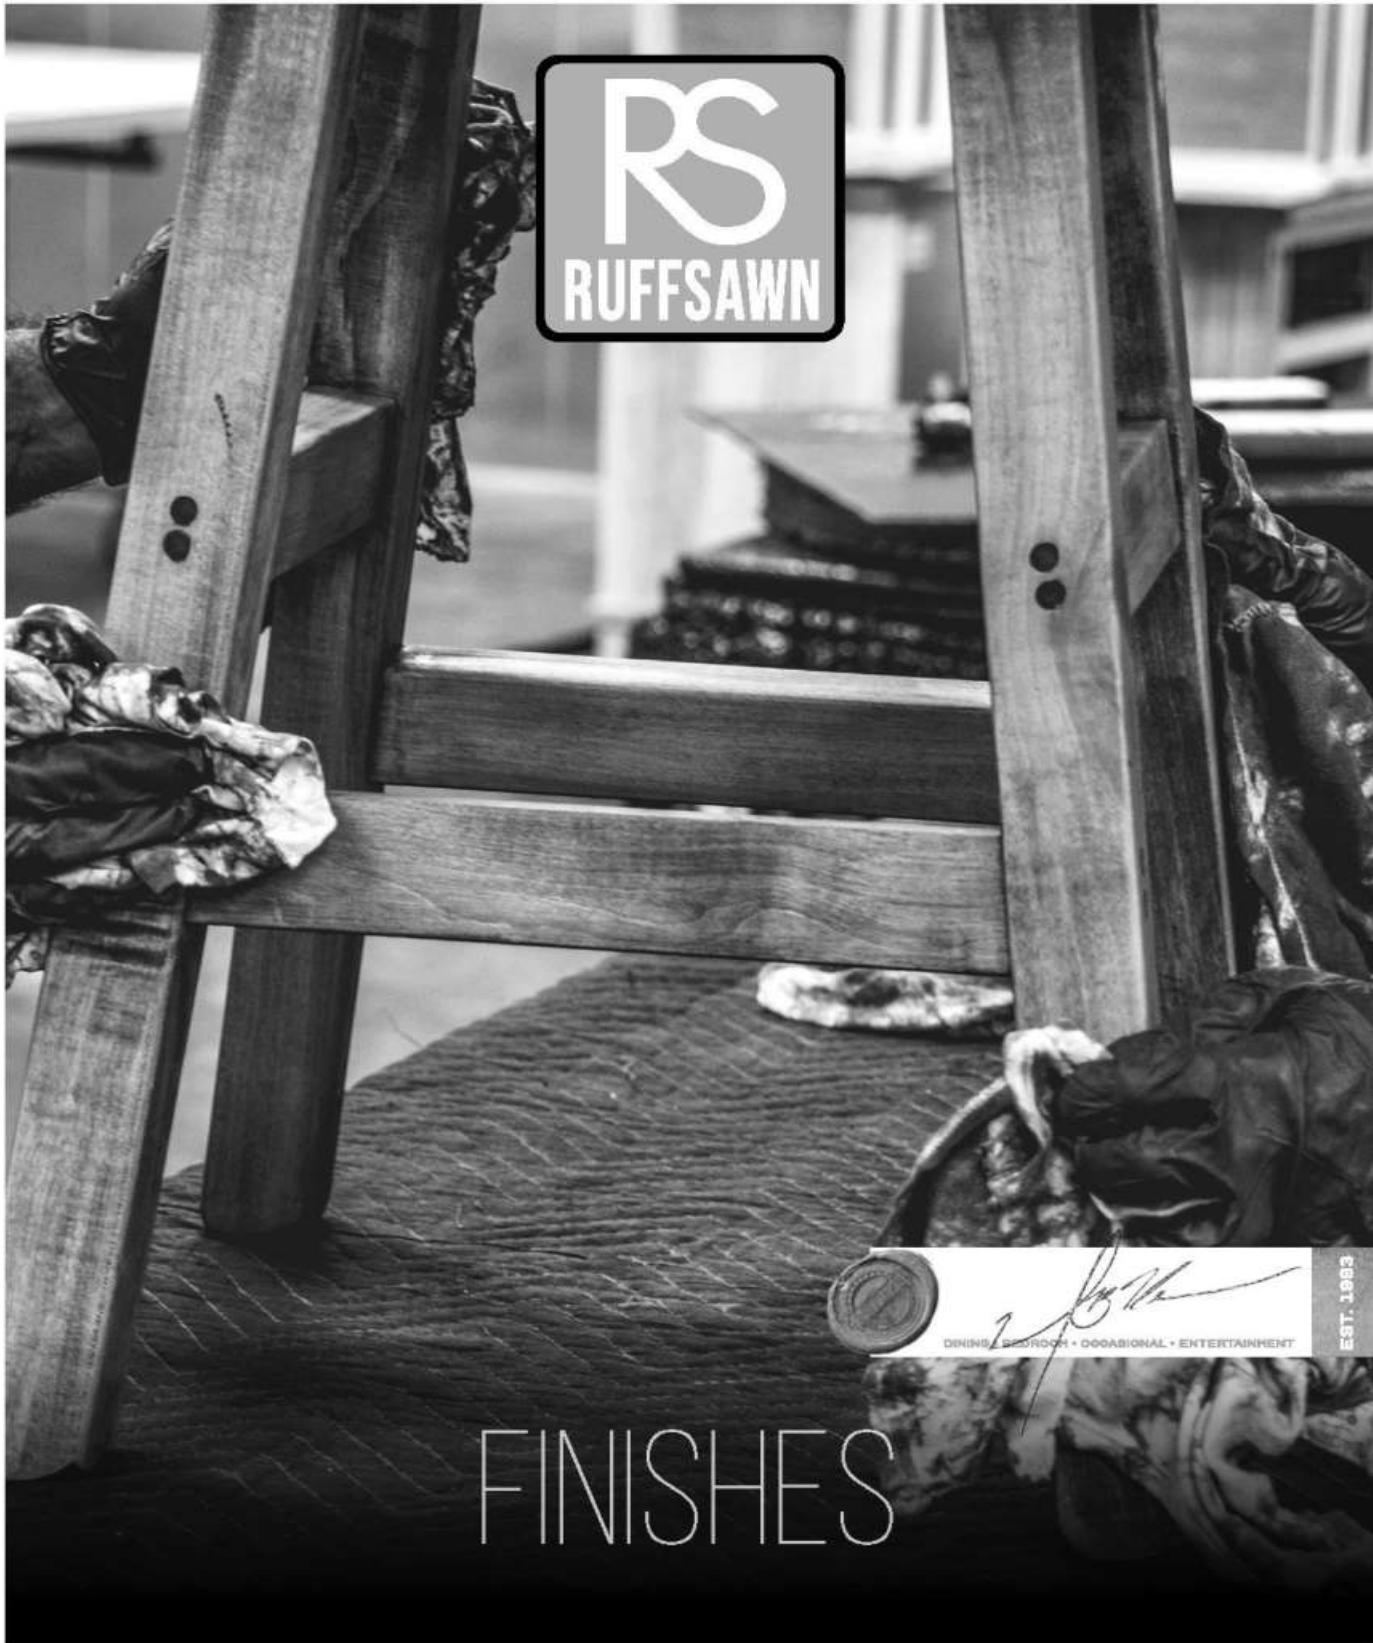

Gold includes:

- Platinum packaging
- Gold Service & Warranty (See Conditions)
- cost of drop shipping
- curb-side delivery

#### Silver Drop Ship Business to Warehouse B2WH wholesale x 1.85

Silver includes:

- Gold packaging
- Silver Service & Warranty (See Conditions)
- LTL shipping to warehouse with shipping dock of customer's choice
- customer setup, installation, and initial touch up

### COH (Customers Own Hardware)

This program allows customers to source and ship spec hardware for installation onto Woodlawn Furniture Market Inc. products. A customer must order and ship hardware to our facility with prepaid shipping and brokerage. A \$10.00 fee for decorative hardware installation per pull will apply. For functional hardware \$95.00 per hour will be charged for installation. If a customer requires Woodlawn Furniture Market Inc. to source a nonstandard hardware for a project a \$95 per hour charge will be applied plus all costs associated with purchasing or shipping hardware to our facility for assembly.

## UPHOLSTERED HEADBOARD & FOOTBOARD OPTIONS

We have upholstered inset headboard and footboard options. These panels are made with 1" Dacron fibre, 1" thick 1.3 lbs foam. Mounted on a 1/2" plywood material with black dust cover. We have standard stocked fabric at our upholstery shop. These are included in our standard price. We also can offer a Customer's Own Material option through Ennis Fabrics, Master Fabrics, and Evergreen fabrics. These would be charged at their per yard rate.

**Small Nail Head Option:** \$ 7 per foot

**Large Nail Head Option:** \$ 14 per foot

\* Platform Bed for Mattress Only, Full Extension Slides on Storage Drawers, No Soft-Close Available on Beds. B/M = Boxspring & Mattress, M/O = Mattress Only

**ARTHUR PHILIPPE BEDROOM**

Unique push-to-open undermount slides. Handles RSH-19-BP (black powder coat) standard.

Standard bed comes with wide plank solid wood slat system, with centre supports, suitable for mattress only.

Platform bed shown for mattress only, with 4 drawer storage rail system, 2 drawers per side.

Platform bed shown for mattress only, with 6 drawer storage rail system, 3 drawers per side.

Storage drawer systems: 3 drawers on one side only -\$350 from 6 drawers. 2 drawers on one side only -\$275 from 4 drawers.

Beds have a metal plate on footboard that cannot be deleted. Available with flip-up storage headboard.

The armoire doors are each made of 2 solid wood pieces held together with cross stretchers to prevent sever movement or warping.

There is a visible gap in the centre of the doors.

\*Not available with storage footboard. Optional 24", 30", or 36" headboard heights and storage drawers.

Comes standard in rough sawn wormy maple texture. This collection is shown in "Envy" finish. Case goods have a 1 3/4" thick top.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

For California King bed sizes, add \$50.00 to the King bed price.

## MODELLI LIVE EDGE BEDROOM

Shown in summer cut live edge (no bark). Also available in winter cut live edge (with bark), as well as straight edge.

Bark live edge is only available rough sawn and is not available in smooth sanded (R).

Variance in width and thickness is a natural feature of live edge furniture. Variances of up to 4" in depth from specified width can be expected.

\*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available.

Comes standard with full extension side mount drawer slides.

Comes standard with hand pull drawers (no hardware).

Optional with RSH-16-96-GOLD/BLACK/GRAHITE handles.

This collection is shown in an "Espresso" standard stain finish.

Standard bed comes with wide plank solid wood slat system, with centre supports, suitable for mattress only.

Platform bed shown for mattress only, with 4 drawer storage rail system, 2 drawers per side.

Storage drawer systems: 3 drawers on one side only -\$350 from 6 drawers. 2 drawers on one side only -\$275 from 4 drawers.

For California King bed sizes, add \$50.00 to the King bed price. Single with XL rails +\$75.

Headboard only prices are 65% of standard bed price.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**ANCHOR DINING TABLE 1 3/4" LIVE EDGE HOLLOW STEEL TUBE BASE**

Anchor table with 1 3/4" authentic live edge. Variance in width and thickness is a natural characteristic our 1 3/4" live edge tops. Available in 1 3/4" summer cut edge only.

Variance in width and thickness is a natural feature of live edge furniture.

Variances of up to 6" in table width from specified width can be expected.

E&O. Comes standard with glued up top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Comes standard in rough sawn wormy maple texture.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

Comes standard with table levelers. Only available in solid top. No leaf options.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**ANCHOR 3" DINING TABLE HOLLOW STEEL TUBE BASE REAL LIVE EDGE**

Anchor table with 3" authentic live edge. Variance in width and thickness is a natural characteristic our 3" live edge tops.

Example: 3" Tops, rough stock is measured at 12/4 (3") then machined and can vary up to 10/4-11/4 final thickness.

3" live edge top available in summer cut only. Variance in width and thickness is a natural feature of live edge furniture. Variances of up to 6" in table width from specified width can be expected.

E&O. Comes standard with glued up top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Comes standard in rough sawn wormy maple texture.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

Comes standard with table levelers. Only available in solid top. No leaf options.

Available with square edge for the same price. This collection comes standard in summer cut live edge (no bark).

3" Not available in winter cut live edge (with bark).

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**ANDREAS DINING TABLE REAL LIVE EDGE**

Andreas Slab Top table shown with double live edge feature in centre of table with square outside edge. 2" Material used to achieve 1 3/4" final top thickness (rough sawn) 1 1/2". Every table is unique. Variance in width and thickness is a natural feature of live edge furniture. Comes standard with glued up top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Comes standard in rough sawn wormy maple texture. Summer cut live edge is standard. Bark live edge is only available rough sawn and is not available in smooth sanded (R). \*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer) as shown in catalogue. Must specify texture. Comes standard with table levelers.

Chair placement can be a challenge with shorter lengths.  
 Every table is unique. Variance in width and thickness is a natural feature of live edge furniture.  
 This collection comes standard in Summer Cut live edge (no bark).  
 Not available in winter cut live edge (with bark). Available with square edge for the same price.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**BAKERS 3 1/2" TURNED LEGS DINING TABLE**

Bakers table comes standard with plank top with built up edge (glued up wood boards, held together with a wood spline, with visible v-groove). 1 1/2" Material used to achieve 1 3/8" final top thickness with built up edge total 3 3/4".

Standard breadboard end with plank top. Breadboard end cannot be deleted.

Chair placement can be a challenge with shorter lengths.

\*\*Only available in wormy maple rough sawn texture. Comes standard with table levellers.

Rebated apron for leg support. Inset apron cannot be modified due to the structure of the table and leg supports.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**BAKERS 5 1/2" TAPERED LEGS DINING TABLE**

Bakers table comes standard with plank top with built up edge (glued up wood boards, held together with a wood spline, with visible v-groove). 1 1/2" Material used to achieve 1 3/8" final top thickness with built up edge total 3 3/4".

Standard breadboard end with plank top. Breadboard end cannot be deleted.

Chair placement can be a challenge with shorter lengths.

\*\*Only available in wormy maple rough sawn texture. Comes standard with table levellers.

Rebated apron for leg support. Inset apron cannot be modified due to the structure of the table and leg supports.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**BATHURST DINING TABLE REAL LIVE EDGE**

Bathurst table live edge comes standard with glued up top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). 2" material used to achieve 1 3/4" final top thickness (rough) 1 1/2" (smooth sanded). Summer cut live edge (features authentic live edge smooth sanded).

Every table is unique. Variance in width and thickness is a natural feature of live edge furniture. Available with square edge for the same price. Bark live edge is only available rough sawn and is not available in smooth sanded (R).

Variance in width and thickness is a natural feature of live edge furniture. Variances of up to 6" in table width from specified width can be expected. Example our 1 3/4" winter cut bark on and summer cut tops, are 2" material that is machined and can vary from 1 1/2" to 1 3/4" final thickness.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

Table levelers not available. Only available in solid top.

No leaf options. Rectangular Live Edge Glued Up Slab Top

**BENCHMARK LIVE EDGE DINING TABLE REAL LIVE EDGE**

Benchmark live edge table comes standard with glued up top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Benchmark table comes standard with turnbuckle, bolts and tenon detail. Variance in width and thickness is a natural feature of live edge furniture.

Bark live edge is only available rough sawn and is not available in smooth sanded (R).

Variances of up to 6" in table width from specified width can be expected. 2" Material used to achieve 1 3/4" final top thickness (rough). \*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available.

Only available in solid top. No leaf options. Comes standard with table levelers.

Inset cross member is a leg and chair obstruction on 72" and shorter tables. (Recommended 84" and larger).

Please specify on your order whether you would like summer cut live edge (no bark) or winter cut live edge (with bark).

**BRISTOL DINING TABLE**

Bristol comes with a unique herringbone pattern table top. Available rough sawn texture only, smooth sanded not available. 4" Built up edge. Solid wood over plywood construction (plywood is a stable substrate, it does not expand and contract like solid wood, a breadboard end is not required. Solid wood tops require breadboard ends).

\*\*Only available in wormy maple rough sawn texture. Smooth Sanded (R) not available.

Optional solid wood top available with breadboard ends, in rough sawn only - see [Utah](#) table.

Optional solid top table in smooth (R) sanded wormy maple. See [Nexus](#) table.

Black powder coated base option. Clear coated steel standard (please specify).

Comes standard with table levelers.

Rough sawn texture only, no smooth. 4" Built up edge. Solid wood over plywood. Black powder coated base \$150 option.

Clear coated steel standard.

**BURMESE LIVE EDGE DINING TABLE**

Burmese table comes standard with Slab Top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Every live edge table is unique.

Variance in width and thickness is a natural feature of live edge furniture. Variances of up to 6" in table width from specified width can be expected. 2" Material used to achieve 1 3/4" final top thickness (rough) 1 1/2" (smooth).

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer). Only available in summer cut live edge. Only available in solid top. No leaf options.

Comes standard with table levelers.

## CHESAPEAKE SINGLE PEDESTAL DINING TABLE

Chesapeake single pedestal dining table available in a round solid top or optional centre leaf table.  
 Slab top table with grain running across table with centre slides that extend. Place leaves with pins onto slides.  
 Aprons are inset to conceal the table slides.

Width restrictions 42"W-60"W. Length restrictions 42"L- 84"L with leaf extensions).  
 1 1/2" Material used to achieve 1 3/8" final top thickness with inset apron. Comes standard in rough sawn wormy maple texture.

Double pedestal has built-up edge and single pedestal has inset apron.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

Comes standard with table levelers. Round table top sizes are limited by the scale of the base.

Can self store one leaf if one leaf is left in tabletop.

Must specify self storing option.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**CROSS CREEK DINING TABLE 1 3/4" TOP REAL LIVE EDGE**

Cross Creek table comes standard with Slab Top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Available with square edge for the same price.

This collection comes standard in summer cut live edge (no bark). Winter cut not available.

Every live edge table is unique. Variance in width and thickness is a natural feature of live edge furniture.

Variations of up to 6" in table width from specified width can be expected. Only available in solid top.

No leaf options. Comes standard with table levelers.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer). Every table is unique.

Variance in width and thickness is a natural characteristic our 1 3/4" live edge tops.

Rustic smooth sanded only available summer cut.

For turnbuckle stretcher add +\$150.

**CROSS CREEK DINING TABLE 3" TOP REAL LIVE EDGE**

Cross Creek table comes standard with Slab Top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Available with square edge for the same price.

This collection comes standard in summer cut live edge (no bark). 3" Not available in winter cut live edge (with bark).

Every live edge table is unique. Variance in width and thickness is a natural feature of live edge furniture.

Variations of up to 6" in table width from specified width can be expected. Only available in solid top.

No leaf options. Comes standard with table levelers.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer). Every table is unique.

Variance in width and thickness is a natural characteristic our 3" live edge tops.

Example: 3" Tops, rough stock is measured at 12/4 (3") then machined and can vary up to 10/4-11/4 final thickness.

3" live edge top available in summer cut only.

Rustic smooth sanded only available summer cut.

For turnbuckle stretcher add +\$150.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**EASTLAND DINING TABLE 3" REAL LIVE EDGE**

Every live edge table is unique. Variance in width and thickness is a natural feature of live edge furniture.

Variances of up to 6" in table width from specified width can be expected. Every table is unique.

Variance in width and thickness is a natural characteristic our 3" live edge tops.

Example 3" Tops, rough stock is measured at 12/4 (3") then machined and can vary up to 10/4-11/4 final thickness.

3" live edge top available in summer cut only. Only available in solid top. No leaf options.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

Comes standard with table levelers.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

## GRANADA SINGLE PEDESTAL DINING TABLE

Granada table with authentic 3" thick solid wood top. Comes standard with glued up top (wood boards, straight line cut, glued side by side to create a solid wood panel top).

Every table is unique. Variance in width and thickness is a natural characteristic our 3" tops.

Example: 3" Tops, rough stock is measured at 12/4 (3") then machined and can vary up to 10/4-11/4 final thickness.

Slab top table with grain running across table with centre slides that extend. Place leaves with pins onto slides.

Aprons are flush with edge to conceal the table slides.

Also available in optional centre leaf table with leaves, 1 3/8" top with flush

built up edge (wood grain runs across table top. Width restrictions 36"W-60"W. Length restrictions 36"L- 84"L including leaf extensions). Round table top sizes are limited by the scale of the base. Tables with single pedestal, double pedestal, trestle base with breadboard ends and centre leaf option, have a natural flex when weight or force is applied on table top. This natural flex is considered normal and not a flaw. Larger tops will have increased down force or flex.

Comes standard in rough sawn wormy maple texture. Comes standard with table levelers.

**Solid Tops Only:** \*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

**Leaf Tables:** \*\*Only available in wormy maple rough sawn texture. Smooth (R) sanded not available.

**GRANADA DOUBLE PEDESTAL 3" SOLID TOP DINING TABLE**

Authentic 3" thick Granada double pedestal table. Comes standard with Slab Top (wood boards, straight line cut, glued side by side to create a solid wood panel top). Solid top (wood grain runs length of table).

Live edge option is +10%.

Only available in solid top. No leaf options. Every table is unique. Variance in thickness is a natural characteristic our tops.

Example: 3" Tops, rough stock is measured at 12/4 (3") then machined and can vary up to 10/4-11/4 final thickness.

These tables require special delivery due to weight. Comes standard in rough sawn wormy maple texture.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer). Comes standard with table levelers.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

## HEARTLAND TRESTLE DINING TABLE

Heartland dining table features a smaller scale base compared to the Carlisle table for smaller spaces and easier chair placement. Comes standard with Slab Top with inset apron (wood boards, straight line cut, glued side by side to create a solid wood panel top). 1 3/8" top with inset apron. Solid top only. Leaves not available.

**\*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available.**

Comes standards with table levellers.

Breadboard leaves range from 12", 16", 18", 22", 24". Standard 18".

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

## HEDGEHOG 1 3/4" LIVE EDGE DINING TABLE

Hedgehog table base is finished in natural steel or powder coated option (must specify). Live Edge 1 3/4" table features authentic winter cut with bark on (chips and gaps are a natural feature). Touch up will be required after transport and use) with optional summer cut live edge (features authentic live edge smooth sanded). Every table is unique.

Variance in width and thickness is a natural characteristic our live edge tops.

Example our 1 3/4" winter cut bark on and summer cut tops, are 2" material that is machined and can vary from 1 1/2" to 1 3/4" final thickness.

Variance in width and thickness is a natural feature of live edge furniture. Variances of up to 6" in table width from specified width can be expected. Bark live edge is only available rough sawn and is not available in smooth sanded (R).

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

Comes standard with table levelers.

Every table is unique. Variance in width is a natural feature of live edge furniture.

## HEIDELBURG DINING TABLE

Heidelberg table features a modern flush apron with micro-groove in the apron. 4 1/2" legs.

Comes standard with Slab Top with flush apron (wood boards, straight line cut, glued side by side to create a solid wood panel top).

Solid top (wood grain runs length of table). Breadboard leaves (extensions placed on the ends of tables).

Wooden slides attached to a board or end caps that opens and leaves can be placed to make a solid top table longer.

\*\*Only available in wormy maple rough sawn texture.

1 1/2" Material used to achieve 1 3/8" final top thickness.

Smooth sanded (R) not available. Comes standard with table levelers.

## Canadian Wholesale Pricelist

### HEIDELBURG DINING TABLE

Heidelberg table features a modern flush apron with micro-groove in the apron. 4 1/2" legs.

Comes standard with Slab Top with flush apron (wood boards, straight line cut, glued side by side to create a solid wood panel top).

Solid top (wood grain runs length of table). Breadboard leaves (extensions placed on the ends of tables).

Wooden slides attached to a board or end caps that opens and leaves can be placed to make a solid top table longer.

\*\*Only available in wormy maple rough sawn texture.

1 1/2" Material used to achieve 1 3/8" final top thickness.

Leg dimensions 4 1/2" standard.

Breadboard leaves range from 12", 16", 18", 22", 24". Standard 18".

## HERITAGE DOUBLE PEDESTAL DINING TABLE

Heritage double pedestal features large scale base and square turned pedestal. 1 3/8" top with inset apron.

Comes standard with Slab Top inset apron (wood boards, straight line cut, glued side by side to create a solid wood panel top).

\*\*Only available in wormy maple rough sawn texture. Breadboard leaves (extensions placed on the ends of tables).

Wooden slides attached to a board or end caps that opens and leaves can be placed to make a solid top table longer.)

Breadboard leaves range from 12", 16", 18", 22", 24". Standard 16".

Smooth sanded (R) not available. Comes standard with table levelers.

Square turned pedestals are rustic by nature due to being cut with a Maddison Lathie.

Although tops can come smooth sanded, pedestals will have a natural rustic look.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

## HUGO DINING TABLE WITH LEAVES

Hugo table comes standard with glued up top (wood boards, straight line cut, glued side by side to create a solid wood panel top). Fixed or leaf breadboard option available. Breadboard end cannot be deleted. 1 1/2" material used to achieve 1 3/8" final top thickness with built up edge, total 3 3/4". With modern pillar bases. Wooden slides attached to a board or end caps that opens and leaves can be placed to make a solid top table longer. Breadboard leaves range from 12", 16", 18", 22", 24". Standard 18".

\*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available.

Oversized base can interfere with chair placement. Comes standard with table levelers.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**INFINITY DINING TABLE REAL LIVE EDGE**

Infinity Live Edge table featuring modern wood base and summer cut live edge top. Comes standard with glued up top (wood boards, straight line cut, glued side by side to create a solid wood panel top). Only available in solid top. No leaf options. Every live edge table is unique. Variance in width and thickness is a natural feature of live edge furniture.

Bark live edge is only available rough sawn and is not available in smooth sanded (R).

Variations of up to 6" in table width from specified width can be expected. Every table is unique.

Variance in width and thickness is a natural characteristic our 1 3/4" live edge tops.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

Must specify texture. Comes standard with table levelers.

## KNEX LIVE EDGE DINING TABLE REAL LIVE EDGE

Knex Live Edge table comes standard with glued up top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Standard summer cut live edge (features authentic live edge smooth sanded). Optional winter cut bark on live edge (chips and gaps are a natural feature. Touch up will be required after transport and use). Bark live edge is only available rough sawn and is not available in smooth sanded (R).

Shown with optional pub table height. Comes standard regular 30" table height. Must specify optional heights.

Comes standard with glued up top (wood boards, straight line cut, glued side by side to create a solid wood panel top).

Solid top (wood grain runs length of table). Only available in solid top. No leaf options. Every table is unique.

Variance in width and thickness is a natural characteristic our 1 3/4" live edge tops.

Variance in width and thickness is a natural feature of live edge furniture. Variances of up to 6" in table width from specified width can be expected.

**\*\*Only available in wormy maple rough sawn texture. Smooth Sanded (R) not available. Comes standard with table levelers.**

## LAO TZU DINING TABLE

Lao Tzu table features a butterfly edge with inlay pattern (table top made 12" longer, 6" on each edge cut and folded under with miter edge to create book leaf end grain. Side aprons mitred to create faux 3"-3.5" butcher block thickness).

With unique inset pattern on top. Comes standard with glued up top (wood boards, straight line cut, glued side by side to create a solid wood panel top). Only available in solid top. No leaf options. \*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available. Comes standard with table levelers.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

## MELISSA DINING TABLE

Melissa solid top dining table features no skirt. Special metal brackets create a very simplistic modern design.

3 1/2" tapered legs. Comes standard with Slab Top (wood boards, straight line cut, glued side by side to create a solid wood panel top). Only available in solid top. No leaf options. 2" material used to achieve 1 3/4" final top thickness (rough) 1 1/2" (smooth sanded). Comes standard in rough sawn wormy maple texture.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer). Comes standard with table levelers.

Leg bolts may be visible when viewing level to or below tabletop.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**MODELLI LIVE EDGE DINING TABLE REAL LIVE EDGE**

Modelli Live Edge table comes standard with Slab Top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Summer cut live edge (features authentic live edge with no bark).

Optional winter cut bark on live edge - please specify (chips and gaps are a natural feature. Touch up will be required after transport and use).

Bark live edge is only available rough sawn and is not available in smooth sanded (R).

Shown with optional pub table height. Comes standard regular 30" table height. Must specify optional heights.

Comes standard with glued up top (wood boards, straight line cut, glued side by side to create a solid wood panel top).

Solid top (wood grain runs length of table). Only available in solid top. No leaf options. Every table is unique.

Variance in width and thickness is a natural characteristic our 1 3/4" live edge tops.

Variance in width and thickness is a natural feature of live edge furniture. Variances of up to 6" in table width from specified width can be expected.\*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available.

Comes standard with table levelers.

## NEXUS DINING TABLE

Nexus dining table features Butterfly edge (table top made 12" longer, 6" on each edge cut and folded under with miter edge to create book leaf match end grain. Side aprons mitred to create faux 3"-3.5" butcher block thickness). Comes standard with glued up top (wood boards, straight line cut, glued side by side to create a solid wood panel top). Solid top (wood grain runs length of table). Only available in solid top. No leaf options.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

Comes standard with table levelers.

Black powder coated base \$150 option.

Clear coated steel standard.

## PILLAR BASE LIVE EDGE DINING TABLE

Live Edge Pillar Base table comes standard with Slab Top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Shown with winter cut bark on live edge (chips and gaps are a natural feature. Optional summer cut live edge (features authentic live edge smooth sanded) - please specify. Bark live edge is only available rough sawn and is not available in smooth sanded (R).

Touch up will be required after transport and use). Comes with optional pub table height. Shown standard regular 30" table height.

Must specify optional heights. Solid top (wood grain runs length of table). Only available in solid top. No leaf options.

Variance in width and thickness is a natural characteristic our 1 3/4" live edge tops.

Variances of up to 6" in table width from specified width can be expected.

\*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available. Comes standard with table levelers.

**POURED EPOXY ENCASED LIVE EDGE DINING TABLE**
**Poured Epoxy Single Slab Encased Live Edge Dining Table**

<b>PESSELEST</b>	<b>Poured Epoxy Single Slab Encased Live Edge Dining Table</b>	<b>\$250 /SqFt</b>
------------------	--	--------------------

Featuring a **Single** solid walnut tree slice. Partially encased in a poured clear black epoxy. Finished in a polyurethane top coat meant for regular casual dining. Each slab is unique and cannot be duplicated. Featuring a turnbuckle cross stretcher and metal x base.

\*\*\*\*\*Only available in epoxy polyurethane (antique textured or smooth (R) slabs).

Only available in solid top. No leaf options. Comes standard with table levelers.

All tables get trimmed to crest the most appealing edges. Lengths can never be an exact size. Expect variations of length and width up to 3".

Average tree slice is 34 - 38" variance in width solid walnut with average 3-4" poured epoxy edges bringing average width to 42".

Example: (42 x 84 = 3528)/ 144 = 24.5 x \$250 = \$6,125

**POURED EPOXY ENCASED LIVE EDGE DINING TABLE****Poured Epoxy Two Slab Encased Live Edge Dining Table**

<b>PETSELEST</b>	<b>Poured Epoxy Two Slab Encased Live Edge Dining Table</b>	<b>\$350 /SqFt</b>
------------------	---	--------------------

Featuring **Two** pieces of unique walnut slabs fully encased in white poured epoxy. These tables are created using custom built molds. Hand poured and hand corrected. The unique spider base is precision cut, hand welded and polished with a natural clear coat finish. Weeks of work go into creating stunning works of art.  
\*\*\*\*\*Only available in epoxy polyurethane (antique textured or smooth (R) slabs).

Only available in solid top. No leaf options. Comes standard with table levelers.

All tables get trimmed to crest the most appealing edges. Lengths can never be an exact size. Expect variations of length and width up to 3".

Unique walnut tree slabs have varying branches and extensions requiring large epoxy pours and fills.

Irregular average dimension requiring trimming and dimensional pours.

Example: (42 x 84 = 3528)/ 144 = 24.5 x \$350 = \$8,575

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

## RIVERSIDE DINING TABLE REAL LIVE EDGE

Riverside with double live edge feature running full length in centre of table, with square outside edge.

Bark live edge is only available rough sawn and is not available in smooth sanded (R).

2" Material used to achieve 1 3/4" final top thickness (rough sawn) 1 1/2" (rustic smooth sanded).

Every table is unique. Variance in width and thickness is a natural feature of live edge furniture. Comes standard with Slab Top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). \*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

Must specify texture. Comes standard with table levelers. Variance in width and thickness is a natural feature of live edge furniture.

Variances of up to 6" in table width from specified width can be expected.

This collection comes standard in Summer Cut live edge (no bark).

Not available in winter cut live edge (with bark). Available with square edge for the same price - see [Monolith Dining Table](#).

## RUSTIC CARLISLE SINGLE PEDESTAL DINING TABLE

Rustic Carlisle Single Pedestal table with solid top and optional centre leaf table with leaves, 1 3/8" top with flush 3 3/4" built up edge (wood grain runs across table top. Width restrictions 36"W-60"W. Length restrictions 36"L- 84"L including leaf extensions). Round table top sizes are limited by the scale of the base. Tables with single pedestal, double pedestal, trestle base with breadboard ends and centre leaf option, have a natural flex when weight or force is applied on table top. This natural flex is considered normal and not a flaw. Larger tops will have increased down force or flex. Comes standard in rough sawn wormy maple texture.

\*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available.

Slab top table with grain running across table with centre slides that extend. Place leaves with pins onto slides.

Aprons are flush with edge to conceal the table slides.

Comes standard with table levelers.

Self storing option not available.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**RUSTIC CARLISLE LIVE EDGE TRESTLE DINING TABLE 1 3/4" TOP**

Rustic Carlisle Live Edge table comes standard with Slab Top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Shown with winter cut bark on live edge (chips and gaps are a natural feature). Optional summer cut live edge (features authentic live edge smooth sanded) - please specify.

Touch up will be required after transport and use. Solid top (wood grain runs length of table). Only available in solid top.

No leaf options. Every table is unique. Variance in width and thickness is a natural characteristic our 1 3/4" live edge tops.

Available in 1 3/4" winter cut bark on and summer cut. 3" live edge top available in summer cut only.

**\*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available.**

Please specify on your order whether you would like summer cut live edge (no bark) or winter cut live edge (with bark).

For turnbuckle stretcher add +\$150.

## RUSTIC CARLISLE LIVE EDGE TRESTLE DINING TABLE 3" TOP

Rustic Carlisle Live Edge table comes standard with Slab Top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Shown with winter cut bark on live edge (chips and gaps are a natural feature). Optional summer cut live edge (features authentic live edge smooth sanded) - please specify.

Touch up will be required after transport and use. Solid top (wood grain runs length of table). Only available in solid top.

No leaf options. Every table is unique. Variance in width and thickness is a natural characteristic our 3" live edge tops. Example: 3" Tops, rough stock is measured at 12/4 (3") then machined and can vary up to 10/4-11/4 final thickness. 3" live edge top available in summer cut only.

Available with square edge for the same price.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer). Comes standard with table levelers.

For turnbuckle stretcher add +\$150.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**RUSTIC LOFT 3 1/2" LEGS DINING TABLE**

Rustic Loft table comes with turnbuckle, bolts and tenon detail. Comes standard with glued up top (wood boards, straight line cut, glued side by side to create a solid wood panel top). 1 1/2" material used to achieve 1 3/8" final top thickness. Fixed or leaf breadboard option available and can be deleted. Breadboard leaves (extensions placed on the ends of tables. Wooden slides attached to a board or end caps that opens and leaves can be placed to make a solid top table longer). Breadboard leaf tables \*\*only available in wormy maple rough sawn texture. Smooth sanded (R) not available. Comes standard with table levelers. Includes turnbuckle. Wood stretcher optional. Inset cross member is a leg and chair obstruction on 72" and shorter tables. (Recommended 84" and larger). Rectangular Tabletop

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**RUSTIC LOFT 3 1/2" LEGS DINING TABLE**

Rustic Loft table comes with turnbuckle, bolts and tenon detail. Comes standard with glued up top (wood boards, straight line cut, glued side by side to create a solid wood panel top). 1 1/2" material used to achieve 1 3/8" final top thickness. Fixed or leaf breadboard option available and can be deleted. Breadboard leaves (extensions placed on the ends of tables. Wooden slides attached to a board or end caps that opens and leaves can be placed to make a solid top table longer). Breadboard leaf tables \*\*only available in wormy maple rough sawn texture. Smooth sanded (R) not available. Comes standard with table levelers. Includes turnbuckle. Wood stretcher optional. Breadboard leaves range from 12", 16", 18", 22", 24". Standard 18". Inset cross member is a leg and chair obstruction on 72" and shorter tables. (Recommended 84" and larger). Rectangular Tabletop

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**SANTA MONICA DINING TABLE REAL LIVE EDGE**

Santa Monica table features a tempered glass base and live edge top. Comes standard with glued up top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top)

Every live edge table is unique. Variance in width and thickness is a natural feature of live edge furniture.

Bark live edge is only available rough sawn and is not available in smooth sanded (R).

Variations of up to 6" in table width from specified width can be expected. 2" Material used to achieve 1 3/4" final top thickness (rough) 1 1/2" (smooth).

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer). Only available in summer cut live edge.

Only available in solid top. No leaf options. Table levelers not available. Available with square edge for the same price.

Felt pads recommended to protect glass from hard floors and surfaces.

**SEQUOIA 3 1/2" LEGS DINING TABLE**

Sequoia table features unique exposed leg detail. Comes standard with plank top (Glued up wood boards, held together with a wood spline, with visible v-groove). Hidden end leaf option available.

1 1/2" material used to achieve 1 3/8" final top thickness with built up edge, total 3 3/4". End leaves (extensions placed on the ends of tables. Wooden slides attached to a board or end caps that opens and leaves can be placed to make a solid top table longer). \*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available.

Breadboard leaves range from 12", 16", 18", 22", 24". Standard 18".

Inset apron breadboard with grain running across table. Wood board fastened on slides and inset between legs under tabletop.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

## SHORE SINGLE PEDESTAL DINING TABLE

Shore single pedestal dining table with Slab Top with inset apron features unique carriage bolt detail.

Available in a round solid top or optional centre leaf table. Width restrictions 42"W-60"W. Length restrictions 42"L- 84"L with leaf extensions).

1 1/2" Material used to achieve 1 3/8" final top thickness with inset apron.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

Comes standard with table levelers. Round table top sizes are limited by the scale of the base.

Can self store one leaf if one leaf is left in tabletop. May require quarter-turn of base.

Must specify self storing option.

Centre leaf inset apron. Slab top table with grain running across table with centre slides that extend. Place leaves with pins onto slides.

Aprons are inset to conceal the table slides.

## STONE COTTAGE 4 1/2" LEGS DINING TABLE

Stone Cottage table features antique farmhouse style, with inset legs with wraparound apron.

Comes standard with Slab Top with inset apron (wood boards, straight line cut, glued side by side to create a solid wood panel top).

1 1/2" material used to achieve 1 3/8" final top thickness. Breadboard leaves (extensions placed on the ends of tables.)

Wooden slides attached to a board or end caps that opens and leaves can be placed to make a solid top table longer.

\*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available.

Comes standard with table levelers.

Standard breadboard end with plank top. Priced standard with 18" leaves.

Breadboard leaves range from 12", 16", 18", 22", 24". Standard 18".

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**TIMBER 3 1/2" LEGS DINING TABLE**

Timber table comes with wood cross stretcher, bolts and tenon detail. Comes standard with Plank Top with inset apron (wood boards, straight line cut, glued side by side to create a solid wood panel top, with fixed breadboard leaves). 2" material used to achieve 1 3/4" final top thickness. If breadboard leaves are deleted and top runs full length of table. Comes standard with table levelers.

\*\*Only available in wormy maple rough sawn texture.

Inset cross member is a leg and chair obstruction on 72" and shorter tables. (Recommended 84" and larger).

For turnbuckle stretcher add \$150.

**TIMBER 4 1/2" LEGS DINING TABLE**

Timber table comes with wood cross stretcher, bolts and tenon detail. Comes standard with plank top with inset apron (wood boards, straight line cut, glued side by side to create a solid wood panel top). 2" material used to achieve 1 3/4" final top thickness.

Fixed or leaf breadboard option available and can be deleted. Breadboard leaves (extensions placed on the ends of tables. Wooden slides attached to a board or end caps that opens and leaves can be placed to make a solid top table longer).

Breadboard leaf tables \*\*only available in wormy maple rough sawn texture. Smooth sanded (R) not available.

Breadboard leaves range from 12", 16", 18", 22", 24". Standard 18".

Inset cross member is a leg and chair obstruction on 72" and shorter tables. (Recommended 84" and larger).

For turnbuckle stretcher add \$150.

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

## TOLEDO DINING TABLE

Our Toledo table features 5 1/2" turned legs with cross stretchers. We have built this table 20 feet long. including 2-24" breadboard leaves. Features well in larger spaces. Comes standard with plank top (Glued up wood boards, held together with a wood spline, with visible v-groove). 1 3/4" plank top with inset apron. Comes standard with table levelers.

Legs standard 5 1/2". Fixed breadboard ends.

Inset cross member is a leg and chair obstruction on 72" and shorter tables. (Recommended 84" and larger).

\*\*Only available in wormy maple rough sawn texture. Smooth sanded (R) not available.

**Must specify overhang size.**

## Canadian Wholesale Pricelist

### TOLEDO DINING TABLE

Our Toledo table features 5 1/2" turned legs with cross stretchers. We have built this table 20 feet long. including 2-24" breadboard leaves. Comes standard with plank top (Glued up wood boards, held together with a wood spline, with visible v-groove). 1 3/4" plank top with inset apron.

Breadboard leaves (extensions placed on the ends of tables. Wooden slides attached to a board or end caps that opens and leaves can be placed to make a solid top table longer).

Comes standard with table levelers.

Legs standard 5 1/2".

Breadboard leaves range from 12", 16", 18", 22", 24". Standard 18".

Inset cross member is a leg and chair obstruction on 72" and shorter tables. (Recommended 84" and larger).

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

**TUSCAN DOUBLE PEDESTAL DINING TABLE**

Tuscan double pedestal table featuring centre leaf option. 1 1/4" Slab Top with inset apron. (Wood grain runs across table top).

Width restrictions 42"W-48"W. Length restrictions 72"L-152"L including leaf extensions). Square turned pedestal.

Comes standard with table levelers. Centre leaf inset apron. Slab top table with grain running across table with centre slides that extend.

Place leaves with pins onto slides. Aprons are inset to conceal the table slides. Self storing leaves.

Can store up to 4 leaves if aprons on two leaves are deleted.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

Rectangular Tabletop, Optional Round Top

## WHISKY TURNBUCKLE DINING TABLE

Whisky Turnbuckle comes with turnbuckle and tenon detail. The legs are angled on slight camber. Comes standard with Slab Top inset apron (wood boards, straight line cut, glued side by side to create a solid wood panel top).

2" Material used to achieve 1 3/4" final top thickness with inset apron.

\*\*Only available in wormy maple rough sawn texture. Standard fixed breadboard ends.

Smooth sanded (R) not available. Comes standard with table levelers.

Standard breadboard ends.

Breadboard leaves range from 12", 16", 18", 22", 24". Standard 18".

Inset cross member is a leg and chair obstruction on 72" and shorter tables. (Recommended 84" and larger).

#CPR: Chair Placement Restrictions. Smaller sized tables in width or length limit chair size, quantity, and placement.

## XTRA LIVE EDGE DINING TABLE

Every live edge table is unique. Comes standard with glued up top with authentic live edge boards (wood boards, straight line cut, glued side by side to create a solid wood panel top). Variance in width and thickness is a natural feature of live edge furniture. Variances of up to 6" in table width from specified width can be expected. Winter cut bark on live edge (chips and gaps are a natural feature. Touch up will be required after transport and use). Optional summer cut live edge (features authentic live edge smooth sanded).

Bark live edge is only available rough sawn and is not available in smooth sanded (R).

2" Material used to achieve 1 3/4" final top thickness (rough) 1 1/2" (smooth sanded). Standard with black powder coated base. Only available in solid top. No leaf options. Comes standard with table levelers.

\*\*\*Standard rough sawn texture, optional smooth sanded (R) extra 10%. (See disclaimer).

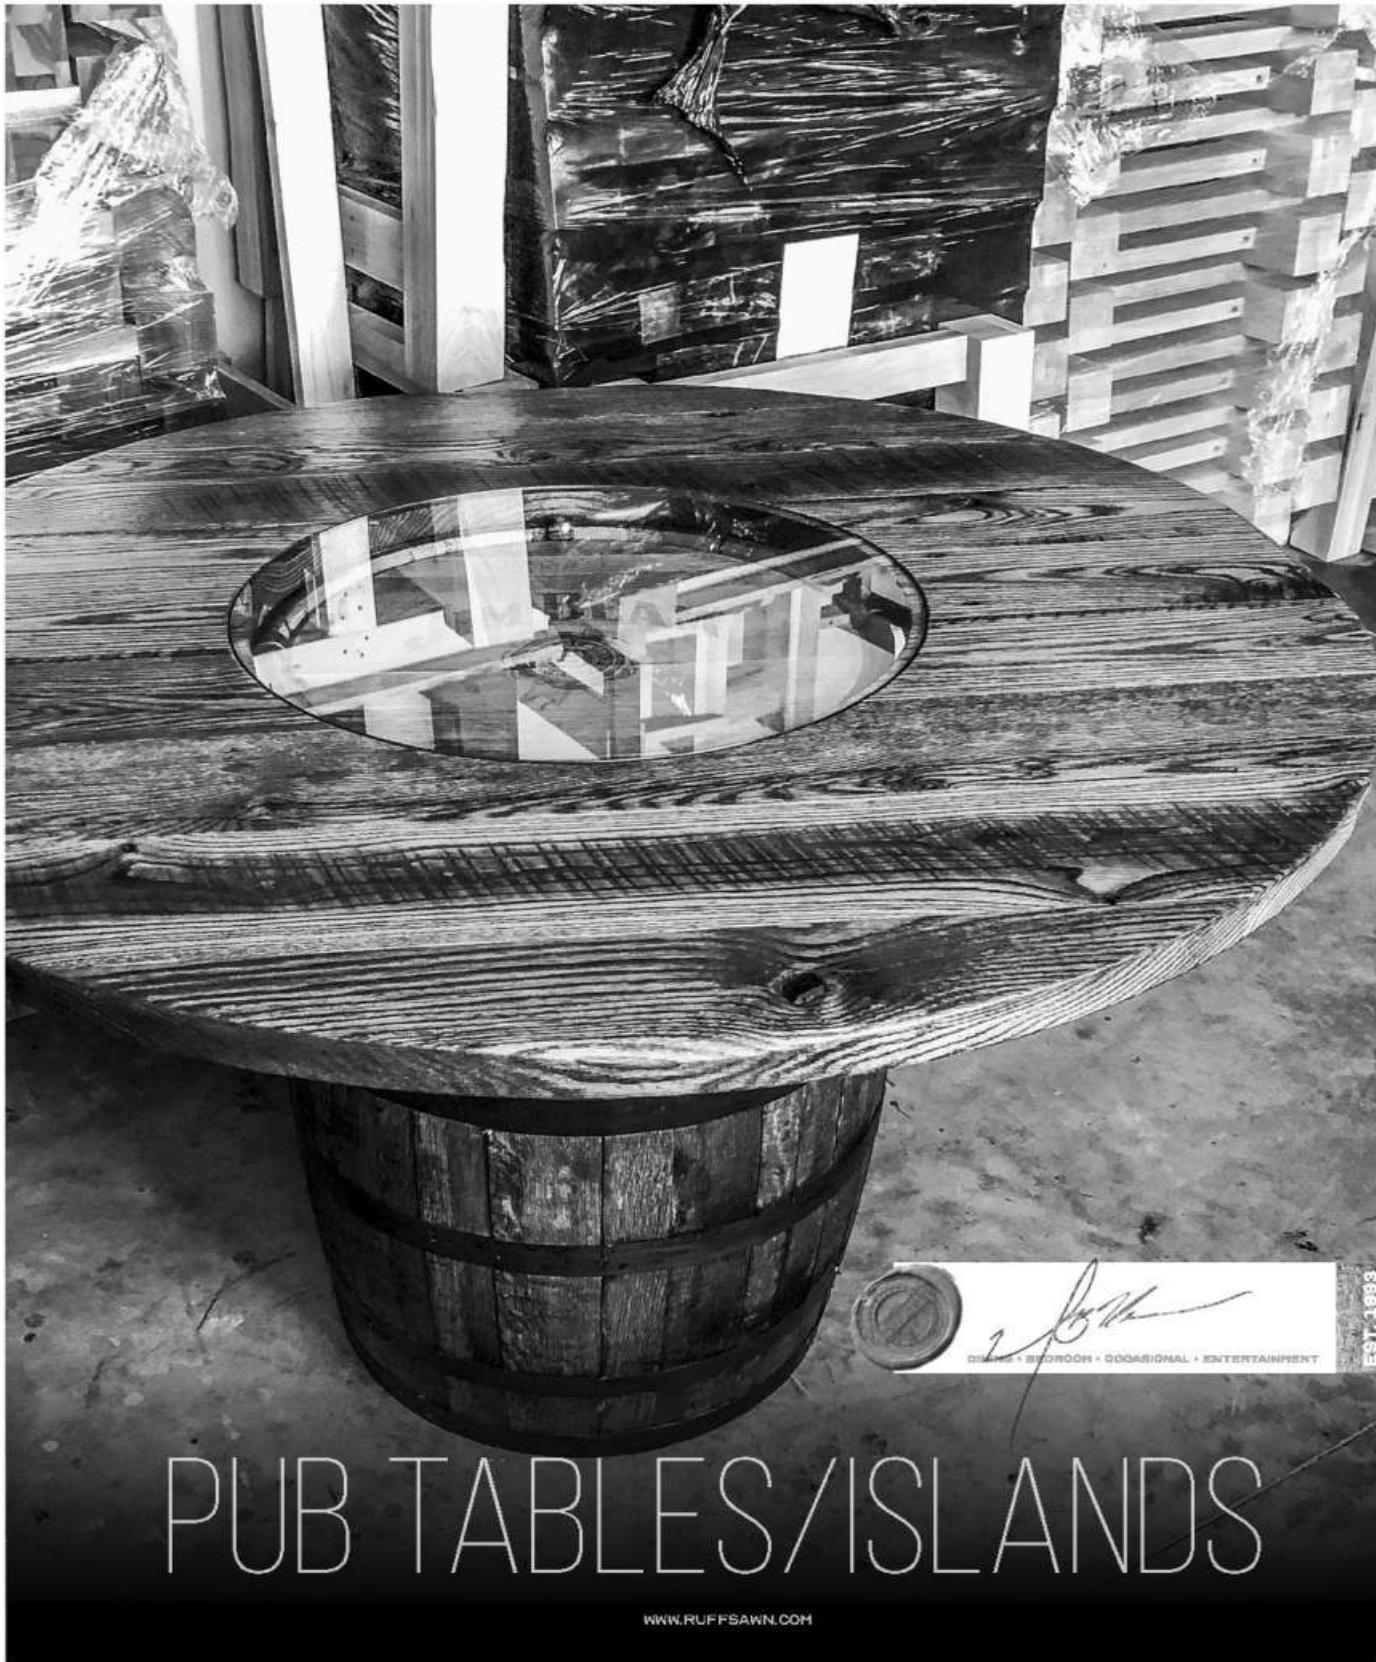

Please specify on your order whether you would like summer cut live edge (no bark) or winter cut live edge (with bark).

Rustic smooth sanded only available summer cut no bark.

Available with square edge for the same price.

OFFICE

## OFFICE FURNITURE

### Work Surface Tables

Introducing our new line of work surfaces for home or office. These tables are similar to our dining tables with adjusted dimensions to suit the home or office space. The bases are adjusted closer to the ends of the top to allow maximum leg room. All work surface with table bases typically have a 6" overhang. Customers can also add independent file drawers with storage.

To accommodate different work heights we offer 30" standard desk height, 36" high for elevated work surface, 42" high for standing work height.

Combining these surfaces in a L-shape or U-shape can offer 1-3 work heights in one workspace, making your work environment flexible for your work habits and comfort.

### L-Shaped Desks

Introducing our L-shaped work stations. These can be fit into a corner of an office or centred in a workspace and used as an executive desk for private meetings.

Finished on all upright sides, these desks can stand alone.

### Library Desks

Library desks are for smaller spaces. Perfect for a spare bedroom or main floor work surface. Equipped with a flip down front drawer, the library desk is versatile from regular pencil drawer storage to a keyboard and laptop work surface.

### Executive Desks

RuffSawn offers executive desks in single and double pedestal layouts. Impressive large scale desks for executive spaces, finished all the way around for open floor layouts. Standard drawer to file drawer options, knee drawers, computer keyboard, or laptop drawer options.

**WORK SURFACE TABLES  
ANCHOR DESK 1 3/4" TOP**

All work surface with table bases typically have a 6" overhang.

SKU	Description	Dimensions	Price
MDLEDK-84-56-30	Modelli Live Edge Desk 84"W x 56"D x 30"H - 1.1	84"W x 56"D x 30"H	\$ 2,350

## EXECUTIVE DESKS

### TIMBER DESK

RuffSawn offers executive desks in single and double pedestal layouts. Impressive large scale desks for executive spaces.

Finished all the way around for open floor layouts.

Standard drawers, file drawers, knee drawers, computer keyboard, or laptop drawer options are available.

SKU	Description	Dimensions	Price
TBDKSP3D	Timber Desk Single Pedestal 3 Drawer - 1.1	32"D x 54"L x 30"H	\$ 1,499
TBDKDP4D	Timber Desk Double Pedestal 4 Drawer - 1.1	32"D x 72)L x 30"H	\$ 1,985
TBDKDP6D	Timber Desk Double Pedestal 6 Drawer - 1.1	32"D x 72)L x 30"H	\$ 2,200
TBBC4S	Timber Bookcase w/ 4 Adj. Shelves	36"W x 80"H x 15"D	\$ 994
TBBC2D1FS3S	Timber Bookcase w/ 2 Doors 1 Fixed Shelf 3 Adj. Shelves	36"W x 80"H x 15"D	\$ 1,244

The image shows the interior of a RuffSawn showroom. A prominent feature is a set of large, dark wooden barn doors made of rough-sawn wood, which are partially open. Behind the doors, a rustic interior is visible, including a dining table and chairs. Above the doors, a large sign displays the 'RS' logo and the word 'RUFFSAWN'. To the right of the doors, a long wooden beam with the 'RuffSawn' name written on it spans across the ceiling. The ceiling itself is made of exposed steel trusses. In the foreground, the words 'BARN DOORS' are printed in a large, white, sans-serif font.

## BARN DOORS

1. Select your Barn Door Style, quantity, measurements, and stain (1x Timber 30x80 in GGO, 2x Originals 42x84 in Charcoal, etc.)
  2. Select "Trollies". You need 1x Trollies for each barn door (they come in sets of two). One door is "Trollies x1".  
Two doors, "Trollies x2".
  3. Select Track Length: This is typically the door width x2, plus a couple inches extra. So a 30" wide single door takes a 62" track.  
Each track description will tell you the matching door size.
  4. Select matching Mounting Board length (62" wide board for a 62" wide track, etc). Unless otherwise requested, all mounting boards are stained to match the barn doors.
- Remember to add what colour of stain you would like on the doors and mounting board.  
If you want a custom size for your track/mounting board, pricing is listed by the foot.

## WOODLAWN FURNITURE MARKET INC. & ASSOCIATED BRANDS' IMAGE POLICY

All images produced by Woodlawn Furniture Market Inc. and associated brands is sole property of our organization. The purpose of these images is to build and develop our brands. Only Woodlawn Market Inc. and associated brands or authorized dealers or agents have authorization to produce or share these images for marketing purposes. No dealer is authorized to share our images for marketing unless consent has been granted by Woodlawn Furniture Market Inc. and associated brands.

No organization or person has authorization to upload Woodlawn Furniture Market Inc.'s catalogue onto private or publicly shared devices or spaces that have not been authorized by Woodlawn Furniture Market Inc. External storage programs that share our library without authorization face litigation. Example: Issuu.

Woodlawn Furniture Market Inc. and associated brands reserves the right to authorize or revoke authorization or use of any images produced for the purpose of marketing these brands for the external promotion of our products. Failure to comply with these terms will result in litigation at Woodlawn Furniture Market Inc.'s discretion.

### **1. RuffSawn Brand Dealer Image Policy**

All RuffSawn brand dealers of Woodlawn Furniture Market Inc. and associated brands will have access to our full line of product images and catalogue for internal and external use for the purpose of selling our products.

In order to qualify for use of Woodlawn Furniture Market Inc. and associated brands' images, a dealer must be active and promoting the brands these images are associated with. We reserve the right to monitor any marketing or social media to enforce the use of our images in accordance with our brand values. All dealers who qualify for use of our images are subject to a quarterly review. Woodlawn Furniture Market Inc. and associated brands retain the right to modify policies at any time. If branding images are requested with dealers' logos, we can offer modified images for \$95 an hour. All modified images remain the property of Woodlawn Furniture Market Inc.

All authorized branded dealers will be protected from unauthorized use of images. Our legal team will directly address any infractions through the use of local legal offices within the jurisdiction of the offending entity. Please report any suspicious or questionable use of our images, video, or merchandising tools.

### **2. Branded Dealer Internal Image Use Policy**

All partners of Woodlawn Furniture Market Inc. and associated brands will have access to our full line of images and catalogue for internal use for the purpose of selling our products. Internal use includes showroom access, and internal sales tools or systems for traditional brick and mortar or design projects.

### **3. Branded Dealer External Image Access & Advertising**

We have 10 levels of access for brand dealers focused on promoting products manufactured by Woodlawn Furniture Market Inc. or associated brands. This policy allows for any size organization to have reasonable access to our products and images. Dealers from small to large will have varying levels of access to images for external promotion. These images will be provided upon request based on sales volumes and acceptance of our terms and conditions.

### **4. Private Label Dealer Image Policy**

Dealers focused on private labelling will have reduced access to images. They may use our catalogue internally. Private label dealers will not have access to any of our branding images that are designed to promote the RuffSawn brand. Also, names, SKUs, and/or collections must be modified or changed to a numeric value to avoid cross-comparison shopping or search engine optimization. No trade or product names are authorized for use for public advertising with private label dealers. Private label dealers are not allowed to advertise the RuffSawn brand (rough sawn). Website and marketing optimization for search engines cannot target official RuffSawn sites. Pricing and marketing must uphold the same principles of RuffSawn branded products.

### **5. Private Label Internal Image Use Policy**

Authentic craftsmanship marketing images will not be available. All private label partners of Woodlawn Furniture Market Inc. and associated brands will have access to our line of product only images and catalogue for internal use for the purpose of selling our products. Internal use includes showroom access, and internal sales tools or systems for traditional brick and mortar or design projects. We request all SKUs and product names be white labelled to prevent cross-shopping.

A TRADITION OF CRAFTSMANSHIP SINCE 1993

[DATE]

[Name]  
[Address]

Dear ■:

**Re: Woodlawn Furniture Market Inc. - Copyright Infringement**

---

It has come to our attention that [Company Name/Individual's Name] has illegally reproduced photographs and/or images belonging to Woodlawn Furniture Market Inc. and/or its associated brands, including, RuffSawn, West Montrose Furniture, WoodHaven Furniture (collectively, "Woodlawn").

On [date], Woodlawn discovered that the following images were reproduced on [website name] [Include if applicable: to sell counterfeit Woodlawn products]:

- [list image names, descriptions and SKUs]
- 

(collectively, the "**Images**")

The Images (and all other images or photographs found in Woodlawn's catalogue or marketing materials) were created by Woodlawn. Consequently, these images are the **sole** property of Woodlawn and Woodlawn therefore possesses the **exclusive right to use, reproduce, modify or communicate them to the public** for marketing purposes, or any other purpose, unless it has provided permission otherwise. Woodlawn is not aware of having provided [name] with permission at any time to use or reproduce its images.

Under the Copyright Act of Canada, photographs are considered to be "artistic works" and are therefore protected under Canadian copyright law. **Please consider this notice that you have infringed Woodlawn's copyright by reproducing the Images as set out above.** As a result of your infringement, Woodlawn is entitled to damages.

[Insert if applicable:] Furthermore, your use of the Images to sell counterfeit products is in violation of our Image Policy for our dealers.

197 Hanlon Creek Boulevard, Unit 106. Guelph, ON N1C 0A1 P: 519.763.4949 E: info@woodlawnfurniture.ca

# WOODLAWN FURNITURE

M A R K E T   I N C .

A TRADITION OF CRAFTSMANSHIP SINCE 1993

**Woodlawn hereby demands that you immediately cease and desist all use or reproduction of the Images and any other Woodlawn intellectual property.** Woodlawn requires that you remove the Images from your [website/catalogue/etc] forthwith and provide confirmation in writing that you have done so by [date 5 business days from date of letter].

If you do not comply, or if we fail to receive notice that the Images have been removed, we will be forced to escalate this matter to our legal counsel to commence litigation and pursue our rights to the fullest extent of the law.

Please govern yourself accordingly.

Yours very truly,

WOODLAWN FURNITURE MARKET INC.

[Name of signatory]

[Title/Position]

197 Hanlon Creek Boulevard, Unit 106, Guelph, ON N1C 0A1 P: 519.763.4949 E: [info@woodlawnfurniture.ca](mailto:info@woodlawnfurniture.ca)

**6. Private Label External Image Access & Advertising**

Authentic craftsmanship marketing images will not be available. We have 10 levels of access for product only images for promoting products manufactured by Woodlawn Furniture Market Inc. or associated brands. This private label program allows for any size organization to have reasonable access to our product images. Dealers from small to large will have varying levels of access to images for external promotion. These images will be provided upon request based on sales volumes and acceptance of our terms and conditions. We request all SKUs and product names be white labelled to prevent cross-shopping.

**7. Image Resolution Policy**

All images used in smaller format for internal use will have limited resolution. Screenshots are permitted for internal use for sales processes.

For external marketing, the resolution will be enhanced for larger format advertising. Woodlawn Furniture Market Inc. does not authorize the use of low resolution images in marketing or authorized online sales. Screenshots and low resolution images are damaging to the brand and are not authorized for external marketing use. We reserve the right to withhold any image we deem unfit for high resolution publication and retain the right to request the removal of low resolution images from public spaces.

All images will be watermarked with RuffSawn logos. These watermarks cannot be removed when using our images for any purpose, such as social media or marketing. These images are only allowed to be used by approved dealers that market the RuffSawn brand.

All images that are to be used must have an approval form completed. No screen shots or edited photos may be used on any website. All proper resolution photography must be requested and approved by RuffSawn. These images will be provided with proper resolution through our media department.

**8. External Image Library Policy**

Using Woodlawn Furniture Market Inc. and associated brands' images for external or public promotion of our brand are limited to strict guidelines. Images can be revoked at any time and must be removed upon request. The following progressive program is to help support the health of the brand and the advancement of engaged dealers or marketers of Woodlawn Furniture Market's products.

**9. Product Marketing & Design Infringement Policy**

Any dealers found producing or copying our products offshore or domestically will be required to compensate RuffSawn for their intellectual property and face termination of dealership. Any dealer found using our images to sell counterfeit products or for the sole purpose of marketing to intentionally convert sales to another product will have images revoked and access to our product removed. Editing or altering our images to conceal their identity/origin will not be permissible.

**10. Catalogue Policy**

All dimensions listed in our catalogue are subject to change. If dimensions are critical, submit by email a request for confirmation of specification. Any variances will not be the responsibility of Woodlawn Furniture Market Inc., RuffSawn, RS2, or West Montrose.

**DISCLAIMER**

All dimensions (if dimensions stated are critical to customer's purchase ask order desk for confirmation of actual dimensions. Items cannot be returned due to dimensional discrepancies.), wood species, features, finishes, hardware, textures, SKUs, page numbers, spelling, scale and perception, font sizes, clauses, shapes, product names that are found on our website, in our catalogue, social media sites, and price list are subject to errors and omissions. We reserve the rights to change and/or update incorrect information at anytime. Errors or mistakes will not be subject to penalty or compensation by dealer, retail customer, government, province, state, international, national, or local law. Please contact us by email at info@woodlawnfurniture.ca for clarification and corrections.

**11. Continuous Refinement Policy**

In keeping with our continuous refinement policy, we reserve the right to alter specifications and styles without general notice, or obligation to make similar changes in products previously ordered or produced.

**12. Fonts, Language, Translation & Information Clause**

If any information, marketing, adds, website, handicap regulation, inclusion clause, exclusion clause, if any information has been found outside the permitted laws of any government or consumer the product has been shipped or located to, Woodlawn Furniture Market Inc. and associated brands reserves the right to adjust any information that is needed. Any language or translation laws either federal or jurisdictional must be filed or shared with Woodlawn Furniture Market Inc. with no legal charges or fines with a 30-day cooling period to allow for adjustment to satisfy legal requirements.

**13. Internet Marketing Policy & MAP Pricing Policy**

All products advertised for the purpose of selling online using authentic SKUs, names, brand, and/or images of products produced by RuffSawn and associates must have a minimum advertised markup of x3 the wholesale cost on the USA or Canadian wholesale price list. This is the Minimum Advertised Price (MAP) that can be publicly advertised. Our products are a premium and luxury product manufactured in North America and require these prices points to support our dealer and boutique network.

Pricing offered through private systems that are not the public promotion of RuffSawn products to existing customers have authorization to price items at their own discretion. These prices cannot be accessible through any search engines or SKU references or name searches. If items are discovered to be below the MAP pricing and compromises the stability of Woodlawn Furniture Market Inc. and associated brands business, we reserve the right to request the removal of prices from the dealer portal or site.

To become an online retailer of Woodlawn Furniture Market Inc. and associated brands you must apply for status and agree to the terms and conditions of an online marketer and MAP pricing. A modified return policy and an adjusted price list is available to properly support the online business model. Typically, online marketers need to pay 30 - 50% more to support back end logistics and return policy. Online sales will be limited to vendors capable enough to provide white glove delivery, setup, service, and warranty to the end user.

**14. New Price List & SKU Structure Policy**

We at Woodlawn Furniture Market Inc. are working hard to update our systems. We have discontinued all SKUs previous to our 2020 price list and require all dealers to upgrade their systems. These new SKUs fix legacy issues with the growth we have experienced in the last 7 years. With the new structure we will give a 30 day grace period from date of the price list publication for adjustments.

Our prices are subject to change without prior written notice. Any errors or omissions can be corrected without prior notice on confirmation invoice. Incorrect pricing will not be honored. We reserve the right to not accept or cancel orders.

As we update our price list and catalogue, all previous catalogues, price lists, information and data cannot be used beyond a 30-day period (subsequent to the release of our latest version). Updates and revisions will be continuous during the year. Errors, omissions, and SKUs from previous price lists cannot be referenced on orders for pricing or dimensions. Updates to pricing and data will be sent via email to ensure accuracy. If pricelist updates were not received by the Dealer due to a lack of updated email information, discrepancies in costing or product information will not be covered by Woodlawn Furniture Market Inc.

All SKUS, descriptions, and pricing are the responsibility of the Dealer to update and maintain accuracy. Promotions have time limits and cannot be redeemed past the promotion expiry date. Outdated pricing will not be honoured if these outdated prices are referenced by the Dealer. All quotes are valid for 14 days and cannot be honoured after this period; a new quotation is required to ensure validity. All non-standard SKUs that are not considered standard products will be re-quoted upon every purchase submission. A non-standard SKU consists of only numbers and no letters (e.g. 108209308). If a Dealer wants to floor a special design, they must request a SKU be created that will be added to our standard price list. This will ensure that proper pricing structures can be developed to support the item for re-order. Any errors of non-standard SKUs will be the Dealer's responsibility.

**15. Pricing Policy**

Woodlawn Furniture Market Inc. and associated brands reserves the right to cancel or change any promotion at any time. Any promotions being offered cannot be combined. Promotional products do not qualify for any additional discounts. Quickship items and Value priced items may also not qualify for a promotion. Email info@ruffsawn.ca for confirmation of details or clarifications. Items in the catalogue or custom quotes prices can be changed without notice due to unforeseen circumstances. For any promotions that cannot be combined, the promotion with the greatest discount will be applied. With some promotions the maximum discount will include the early payment discount.

**16. Intellectual Property**

Woodlawn Furniture Market Inc. and associated brands is a custom furniture producer. If requested to manufacture a product according to a specification and we are not aware of its origin, we cannot be held responsible for copyright or intellectual theft. Any ideas or designs shared with Woodlawn Furniture Market Inc. by dealers, suppliers, or staff through any documented communication or verbal discussions, becomes the sole property of Woodlawn Furniture Market Inc. and will not be required to pay compensation for intellectual property.

**17. Privacy Policy**

Woodlawn Furniture Market Inc. follows all privacy laws in securing customers data and information. Woodlawn Furniture market Inc. will not share or sell customer information. All information obtained is solely for the purpose of doing business directly with clients who are direct customers of, or customers of agents, designers, boutiques, dealers, galleries, or franchises of Woodlawn Furniture Market Inc. or associated brands. No information will be shared or sold to outside parties without the consent of the customer. To prevent data breaches, we employ independent IT companies to insure we have properly secure data systems. Our secure data systems prevent data breaches. Woodlawn Furniture Market Inc. secures data to the highest standards. If data is compromised customers will be notified. Woodlawn Furniture Market Inc. or associated brands can not be held liable if data is leaked. All reasonable precautions have been implemented. Malicious or unforeseen attacks without Woodlawn Furniture Market Inc. knowledge cannot be held liable for damages resulting in litigation for financial damages. Any fraudulent charges resulting from breach of security will be outside parties' responsibility to cover and compensate.

**18. Legal Ambiguity**

If products are transported outside or inside the planet all language and policies, inclusions, exclusions apply. All policies are clearly stated and of any policies need to be added or retracted Woodlawn Furniture Market Inc. reserves the right to change these regardless of time, date, or jurisdiction.

**21. Environmental Policy**

All products produced or work performed by Woodlawn Furniture Market Inc. and associated brands will be performed in accordance with jurisdictional requirements that the products will be sold or shipped to. If any regulation supersedes the standards of Woodlawn Furniture Market Inc. or associated brands. We maintain the right to reasonable proceeding and time allotments be given to adjust or address the requirements to ensure we meet with jurisdictional requirements. Any products sold or distributed that in future are deemed unsafe of not fit for sale will be the responsibility of the end user to discard. Woodlawn furniture accepts no legal or monetary responsibility for the disposal or repair of products produced that are considered no longer fit for any use. Any products that are applied, used, engineered by or from second or third party suppliers, is not suspect to monetary compensation or replacement in present or future.

**22. Fabric & Upholstery Laws**

All fabrics are produced new with no recycled consumer products that pose a health risk to consumers. If inspectors require further clarification or documentation Woodlawn Furniture Market Inc. or affiliated brands will comply with any reasonable requests.

**23. Outside Dealer or Agent**

RuffSawn has many independent dealers or agents that may misrepresent our products. If an agent has agreed to our Terms and Conditions and has engaged in selling our products after acknowledging our Terms and Conditions, they are responsible for honouring any promises that go beyond our policies. If details have not been communicated properly or according to order entry process and approvals, the agent or dealer must compensate or rectify the issue to the customer's satisfaction. If products have not been paid for by the dealer and dealer or agent has received a deposit from the consumer, the consumer must contact the agent, dealer, or representative to receive compensation or refund. Woodlawn Furniture Market Inc. will only honour direct agreements or written policies at our discretion.

**24. Pandemic Policy**

Woodlawn Furniture Market Inc. reserves the right to extend lead times of production due to external and internal challenges experienced during a pandemic. This will help ensure the health and safety of our staff and customers. All special orders are non-cancellable, and deposits will be required by cheque or credit card. These amounts are non-refundable, and orders are non-cancellable. These items will be completed on a time-sensitive schedule that is outlined by Woodlawn Furniture Market Inc. We reserve the right to require cash on delivery (COD) payment before shipping. Items may require modification or substitution due to interruptions in our supply chain. Hardware options, lumber, and coatings may vary due to circumstances beyond our control. We reserve the right to cancel an order we deem is unable to ship. We also reserve the right to sell unclaimed merchandise after 30 days.

**25. COVID-19 Return Policy**

Due to the COVID-19 outbreak, effective March 20th, 2020 any outstanding returns will be suspended indefinitely. All items unpaid for will be submitted for collection. Clearance merchandise will be discounted appropriately and will be the Dealer's responsibility to liquidate and/or clear. Our new warranty policy effective March 2020 addresses environmental concerns.

This particular update to our warranty and return policy is in light of the COVID-19 outbreak to minimize the risks to Customers. If a Dealer receives a returned item from a customer, it is the Dealer's obligation to disinfect all items and resell them as clearance. It is the Dealer's responsibility to take the necessary precautions to protect their staff and customers from transmission of infectious diseases.

**26. Woodlawn Furniture Market Inc.'s Infectious Disease (COVID-19) Prevention Program**

Woodlawn Furniture Market has made the following steps to ensure a clean and safe working environment for all production staff and sub suppliers. These steps either meet or exceed government requirements.

Our production facility has been divided into working zones or cells. This will help to ensure that policies and best practices are in place to mitigate risk. Our facility is locked and only accessible by staff with security cards or keys. All staff will be screened before entering the facility each workday. Forehead thermometers are used to monitor our staff's health. Further, punch clock use has been suspended and personal cell phones have been updated with software to allow for punch clock access. Hand sanitizer and boot wash stations are installed at every entrance. Each zone has been limited to 5 workers and the use of personal protective equipment (PPE) and social distancing is enforced within each cell where possible. Each cell has a break station, restroom, and hand washing station.

All our offices and cells are disinfected on a frequent basis. Products traveling from one cell to the other will be disinfected. Bleach is used during preparation of products for the finishing process prior to sanding. Chemicals, stains, and coatings are applied and transported to ovens for drying products. Our final process involves preparing products for packaging. Surfaces of items are cleaned with antibacterial disinfectants. Items are wrapped in packaging. Boxes will be sprayed with disinfectant and placed on skids. Stretch film is wrapped around skidded products.

Woodlawn Furniture Market Inc. is working towards paperless bill paying and other business practices where possible. We encourage all Dealers to pay for goods electronically and not by cheque. In-person staff meetings have been cancelled. We are employing social distancing and utilizing technology wherever possible for communication. Drivers picking up furniture are not be allowed to enter our facility. They are required to contact our facility by phone upon arrival and again when safely secured and docked. Drivers are to remain in their vehicles. Any required paperwork is placed in the back of truck/trailer without a signature. A picture will be taken of the truck or trailer number to ensure digital proof of pickup.

Staff will disinfect themselves as well as disinfect equipment after re-entering the facility from loading trucks. Curb-side pickups utilize same procedures.

Dealers and delivery partners are encouraged to use the same level of care while distributing our products.

## **27. Reported Illness Procedure**

If a staff member fails in-house screening, he/she will be sent home and monitored for 24 hours after which they will be reassessed. If illness persists, they must self-isolate for up to 2 weeks if COVID-19 is suspected outside of available testing.

The other members who shared a cell with the staff member who failed in-house screening will also be assessed daily. If signs of an outbreak appear, the cell will be shut down for 14 days ensuring proper quarantine has been followed. The cell will be disinfected in preparation for staff return after proper testing and a clear bill of health has been confirmed.

All other production cells will be monitored. The isolated zones created will allow additional cells to operate to ensure product flow at a reduced capacity, until a proper assessment has been completed and operation has been approved to resume.

## **28. Woodlawn Furniture Market Inc.'s Infectious Disease Dealer & Consumer Agreement**

Woodlawn Furniture Market Inc. will continue to put necessary safeguards in place and maintain them. Our goal is to protect against infectious disease transmission from or through our products, while at the same time, maintaining our obligations to customers.

All customers accepting products from Woodlawn Furniture Market Inc. (Ruffawn Furniture, Wood Haven Furniture, West Montrose) understand and accept the risk associated with any infectious disease (e.g. COVID-19) potentially transmitted during shipments from Woodlawn Furniture Market Inc., associated companies, or third parties transporting, marketing or selling our products. We have made every effort to embrace proper and reasonable steps to ensure a safe work environment. Woodlawn Furniture Market Inc. cannot be held responsible for any transmission or outbreak of an infectious disease and is not liable for legal or financial damages associated by accepting shipments of our products.
